Iranian military troops have shot down a spy plane of the US army during the last few days, an Iranian MP said here on Tuesday.

Representative of Dasht-e Azadegan at the Islamic Consultative Assembly, Seyed Nezam Mola Hoveizeh also told FNA that the aircraft has been a spy drone of the US army and that it has been shot down when trying to cross the borders.

"Americans send such spy drones to the region every now and then," the lawmaker further pointed out.
