*According to an article in Database Italia, the complaint lodged last week in the Hague court accusing the Israeli government of violating the Nuremberg code has been confirmed. A decision is now awaited.*

A complaint was filed in The Hague Tribunal by lawyers Ruth Makhacholovsky and Aryeh Suchowolski last weekend regarding violations of the Nuremberg Code by the Israeli government and other parties. We recall that the People of Truth organization has filed a complaint against the Israeli government, which is carrying out illegal experiments on Israeli citizens through the Pfizer vaccination.

“The organization includes lawyers, doctors, public activists and the general public, who have chosen to exercise their democratic right not to receive experimental medical treatment (Corona vaccine), and feel under great and serious pressure. illegal acts by the Israeli government, parliamentarians and ministers, senior representatives of the public, mayors, etc.”

Therefore, and taking into account the above, they ask:

1. L'immediate cessation of medical experience and administration of vaccines to the Israeli public.
2. Ask the government adopt all legislative procedures that do not violate the principle of informed consent of a person to receive the medical treatment described above, which denies legal status in Israel and in Israeli democracy, including avoiding the creation of a health passport, giving the names of unvaccinated people to local authorities or to any other competent legislator.
3. Take the most severe measures against any public, commercial or employment entity that violates state labor laws or other matters necessary to prevent coercion or solicitation of vaccines, as well as discrimination, against those who choose not to receive the vaccines. innovative medical care mentioned above.
4. Draw your attention to the fact that a copy of this document will also be sent to the

media around the world for violating the Nuremberg Code. Relevant in all countries of the free world.

5. And as a final remark, it should be noted that it was only recently that a Council of Europe decision was taken on 27/1/21, in which all authorities are ordered not to exercise pressuring or soliciting people to take the Corona vaccine in any way. Therefore, whatever is good for advanced European countries is certainly also good for Israel – and the balance is obvious ”.

Lawyer Ruth Makhachovsky told Israel News:

“Pfizer’s experiment in the State of Israel was carried out in violation of the Nuremberg Code, which is part of international criminal law and is under the jurisdiction of the Hague tribunal. We are now awaiting a decision”.
