[Police State & Civil Rights](#), [US NATO War Agenda](#)

In-depth Report: [NORTH KOREA](#), [Nuclear War](#)

*For the last few days, the megalomaniac, Donald Trump, doubling as President of the United States of America, with a happy finger on the red-nuclear button - has been lambasting and shouting threats of "fire and fury" at North Korea, for her purely self-defensive ICBM tests, carried out under constant threats by US air and naval forces. According to the latest "fake news", DPRK's Intercontinental Ballistic Missiles are capable of bearing "miniaturized nuclear bombs". - Most scientists call this false propaganda which is again so proper to the empire of doom. Fortunately, the mainstream press's credibility is rapidly fading, in fact is almost dead. There is an up-swell of people waking up. See also*

This morning, the same almost *Inhuman Being* has not only doubled-up on his threats of *fire and fury* to the Pyongyang Government, but had the audacity to also menace Venezuela with military intervention - to save lives. He, who - along with his predecessors - have killed tens of millions of people around the world in illegal wars and conflicts, now wants to invade the hydrocarbon-rich neighbor, Venezuela; incidentally almost the only true democracy left in the Americas, and arguably on the globe.

President Trump today refused a phone call from Venezuela's President Maduro, who probably wanted to explain what the people of Venezuela intended to achieve with this [newly voted National Constituent Assembly](#), the ultimate step towards a true people's democracy. He did so, perhaps in the hope, a clever man would understand.

To no avail. One of Trump's aides told Mr. Maduro, his boss would talk to him, once he, President Maduro, reinstated democracy in Venezuela. Imagine! – That coming from the man who is reigning over the biggest, oppressive police state on this globe, using deception and falsehood to brainwash the western world into a heard of sheep; and playing world dictator slaughtering people throughout the planet, only because they want to keep their sovereignty and are not willing to be subjugated by this ridiculous, preposterous caricature of an emperor.

A new threat hangs over Venezuela. US Military invasion. The country is already invaded by US / CIA trained, funded, fed and armed proxy fighters, that regularly help disturbing peace, stirring up chaos and causing death in the streets of Caracas – death, that the Anglo-Zionist controlled press is ascribing to the Maduro Government – an outright lie. The west largely believes it, as the lie is hammered in throughout the globe. The West is losing its marbles for licking Trump's blood-stained casino boots.

This madman occupant of the White House pulls along his close entourage, foremost his Minister of War, "Mad-Dog", General James Mattis, and his oil-magnate Secretary of State, Rex Tillerson, plus certainly a number of Pentagon and Congress hawks. – But, do they follow him because of conviction or fear? – Fear cannot be excluded, as the little common sense they may still have left tells them what their unpredictable psychopath-in-chief may be capable of doing. Fortunately, some reasonable generals in the Pentagon and representatives of Congress are aware of the real danger in leaving the ultimate responsibility for triggering a pre-emptive nuclear war with Trump. They quietly distance themselves – and in Congress there is an initiative under way to curb Trumps power as Commander-in-Chief of pushing the red bottom. Will they succeed — before it is too late?

This madman has to go to save humanity and the planet.

There are already talks – and well-founded talks – that after the DPRK will be Iran. Never mind the Nuclear Agreements reached with Iran after years of negotiations on 14 July 2015 in Vienna, the so-called Joint Comprehensive Plan of Action (JCPOA), between the five permanent members of the UN Security Council – China, France, Russia, United Kingdom, United States – plus Germany, and the European Union, under which all sanctions would be lifted on Iran, so that this country rich in resources, history and science, a nation that has never done any harm to her neighbors, may become integrated again in the chorus of world societies.

Trump and his Mad-Dog warrior simply and without any substance pretend Iran does not adhere to the deal and therefore must be punished – new economic sanctions, of course, which by now are almost useless, since Iran applies a strict regime of Resistance Economy, largely moving away from the western dollar-hegemony and towards the Shanghai Cooperation Organization (SCO) into an alternative economic system. Better even than 'sanctions', giving the sick killer-duo's thought process, would be a few preventive surgical nuclear strikes aiming at Iran's atomic energy facilities.

They would certainly please Israel's Master Zionist and the Trump family's close buddy, Bibi Netanyahu, now under a cloud of serious corruption charges. The common saying goes – the chickens are coming home to roost – and roost they may, rather sooner than later, also in The Donald's backyard.

Is there any diplomatic peaceful way to stop this megalomaniac from annihilating Mother Earth, and life as we know it?

How about for once a *true* UN Security Council Resolution, true and factual in the sense that it is introduced on behalf of the world community and for the security of the globe. To save species, to save the environment, to save life as we know it. Not some fake 'security' serving only the purpose of enlarging Washington's grandeur.

How about China and Russia taking such an initiative, calling upon the entire United Nations to stop the Empire of Horror, the United States of America, as it were, from her ever-increasing killing spree around the globe, from her masterminding mass murder, oppression, human exploitation, abrogation and violation of human rights and invasions, infringements on peoples' and their nations sovereignty – a UNSC Resolution that would wake up the world and have the 192 members stop and dismantle the **one** empire of fear and destruction that risks to devastate human lives and livelihoods?

That should be possible. – Russia and China have nothing to fear. They are way above equal powers with the self-styled hegemon. Acting fast, before it is too late is of the order. The madman has his finger on the trigger. Whether he is bluffing or not, we can't say. And there is no room to gamble.

The League of Nations, today's United Nations, may it become solidary again – has nothing to fear. The tides are turning. Russia, China and the SCO alliance are offering a new perspective, a new economic paradigm, one of peace and equality, instead of the fraudulent dollar-hegemony. The tide is rapidly turning away from the enslavement of hydrocarbons dominated and monopolized by the bogus dollar economy. The tide is turning towards alternative energy sources. The tide is gradually turning its back to the fake, worthless fiat money that has no backing other than the hypocritical freemasonry slogan "In God We Trust". – What God, for heaven's sake? It's their god of money. Their god of usury, their god of the stranglehold by debt. The tide is turning – and turning fast.

People of this planet, the only one we have and know, wake up, lift your courage upon your shoulders and step out of the blue pill-managed matrix into a new world offered by a legally steadfast UN Resolution – your Resolution, Resolution 101, the only one to freedom; dear People, 192 nations united against an atrocious vicious despot. There is no way of losing.
