Israel has now chosen the path of committing genocide against two million civilians — women, children, elderly and the sick — who are trapped in Gaza which is being bombed into rubble by the IDF.

The United Nations has condemned Israel’s actions as war crimes under existing UN conventions. Turkey, Iran, Syria and various groups are warning that if Israel pursues the indiscriminate killing of Palestinian civilians, they will attack (invade?) Israel and turn this conflict into a world war.

Today I interviewed Martin Armstrong who offers detailed analysis of this situation, also covering Ukraine, Russia, US debt, oil prices and other geopolitical analysis.

This is a can’t-miss broadcast with an urgent warning about the spiral of violence plunging us all into the next World War.
