Whenever a terrorist attack hits somewhere in Europe or the world, wait a few hours and the police or media report ISIS / ISIL / Daesh claims responsibility. To enhance credibility, they usually say it was confirmed by ISIS news agency Amaq. As soon as this little piece of info is out, the upset populace takes a deep breath and falls at ease. It's the usual culprits. It's them, not us. We are fine. We can go back to business as usual.

This in Europe alone has happened [more than 40 times](#) since May 2014 – that's as many 'Muslim-induced terror attacks' Western Europe has endured; from Paris to Nice, Brussels, London, Berlin, Munich, Würzburg, Copenhagen, Zvornik (Bosnia & Herzegovina), Moscow, Istanbul, and many more. And almost without fail, the alleged perpetrator(s) were killed, though most of them were not armed and could have been apprehended by police, questioned and brought to justice. Dead men don't talk. That's more convenient.

The [latest Barcelona terror](#) Amuck-run on the Rambla is not different. It is a case in point and a typical case for confusion. There were several chief-perpetrators suspected and killed. Many names circulated – and, of course, a passport, leading to a Spanish enclave in Morocco was found. The owner of the passport, immediately reported it to the police as stolen, with a solid alibi. But then, suitably his 17-year-old brother stole the passport and left it in the white van, when he fled on foot, injured from an explosion the night before, in a residency some 230 km south of Barcelona – or was that really him? – and several hours after the Rambla assault, he was caught by police in Cambrils, 120 km south of Barcelona in another attempted pedestrian run – and killed among one of five terrorists who happened to be squeezed into the same Audi. Ever wondered, why so many terrorists in one car? – Or was he really one of those killed?

By now, the people are really-really confused. Nobody knows up from down in this chaos. Better leave it to the authorities. They know best to handle the situation. Let us go back to normal – until the next terror attack hits – *Allahu Akbar* – very likely *next in a theatre near you*, somewhere in this old, purposefully and increasingly militarized police state, called Europe.

What happened to the real and innocent owner of the passport? – Does anybody know? Or can we ask ten 'official' sources and get ten different answers?

How come special police throughout Europe apply the same philosophy – *kill to shut them up*? Isn't there a police ethics code – *shoot only in self-defense*? Most cases were no self-defense, as the 'terrorists' were *visibly* not armed. Have European secret and special police forces been receiving collective, well-focused training: *no Muslim-Terrorist Survivors*!

Why not? – That would also explain why never anybody questions the ISIS claim to murder and mayhem. Why would ISIS / ISIL / Daesh want to hurt those [who fund them, train them, arm them, feed them](#)? – It's not even secret any more. Hillary said so already years ago, *We created them, now we have to deal with them*. Former CIA officials admitted that they recruited, funded, trained and armed them – later the ISIL / Daesh reign was expanded with additional financial backing by the Saudis, other Gulf States and Turkey – and, of course, all the holy western allies. – So, why would ISIS want to hurt the cow whose milk they drink? Strange – isn't it?

Maybe what meets the eye is not reality. Could it be that ISIS / ISIL / Daesh, out of sheer gratitude to its benevolent sponsors have agreed to take the blame whenever a western orchestrated terror attack strikes somewhere in Europe or the world? Can't be excluded, can it? It's not even blackmail. After all, lending a helping hand to the Big Brothers, NATO, France, Germany, UK, US of A and many more lesser contributors, but contributors all the same – who keep you alive, would not be out of the world. – Right? – This is all done in connivance with massive support of European secret services, led by the usual villains, CIA, MI6, Mossad.

Is it therefore far-fetched to conclude that European governments are utterly complicit in instigating and executing these 'false flag' terror attacks, sacrificing the lives of hundreds of their citizens, just so they can pursue their goal of totally militarizing the Continent? – That they are as faithful vassals following the pattern of their trans-Atlantic partners – aiming at Full Spectrum Dominance – World Hegemony, a New World Order under a One World Order governed by Washington and its Deep Dark handlers? – Barcelona, Paris, Berlin are mere little pebbles in the Big Picture mosaic of world dominion. And the people, the mothers, fathers, wives, husbands, children who are killed – they are just menial collateral damage. After all, slaves – what is their value?
