Remember "Saydnaya Military Prison"? It was the subject of enormous media attention a while back on the basis of a "report" from Amnesty International that turned out to have been [fabricated in the UK](#) by a virtual reality company "using 3D models, animations, and audio software, based on the admittedly baseless accounts of alleged witnesses who claim to have been in or otherwise associated with the prison."

Well, the totally imaginary interior of Saydnaya now – according to US State Dept – has a totally imaginary "crematorium" added to it in which to dispose of all the totally theoretical corpses being generated by the completely unsubstantiated mass-murders. Here is the impressive and plausible Stuart Jones telling us all about it.

Yes, he lies about the "well-documented" chemical attacks. Yes, he manipulates and exaggerates and omits to the point of fraudulence in his summary of the "civil war." Yes almost every detail of his claims about the goings-on in Saydnaya is based on Amnesty's invented "report" and the completely unverified testimony of alleged inmates...

...but, but...they have *satellite images*!

In case you're not getting the message [WaPo](#) kindly enhanced and simplified things:

See? That thing on the right that could be absolutely anything is actually a *crematorium*. The State Department “believes” it with all its heart and wants us to believe it too. As do the [Guardian](#) the [WaPo](#) and the [BBC](#) and every other mainstream outlet. They want us to ignore the total absence of *any evidence whatsoever* for *any part* of their narrative and simply take their word.

That’s a “crematorium”. And it’s being used to burn *masses of bodies*. Just like in the *Holocaust*.

Because Assad (and Russia) = *Hitler*.

We need to tear up the ceasefires and ignore the de-escalation zones and invade Syria.

Everyone got that?
