The former employee at US National Security Agency (NSA), Edward Snowden, has revealed that the British and American intelligence and the Mossad worked together to create the Islamic State of Iraq and Syria (ISIS).

Snowden said intelligence services of three countries created a terrorist organisation that is able to attract all extremists of the world to one place, using a strategy called "the hornet's nest".

NSA documents refer to recent implementation of the hornet's nest to protect the Zionist entity by creating religious and Islamic slogans.

According to documents released by Snowden, "The only solution for the protection of the Jewish state "is to create an enemy near its borders".

Leaks revealed that ISIS leader and cleric Abu Bakr Al Baghdadi took intensive military training for a whole year in the hands of Mossad, besides courses in theology and the art of speech.
