'The truth about Israel's secret nuclear arsenal'

'Israel has been stealing nuclear secrets and covertly making bombs since the 1950s.'

'Israel refused to countenance visits by the International Atomic Energy Agency (IAEA), so in the early 1960s President Kennedy demanded they accept American inspectors. US physicists were dispatched to Dimona but were given the run-around from the start. Visits were never twice-yearly as had been agreed with Kennedy and were subject to repeated postponements. The US physicists sent to Dimona were not allowed to bring their own equipment or collect samples. The lead American inspector, Floyd Culler, an expert on plutonium extraction, noted in his reports that there were newly plastered and painted walls in one of the buildings. It turned out that before each American visit, the Israelis had built false walls around the row of lifts that descended six levels to the subterranean reprocessing plant.'

<http://www.theguardian.com/world/2014/jan/15/truth-israels-secret-nuclear-arsenal>

Israel's subterfuge used to fool the inspectors of US President John F Kennedy in regard to its secret nuclear weapon facility, constituted the commencement of an international deception and duplicity that exists right up to the present day with Israel estimated to now be the 3rd most powerful nuclear state in the world and completely outside of IAEA inspection and a non-signatory to the NPT.

Today, Israel's undeclared nuclear program is estimated to have resulted in an arsenal of up to 400 warheads making it the most powerful nuclear weapons state after the U.S. and Russia and more powerful than any state in the EU. This notwithstanding the fact that Israel is a tiny state in the Middle East of just 8m people that now overshadows, militarily, the half a billion citizens of Europe. An absurd, surreal and dangerous status quo that nevertheless seems to be acceptable to London, Paris and Berlin!

That is, until Mr Netanyahu's radiation clouds from Dimona, in the Negev, start to envelop our cities and contaminate water and food supplies. Then it will be too late for the Middle East to be declared a Nuclear Weapons Free Zone (NWFZ).
