We've seen these tricks before and the images they conjure for the unwary.

Not only are these supposed "massive tunnel networks" they're screaming about "secret and hidden", but like stories about the big ogre we only hear about but never see, these fake "intelligence reports" can paint any illusory monster they want with their bombardment of misinformation and propaganda.

Where did we hear about this "tunnel" scheme before? Oh yeah, the massive underground bunkers in Afghanistan.

With this and other false allegations they bombed the hell out of that innocent country in order to find the Osama bin Ogre. Of course he was hidden in his plush tunnel network from whence he masterminded and bamboozled, by cell phone no less, the entire western megalomilitary machine. And of course these massive, heavily armed, elaborate and sophisticated hideouts were never found, nor were any [weapons of mass destruction](#) found in Iraq. But who needs proof once you've got the excuse and the war is under way?

You don't need to provide any evidence in today's "mediotic" world, just a big enough microphone, as in the Zionist controlled mass-hysteria media. Just look at this nonsense propaganda being passed on as reliable information that clearly indicates and attempts to justify their "need" to bomb Gaza until it's one massive crater to "really get the job done" in order to destroy this "massive tunnel system" located under every inch of "terrorist" Gaza.

Found! With photo op! Part of Bin Laden's massive labyrinth of evil, as publicized by the mainstream media after the 9/11 "retaliation".

In the following excerpt by the [Washington Times](#), the focus is on Hamas' secret tunnels:

Israel surprised by Hamas tunnel network

Israeli military intelligence is facing criticism for failing to comprehend the network of tunnels and other underground facilities built by Hamas terrorists in the Gaza Strip.

"We'll see when the war was over," Mr. Pollak said in an interview, "but it is clear that the underground tunnel complex was far more extensive than Israeli

military intelligence understood.”

Information that Israel Defense Forces reportedly obtained from captured Hamas fighters revealed that the group was planning to use several Gaza tunnels that extend under Israeli territory for a major attack timed with the beginning of the Jewish New Year, Rosh Hashanah, on Sept. 24.

The plan called for Hamas fighters to surface from the tunnels in Israel and kill as many people as possible. The plot was first reported by the Israeli newspaper Maariv.

Israel’s military operation against Hamas in Gaza has gone on longer than expected because of the discovery of the extensive tunnel network, which is estimated to have cost as much as \$2 billion to construct. ([Source](#))

So, You Wanna Go Looking in Caves and Tunnels, Do You?

The 9/11 hoax was perhaps the biggest open display of outright trauma based mind control ever perpetrated on humanity.

Aaron Russo, a true hero of our time, was laughingly told they’d be “looking in caves” for invented terrorists following 9/11 by a very well placed insider, a Rockefeller. Go to 3 minutes in if you’d like to cut to that point. The whole video is mindblowingly good.

They apparently like the caves and tunnels meme to hide their fake enemies in. After all, you’ll never see them, only imagine them. And that feeds the entrained program.

But Wait...There’s More!

“Let’s also get that suicide bomber thing out there, that always works, and massive secret troop reserves readying to conduct raids on poor innocent Israelis. It’s worked for decades, why not pile on the BS as long as we’re at it. After all, we’re ready to wipe Gaza right off the map, we might need it for PR and getting even more weapons and money from the US stooges...”

The following excerpt is from CNN:

Israeli Analyst: Hamas Has 3,000 Elite Soldiers Ready to Die in Suicide Attacks on Israel

An Israeli analyst told CNN’s Wolf Blitzer Friday morning that he received information from reliable sources that 3,000 Hamas elite soldiers told their families goodbye and appear ready to carry out suicide attacks on Israel.

Middle East analyst Gershon Baskin said that all the fighters were equipped with suicide vests and that they had expected to die in terrorist attacks.

Baskin spoke just hours after a Hamas suicide attack, believed to have been conducted by the group’s militant wing Ezzedine al-Qassam brigade, killed two Israeli soldiers. During the surprise Hamas attack, which happened two hours into the 72-hour agreement for a cease fire, the militants captured an Israeli officer.

“You say these elite fighting forces they’re all prepared- they all go in with suicided*** vests ready to kill themselves in order to kill Israelis?” Blitzer asked as Baskin nodded.

“I was told by someone who had spoke to al-Qassam, the military wing of officer who said that before the ground operation began they were all instructed to go to their families and say goodbye to their families with the intent that they would not be returning alive from this battle,” Baskin told Blitzer in a news report airing live from Israel. “This is one of the very difficult things about fighting with an organization like Hamas, particularly these very dedicated soldiers, combatants who are not afraid to die.”

“We will do what needs to be done to protect our people,” Mark Regev, spokesman for Israeli Prime Minister Benjamin Netanyahu told Blitzer after Baskin’s interview. ([Source](#))

After all, Zionist Wolf Blitzer echoed it on mainstain news, it must be true. Why would anyone make something like this up? And the horrific echo at the end: “We will do what needs to be done to protect our people.”

More Absolute Madness - Telegenics and “Human Shields”

That Netankillyoo would even consider saying the Palestinians are deliberately allowing themselves to be decimated to create a “telegenic” effect that “makes Israel look bad” is beyond belief. Yet the media carries this crap as if it deserves conscious attention.

Dead women, dead children, dead babies. Limbs missing, brains missing, guts spilled out on the floor. It’s impossible to put a positive spin on those kinds of images, unless you’re Israeli Prime Minister Benjamin Netanyahu.

Two days ago, Bibi sought to explain why, in the space of a few hours, Israeli soldiers, under his orders, [massacred 63 people, including 17 children, in the Shuja’iya neighborhood to the east of Gaza City](#). He said:

“We have to protect ourselves. We try to target the rocketeers, we do. And all civilian casualties are not intended by us but actually intended by Hamas who want to pile up as many civilian dead as they can because somebody said they use telegenically dead Palestinians for the cause. They want the more dead the better.”

Think about that for a moment, and while you do so, consider this image of a Palestinian girl in her father’s arms. Half of her head was blown off by Netanyahu’s soldiers in the Shuja’iya neighborhood two days ago.

What Netanyahu is saying is “the Palestinians are MAKING us kill them”. Many parallels could be drawn with this statement. The rapist who accuses his victim of ‘making him do it’ or ‘asking for it’; the psychologically deranged murderer who claims that he killed prostitutes ‘to save them’. When it raises its ugly head in civil society, this kind of twisted psychopathic thinking provokes revulsion and is universally condemned, yet when Netanyahu employs it in relation to the Israeli attack on Gaza, it’s accepted as a reasonable argument that absolves him and his shock troops of the mass murder of civilians. ([Source](#))

That’s the mad world in which we’re living in a mad nutshell.

If that’s not bad enough, he claims the Palestinian resistance is using their own as “human shields”, when that is exactly what Israel has been documented doing time and again, which only adds fuel to their funeral pyre.

From the Israel Defense Force’s own website:

The IDF is currently engaged in Operation Protective Edge against Hamas and other Palestinian terrorist groups in the Gaza Strip. Hamas places weapons and missile launchers in densely populated areas. They also send men, women and children to act as human shields for terrorists.

Innocent bystanders can be killed as a result of Hamas’ abuse of its own civilians. Instead of keeping its citizens out of harm’s way, Hamas encourages and even forces Gazans to join its violent resistance against Israel.

During Operation Protective Edge, evidence of Hamas’ and other terror organizations’ use of human shields has surfaced. ([Source](#))

That crap is supposed to justify gratuitous mass murder anywhere they want to aim their genocidal weaponry. [Is anybody even paying attention?](#)

The irony is that this is [exactly what Israel is perpetrating](#). Creating these very illusions of

“telegenic” death while literally using Palestinians as human shields in every possible form.

Headscratching, or Heart Rending?

The entire premise with which this usurping Zionist machine is exerting itself is based on one huge lie. Every aspect of it, from the religiously privileged malarkey, the poor, persecuted minority propaganda, to the defense of a literally stolen homeland charade. That realization will take most people some time, the propaganda has been so thorough and for so long. They very cleverly entrenched this fabrication inside of embedded emotional responses and fear based social programming over time, best exemplified now by so-called “political correctness”, a mainstay of the modern propaganda machine.

I think anyone with a conscience can sense this massive, aggressive disinformation campaign can't be real, but they buy into it anyway, feeling it's the safe, comfortable and accepted way to think. After all, look at the consequences. The Zio-minions have even released street gangs just to up the ante of backlash if you dare to oppose this projected scheme, never mind the public humiliation of anyone who dares to speak up against these ongoing atrocities and their source.

They're now (again) turning the natural human outrage of an obviously cold and calculated land grabbing genocide by Israel into a form of anti-semitism. As in post 9/11 American jingoism, anyone not pro-Israel is now considered sympathetic to the cleverly demonized Hamas, no doubt infiltrated and controlled as in the case of fabricated al Qaida. Same old game. Controlled opposition is perhaps fascism's most powerful tool, along with propaganda. Create the problems as they suit your ends using any means necessary. Then enact “the solution”.

Rallying their propaganda troops to dismantle any protest as either racially biased or an outright crime becomes a walk in the park. Georgie Bush's “You're either with us, or you're with the terrorists” comes quickly to mind. The post staged 9/11 false choice of ages.

Decimation Tells the Tale – Snap Out of It

Look where that pre-planned staged 9/11 campaign based on psyops and staged events led – the decimation of nation after nation which continues to this day. The Israeli's are only following their own corrupt lying script and again campaigning on these worn out propaganda lies and distortions. It's time people snapped out of this fear-based hypnosis and called a spade a spade.

This type of social steering is happening on so many fronts they're hard to count. It's all propaganda warfare first and foremost, and as stunned humanity swallows this barrage of words and false images it holds them at bay long enough to accomplish their desired results. The repercussions afterwards are a piece of cake to handle. History attests to this time and again.

They're fucking with humanity, primarily in its mind, as spiritually based parasites do. These ongoing horrific atrocities we're witnessing then follow their pre-determined lead as does permission and condoning on the part of complicit, cowering humanity.

Take Heart – The Wake Up Is Going Viral

Realizing these types of truths can be devastating and leave you feeling helpless and alone.

Don't let it. We are many, and our ranks are growing by the minute. Hungry sincere souls are watching anxiously and looking for resolution in some form to spare the dear people of Palestine. But most of all, hearts long for a virtual splitting of the veil, a massive awakening where we can all bask in the light of truth together as these dark machinations are exposed and thereby destroyed.

As I've said before, the battlefield of awakening is you. And me. Keep that close to your heart and know that that is where true empowerment and solutions are awaiting anybody and everybody. It happens one heart at a time, but this beautiful awakening of humanity is now reaching critical mass.

Don't look for confirmation in the media. You'll know it in your heart. It's time to fully awaken and activate, and do the part we're each called and compelled to do.

This is an opportunity of the ages. Let's not miss it. Charge the breach - consciously.
