Hirofumi Yanagase is a Japanese politician who is a member of the [House of Councillors](#) of Japan.

Japanese lawmaker Mr. Hirofumi, Yanagase speaks out:

"Just in the reported cases alone, there have been as many as 2001 cases of suspected vaccine-induced deaths. There are 52 cases where a pathologist has performed an autopsy and reported that there is a link between the...

— ShortShort News (@ShortShort_News) [March 13, 2023](#)

VIDEO: Mr. Hirofumi, Yanagase speaks out:

"Compared to 2021, the number of deaths has increased by more than 140,000. Compared to 2020, the number of deaths has increased by 210,000...the highest number since World War II"

"Japan has been flooded with people complaining of feeling ill after receiving the COVID vaccine"

"Amazingly, even though more than 2000 people have died after vaccination, more than 99% of these deaths cannot be evaluated"

"According to our calculations, the percentage of reported deaths after COVID vaccine is more than 38 times higher in comparison with the flu vaccine"

Japan reports first death directly linked to COVID-19 vaccine

Out of more than 2000 deaths after COVID-19 vaccination, on March 10, 2023 a Japanese Ministry of Health panel made the first of a causal link between the death of a 42 year old woman and the COVID-19 vaccine ([click here](#))

The woman received a Pfizer shot (bivalent) on Nov. 5, 2022 at a mass vaccination center. She felt sick seven minutes later, and her breathing stopped after about 15 minutes.

The woman was taken to a hospital but died of acute heart failure an hour and 40 minutes after receiving the COVID-19 shot. A postmortem CT scan showed that she had experienced acute pulmonary edema, a sudden buildup of fluid in the lungs, the report said.

“From the data obtained from (CT) images, no abnormalities were found that could have caused the death other than the vaccine. All things considered, the direct causal link between the vaccination and the death cannot be denied,” the report said.

Doctor sues Japanese Government over COVID-19 vaccine cover-ups

“Today, we filed a lawsuit against the Japanese government” announced Dr. Masanori Fukushima during a press conference on February 2, 2023. Because the Japanese Health Ministry refuses to acknowledge the causal link between vaccines and deaths, Professor Fukushima and a team of researchers said they “had no choice but to dare to take legal action.” ([click here](#))

Dr. Masanori Fukushima is an infectious disease expert and Professor Emeritus at Kyoto University — with over 25 years of oncology experience. He has been hammering at the cracks in the vaccine narrative and publicly condemned Japan’s Ministry of Health late last year.

“Today, it is a matter of fundamental importance for the Japanese government to continuously collect and disclose accurate data,” [Professor Fukushima](#) expressed. “However, I have witnessed the recent fraud scandal committed by the Health Ministry.”

COVID-19 vaccine demand crashes – Japan cancels 142 million dose order for Novavax COVID-19 vaccine

“Japan cancels 140M dose order for Novavax Covid vaccine amid ‘lower than expected’ demand” ([click here](#))

The country initially agreed in 2021 to purchase 150 million doses of the vaccine from Takeda, which has been producing Novavax’s vaccine at its Hikari-based facility. But after only purchasing 8.24 million doses, the Ministry of Health, Labour and Welfare has canceled the remaining 141.76 million doses.

“We are seeing low market demand for Nuvaxovid, lower than expected given the current situation of vaccination in Japan and prevalence of Omicron,” Costa Saroukos, CFO at Takeda, said during the company’s Q3 call last week.

COVID-19 mRNA vaccine uptake in Japan

COVID-19 vaccine uptake in Japan is very high. Almost 69% of the population have had at least 3 doses. ([click here](#))

Total number of vaccine doses administered to date (as of March 13, 2023):

382,651,764

Incremental changes from the day before: **+56,855**

(Omicron-targeting booster shots: **+46,444**)

Total number of Omicron-targeting booster shots*:

Number of vaccine doses	Vaccination rate
55,771,930	44.3%

Breakdown of the total number of vaccine doses*:

	Number of vaccine doses	Vaccination rate
Total number of vaccine doses:	382,651,764	-
First dose	104,684,029	81.3%
Second dose	103,339,460	80.3%
Third dose	86,223,928	68.5%
Fourth dose	58,168,711	-
Fifth dose	30,235,636	-

The split is about 78% Pfizer and 22% Moderna ([click here](#)):

My take...

Japan has effectively mRNA poisoned most of its population with 382 million doses of mRNA administered. Consequently, it now has the highest excess deaths since World War II.

Thousands of Japanese citizens have died shortly after taking a COVID-19 vaccine but Japan's Ministry of Health continues to conduct cover-ups of these deaths, even when pathologists have determined a causal link between the death and the vaccine.

However, brave individuals are pushing back in a big way. Leading the charge is Dr. Fukushima who is suing the Japanese government over COVID-19 vaccine adverse event cover-ups, as well as politician Hirofumi Yanagase who is openly calling out the Ministry of Health and paid government lackeys who are conducting cover-ups.

Someone must always make the first move. The first doctor. The first politician. Once these first steps are taken, a house build on a foundation of fraud and deceit cannot remain standing for long.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
