

Just As The Islamic State (ISIL) Gets Exposed As A Fake US Enemy, A “Wag the Dog” Terrorist Attack in Paris?

With information just breaking that the United States has been [air dropping arms](#), food and medical supplies to Islamic State of Iraq and Levant (ISIL) forces in Iraq, supposedly the world's latest terrorist enemy on steroids, what has been suspected all along is now being confirmed.

To add fuel to the fire, this news comes just as warmonger [Senator McCain](#) got busted for secretly and illegally entering Syria to meet with ISIL to coordinate strategy on that warfront.

Clearly the ISIL is an ally to the US government in both Iraq and Syria. The command headquarters operating out of the US Embassy in Baghdad has been overseeing the US military airdrops of war supplies to our purported latest enemy in various provinces throughout Iraq. Back in October the US lied about an accidental dropping of supplies that went to the Islamic State jihadists instead of to the Kurds. The strategy in Iraq is to prolong the “war” against ISIL in order to ensure that [permanent US military bases](#) there get established, something recently deposed Iraqi President Maliki refused. It wasn't so much Maliki's poor leadership that spearheaded persecution and killing of so many Sunnis during his reign of terror that caused Washington to finally pull the plug on him. It was his [kicking Americans out of his country](#) entirely at the end of 2011 that brought his US orchestrated removal from power several months ago.

Just as the [US Empire created al Qaeda and Osama bin Laden](#) back in the 80's to finish off the Russians in Afghanistan, then [backed al Qaeda's ethnic cleansing of Serbs in Kosovo and Bosnia](#), paving the way for bin Laden to play the heavy in collusion by Saudi-Israeli assistance to pull off the [coup d'état of the century on 9/11](#), it all became false pretext to wage permanent war on terror. Now that the US government has torn the Middle East asunder into multiple war ravaged failed states, with these latest revelations coming out of Iraq, the US cover has been completely blown – ISIL turns out to be just another axis-of-evil Empire [creation by the US-Israeli-Saudi governments](#). Based on these latest on the ground accounts filtering in through Iranian and Iraqi intelligence sources, those previous reports from months ago on how the United States was covertly financing and training this “new and improved” brand of Islamic State terrorism again created by the US turns out to be absolutely true.

Like al Qaeda in the 1990's Balkans, ISIL is the latest US mercenary terror on the ground fighting the US proxy war in Syria against Bashir al Assad's forces and then seven months

ago when ISIL invaded Iraq, it created the perfect excuse to deploy once again US troops on the ground in Iraq, remove former US puppet Melawi, set the stage for balkanizing Iraq into three separate entities (Kurds, Shiites and Sunnis) and fight a fake war against ISIL long enough to regain a military foothold in the country while following through with the overall longtime agenda to thoroughly destabilize the entire region.

And then with the menace of ISIL committing [ethnic cleansing of Christians](#) and moderate Moslems in both Iraq and Syria, the US once again masterminded another thinly veiled excuse for air strikes on Syrian soil, something Obama was not allowed to do the year before with the [chemical weapons false flag](#). Of course instead of taking out ISIL, in recent months both Israeli and US military air strikes have been destroying Syria's infrastructure, taking out oil refineries and [food storage silos](#) that hurt the Syrian people, not the supposed enemy ISIL.

In reaction to last September's international spectacle of the ISIL beheadings of American and British journalists, which have been [speculated to be fake](#), President Obama was grandstanding with his usual self-righteous acting job, pretending to be enraged and shocked by the latest US made Frankenstein monster, vowing to chase the latest declared enemy down, [root them out and destroy them](#), wherever they may be, in both Iraq and Syria. Now we all know it was more theater, the imperial wizard behind the Empire curtain mimicking his rehearsed lines on the international stage, indignantly placating the world as a wannabe good guy. Seems that everything our commander-in-chief utters is fake, disingenuous and for show only. If in fact the US truly wanted to defeat ISIL, with technological capacity and precision as the world's most powerful killing machine, [within a month the US](#) could easily locate and destroy ISIL forces.

Long ago even prior to 9/11 the [neocon game plan](#) still being acted out today was to wreak havoc in the Middle East and North Africa, taking down one regime after the next, plundering oil rich lands for Exxon, Shell and BP, carving up and devising chessboard [pipelines](#) to Europe while isolating and cutting off Russia and Iran oil and gas routes, waging the blood for oil conquest for global hegemony at the murderous expense of the darker skinned human population that happens to be Moslem.

Using terrorist mercenaries comes in handy to fight US Empire's proxy wars where bulk deployment of more American troop invasions from a war-weary nation would not be tolerated. So 1400 US military "advisors" to coordinate the fake war against ISIL in Iraq also becomes the flimsy excuse to go after Syria after all. Taking down Assad in Syria is still the flimsy [excuse to then go after Iran](#), the final Middle East conquest. Of course taking down Iran remains the ever so worn out excuse to also go after cold war enemy Russia [again]. This deceptive strategy and bottom line agenda masquerades as the actual US presence throughout the Middle East. Only by now the world is onto US Empire aggression. The humanitarian rhetoric of lies will no longer work as that game hand's been played too many times before. No one will be fooled any more, not even the Americans.

Notice how every time the US government is about to be fully exposed in another boldface lie, this one being that ISIL is our sworn enemy, another wag the dog "terrorist" incident suddenly comes along to divert world attention. This time it was three heavily armed and trained gunmen in Paris attacking the office of the French satire magazine Charlie Hebdo, tragically killing twelve people. Of course like the US, [France](#) is notorious for arming and funding al Qaeda terrorists. The French foreign minister just accompanied McCain to Syria in their meeting with the ISIL "enemy" there. Questions of speculation over the government's

potential involvement in another [false flag](#) are being raised.

Not only does the attack temporarily take the heat off another sinister US foible being unraveled, it also gives strength to the war on terror, pumping up the rationale for creating yet more anti-terror laws, more totalitarian oppression in the name of national security and more anti-Moslem hatred around the globe. Though today's attackers were French citizens, the anti-immigration and anti-Islam sentiment raging throughout the Western nations seems ready to boil over. All this of course conflict and violence is just what the oligarchs have ordered, using their age old winning formula of divide and conquer, always to blind people into hating and blaming other groups as scapegoats. The latest current events sweeping the headlines are part of the banking cabal's design to create war, destabilize and destroy nations and economies and impoverish, kill and reduce the global population.
