One way to tell if a journalist is doing a good job is to see the level of detail they give to news developments. I sat down with Kim Iversen from my clinic and she went over the figures of our recent manuscript on autopsies after COVID-19 vaccination. This interview is helpful in understanding the data.

Our paper is attracting massive attention on the European Commission Zenodo pre-print server with >150k (as of July 18, 2023), downloads and views compared to other papers on COVID-19 vaccines at ~50.

Please listen to the whole interview ~10 min to get updated.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
