Just a few months ago, the mainstream media praised Israel for its “pandemic-ending” vaccination campaign. With over 40 percent of the population “fully vaccinated” in the first quarter of 2021, Israel was well on its way to stopping community spread and clearing out its hospitals.

The nation of Israel imposed some of the strictest lockdowns during that time, violating the Nuremberg Code and segregating the unvaccinated from public life. Israel bought up the Pfizer/BioNTech mRNA covid vaccine and began issuing mandatory Green Pass “vaccine passports” as a requirement for citizens to enter public spaces. By August, Israel had intimidated and coerced its population into having one of the highest vaccination rates in the world, with 78 percent of people 12 years of age and older classified as “fully vaccinated.”

The world was reassured that this rate of vaccination was more than enough to ensure individual and “herd immunity.” However, infection rates have skyrocketed across the country since then, and Israel is [now logging the world’s highest infection rates](#), with nearly 650 new cases daily per million people. At times, hospitalizations for the “fully vaccinated” have [reached upwards of 95 percent](#).

Pfizer/BioNTech vaccine is failing Israel, with case load and hospitalizations climbing in the vaccinated

By August 15, [there were 514 Israelis hospitalized with severe covid-19](#), a 31 percent increase from just four days earlier. Most of the hospitalized patients had already received at least one vaccine and 59 percent were fully vaccinated.

“There are so many breakthrough infections that they dominate and most of the hospitalized patients are actually vaccinated,” said Uri Shalit, a bio-informatician at the

Israel Institute of Technology. The vaccines do not protect older populations, either — a false promise advertised since the beginning of the vaccine rollout. In fact, of the hospitalized vaccinated patients, 87 percent were 60 or older.

This has not stopped the Israeli government from tripling down with this destructive vaccine program. Israeli officials have already begun to administer a third dose of the failed Pfizer vaccine to the population. Now controlled by the Green Pass vaccine passport system, Israelis are lining up to be inoculated again — like a grim scene of medical experimentation ripped right out of 1940s Nazi Germany. More than 100,000 booster shots are being administered each day, with 2.15 million Israelis having received their third shot.

Despite compounding vaccination, the nation still suffers, with the world's worst seven-day rolling average number of covid cases per capita. Israel is on track to pass 11,000 daily covid cases — an infection rate that is magnitudes higher than a year before, when everyone in the country was unvaccinated. U.S. health officials have access to this data, but were quick to approve the Pfizer/BioNTech vaccine and begin pushing for unlawful vaccine mandates across the country. (Related: [Pfizer's vaccine studies are based on FRAUD and put lives in danger, warns former Pfizer vice president.](#))

COVID vaccines are mass murder weapons, enslaving, weakening and killing off the world population

Using a non-neutralizing vaccine against a novel, endemic virus only perpetuates the transmissibility of the virus among people. When the spike protein of that virus is forcibly replicated throughout the population, entirely new health problems occur. By placing selective pressure on an amino acid sequence of the virus, and scaling up that attack across the population, these vaccine programs only cause mutations in the viral sequence, leading to new outbreaks and vaccine failure. A study [published in the Journal of Infection](#) discusses antibody-dependent enhancement and the serious risks of the vaccine program. Any perceived benefits of vaccination for coronaviruses are short-lived, as artificially-augmented antibody levels wane, making the population more susceptible.

Now living in a medical police state, Israelis are suddenly considered “unvaccinated” and banned from public spaces if they [haven't submitted to a THIRD dose](#) of Pfizer's spike protein mRNA. As millions more boosters are forced onto the population, it's only a matter of time before the infection rates, hospitalizations and deaths go up again, making today's hospitalization rates pale in comparison. How long will government officials keep this cycle of [vaccine destruction](#) going, before they face TRIALS for human rights violations and mass murder?
