Dramatic loss of life in the terror attacks in Brussels: 34 killed and more than 180 wounded according to the latest reports.

Prior to the conduct of a police investigation, in the hours following the attacks, the Western media went into overdrive, intimating without evidence that the Islamic State (ISIS) operating out of Raqqa, Northern Syria was responsible for the attacks.

According to *the Independent* "Isis supporters have been celebrating the Brussels attacks online [social media] as speculation mounts that the group is behind a wave of deadly attacks in the Belgian capital."

Isis supporters claim responsibility for Brussels attacks

The terrorist group did not immediately release a claim through its official channels

The report is based on information emanating from social media, which does not constitute a reliable source of information.

An unknown [self-proclaimed news agency](#) (Amaq Agency) allegedly representing the ISIS provided the following report:

Brussels – Amaq Agency: Islamic State fighters carried out a series of bombings with explosive belts and devices on Tuesday, targeting an airport and a central metro station in the center of the Belgian capital Brussels, a country participating in the international coalition against the Islamic State.

Islamic State fighters opened fire inside Zaventem Airport, before several of them detonated their explosive belts, as a martyrdom bomber detonated his explosive belt in the Maalbeek metro station. The attacks resulted in more than 230 dead and wounded.

This mysterious agency was then immediately quoted by Reuters in an authoritative report.

In turn, alleged supporters of ISIS on twitter were quoted. According to the [Jerusalem Post \(March 21, 2016\)](#):

The “tears of joy” that were shed by ISIS supporters on Twitter are also related to the fact that the terrorists succeeded in paralyzing the activity in the airport attacked. One of ISIS’ main declared goals is to devastate the Western economy and replace the dollar with its own coin as the only international legal tender.

Who Controls the ISIS social media and twitter accounts?

Police and intelligence are often aware of the identity of ISIS social media, IP addresses, geographic location.

According to London’s [Mirror](#) (December 16, 2015):

Hackers have claimed that a number of Islamic State supporters’ social media accounts are being run from internet addresses linked to the [UK government] Department of Work and Pensions.

A group of four young computer experts who call themselves VandaSec have unearthed evidence indicating that at least three ISIS-supporting accounts can be traced back to the DWP.

Every computer and mobile phone logs onto the internet using an IP address, which is a type of identification number.

The hacking collective showed Mirror Online details of the IP addresses used by a trio of separate digital jihadis to access Twitter accounts, which have been used to spread extremist propaganda.

At first glance, the IP addresses seem to be based in Saudi Arabia, but upon further inspection using specialist tools they appeared to link back to the DWP.

..

[T]he British government sold on a large number of IP addresses to two Saudi Arabian firms.

After the sale completed in October of this year, they were used by extremists to spread their message of hate.

Jamie Turner, an expert from a firm called PCA Predict, discovered a record of the sale of IP addresses, and found a large number were transferred to Saudi Arabia in October of this year.

He told us it was likely the IP addresses could still be traced back to the DWP because records of the addresses had not yet been fully updated.

Hackers trace ISIS Twitter accounts back to internet addresses linked to Department of Work and Pensions

What the Daily Mirror report suggests (as well as other reports) is that the IP addresses of the ISIS are indirectly linked to the British government, i.e. 1) the identity of the ISIS social media is invariable known to police authorities, and 2) The ISIS social media are sponsored by Saudi Arabia, which is also involved in the recruitment and training of terrorists in liaison with US-NATO.

It is worth noting that the British government has acknowledged its responsibility:

The Cabinet Office has now admitted to selling the IP addresses on to Saudi Telecom and the Saudi-based Mobile Telecommunications Company earlier this year as part of a wider drive to get rid of a large number of the DWP's IP addresses. (Mirror, op cit cit, emphasis added)

The State Sponsors of Terrorism

The events in Brussels raises the broader question: who is behind the ISIS?

Israel intelligence sources (DEBKA) in a 2011 report confirmed the role of NATO operating out of its Brussels headquarters and Turkey's high command in the training and recruitment of terrorists:

NATO headquarters in Brussels and the Turkish high command are meanwhile drawing up plans for their first military step in Syria, which is to arm the rebels with weapons for combating the tanks and helicopters spearheading the Assad regime's crackdown on dissent. ... NATO strategists are thinking more in terms of pouring large quantities of anti-tank and anti-air rockets, mortars and heavy machine guns into the protest centers for beating back the government armored forces. ([DEBKAfile](#), NATO to give rebels anti-tank weapons, August 14, 2011)

This initiative, which was also supported by Saudi Arabia and Qatar, involved a process of organized recruitment of thousands of jihadist "freedom fighters", reminiscent of the enlistment of Mujahideen to wage the CIA's jihad (holy war) in the heyday of the Soviet-Afghan war:

Also discussed in Brussels and Ankara, our sources report, is a campaign to enlist thousands of Muslim volunteers in Middle East countries and the Muslim world to fight alongside the Syrian rebels. The Turkish army would house these volunteers, train them and secure their passage into Syria. (Ibid, emphasis added)

These mercenaries were subsequently integrated into US and allied sponsored terrorist organizations including Al Nusrah and ISIS.

And then in August 2014, Obama launched his counter-terrorism campaign. Yet the evidence confirms that instead of destroying the ISIS, the US and its allies including Turkey, Saudi Arabia and Israel were in fact protecting the ISIS.

Again according to the Daily Mirror in a 2015 report, the counterterrorism campaign was conducive to ISIS doubling the territory under its control, until the launching of the Russian intervention in late September 2015.

Sheer Incompetence of the US Air Force (doubtful) or Washington's complicity in protecting the terrorists?

Recently the release of the Hillary Clinton email archive as well as leaked Pentagon documents confirm that the US and its allies were supportive of ISIS, which are according to press reports, the alleged architects of the Brussels attacks.

The 7-page Defense Intelligence Agency (DIA) [document](#) dated August of 2012, points to US complicity in supporting the creation of an Islamic State:

C. IF THE SITUATION UNRAVELS THERE IS THE POSSIBILITY OF ESTABLISHING A DECLARED OR UNDECLARED SALAFIST PRINCIPALITY IN EASTERN SYRIA (HASAKA AND DER ZOR), AND THIS IS EXACTLY WHAT THE SUPPORTING POWERS TO THE OPPOSITION WANT, IN ORDER TO ISOLATE THE SYRIAN REGIME, WHICH IS CONSIDERED THE STRATEGIC DEPTH OF THE SHIA EXPANSION (IRAQ AND IRAN).

D. THE DETERIORATION OF THE SITUATION HAS DIRE CONSEQUENCES ON THE IRAQI SITUATION AND ARE AS FOLLOWS:

--1. THIS CREATES THE IDEAL ATMOSPHERE FOR AQI TO RETURN TO ITS OLD POCKETS IN MOSUL AND RAMADI, AND WILL PROVIDE A RENEWED MOMENTUM UNDER THE PRESUMPTION OF UNIFYING THE JIHAD AMONG SUNNI IRAQ AND SYRIA, AND THE REST OF THE SUNNIS IN THE ARAB WORLD AGAINST WHAT IT CONSIDERS ONE ENEMY, THE DISSENTERS. ISI COULD ALSO DECLARE AN ISLAMIC STATE THROUGH ITS UNION WITH OTHER TERRORIST ORGANIZATIONS IN IRAQ AND SYRIA, WHICH WILL CREATE GRAVE DANGER IN REGARDS TO UNIFYING IRAQ AND THE PROTECTION OF ITS TERRITORY.
