

Lies Are Washington's Chosen Path to Dominance

Will Putin Fall for Washington's Lies?

I have been waiting to see how long the British Prime Minister, the British Foreign Secretary, and the British Defense Secretary could continue to lie through their teeth before it caught up with them.

The liars got away with their lies longer than would have been possible if there was any longer any respect for truth in Western governments and media.

The British Foreign Secretary announced publicly that he was personally told by someone at the Porton Down laboratory that it was "absolutely categorical" that the nerve gas allegedly used in an attack on Skripal and his daughter came from Russia. The chief executive of the Porton Down laboratory has now stated that the scientists at the laboratory cannot confirm that the nerve agent is Russian.

Unlike NIST, which the US government forced to lie about how the World Trade Center buildings were destroyed, the British government was unable to force the Porton Down scientists to lie, or to lie enough. Consequently, the British government deleted its postings on social media as this one:

"Analysis by world-leading experts at the Defence Science and Technology Laboratory at Porton Down made clear that this was a military-grade Novichok nerve agent produced in Russia. Porton Down is OPCW-accredited and designated laboratory." (Source: [RT](#))

There is little doubt that the attack on the Skripals was an orchestration by the black op departments of the US and UK intelligence agencies. Just as George W. Bush was given a script to read about 9/11, the British government was handed a script to read about "the Skripal poisoning."

This is the [Russian government's own stated conclusion](#).

The Russian Ambassador to the UK said,

"We have very serious suspicion that this provocation was done by British intelligence."

Actually, the UK, a militarily insignificant country, would not have dared to make this level of provocation to Russia, which is capable of wiping the British off of the face of the earth in a

few minutes at zero cost to Russia. The British were acting as agents of their masters in Washington. Surely, the Russian government knows this. In “the Western alliance,” the only country permitted to have an independent policy is the US.

The question before us is: what is the point of this blatant transparent provocation of Russia? What is the American deep state trying to achieve. Surely not to get the world destroyed in nuclear war, or so one would hope.

Nevertheless, war is a possibility. Pat Buchanan, a man of intense Washington experience, has asked, rather than asserted, if Trump is assembling a war cabinet with his choice of chief warmonger John Bolton as National Security Adviser, his choice of warmonger Mike Pompeo as Secretary of State, his choice of the woman who ran the secret CIA torture prisons as CIA Director. If this is not a war cabinet, what is? It makes Hitler’s war cabinet look mild.

The demonization of Russia that has been ongoing since the Russian government blocked Obama’s planned invasion of Syria in behalf of Israel and Obama’s bombing of Iran in behalf of Israel has the appearance of preparing Western peoples for war with Russia. Before Washington destroyed Iraq, Libya, Afghanistan, Yemen through its Saudi proxy, and attempted to destroy Syria through its “democratic rebels” proxy, Washington demonized the leaders and the countries that were subsequently destroyed. Why should Russia not think that Russia is being set up for destruction in the same way?

This scenario, should it be the one unfolding, is too scary. Unlike Hitler, whose secret weapons were not ready in time, Russia’s are. The West is so outclassed that nothing whatsoever will remain of the West if Russia’s weapons are unleashed on an arrogant, stupid, West drowning in Washington’s hubris.

Another possible answer to the question is that Washington is playing to the Atlanticist Integrationists in the Russian government and business and financial elite. The message is that you will never be accepted into the West until you get rid of Putin and accept Washington’s overlordship. Some of the Russian elite find this to be a tempting proposition. In my opinion it includes members of the Russian Academy of Sciences who value their relationships—free trips and paid speeches—in Western capitals. Washington buys everyone, Russian academics not excluded. Washington is making clear that paid trips for Russian academics abroad are at stake, Western financial holdings of Russian businesses and oligarchs are at risk of seizure along with Russian real property abroad, and important members of the Russian government and elite risk being sanctioned from traveling to the West.

In other words, Washington is telling members of the Russian elite, get rid of Putin, or we will get rid of you.

Just as Russian athletes were framed on false doping charges and prohibited from participating in the Olympics, now it seems Washington intends to [cancel or boycott the World Cup](#) in Russia. Washington intends to use Russian athletes against Putin, who is blamed for the expulsion of Russian athletes from the Olympics and for Russia’s possible loss of the World Cup.

What should Putin make of Trump’s invitation to come to Washington to discuss the arms race?

My advice to Putin is not to accept. It is too risky for Putin to put himself in Washington's hands where he could be arrested on any number of false charges for which he is already set up in the Western media. He stole an American election — a felony. He invaded Ukraine and stole Crimea — war crimes. He poisoned Skripal and his daughter — attempted murder. He invaded Syria and defeated the “democratic forces” striving to bring democracy to Syria — more war crimes. He covered up Iran's nuclear weapons program.

Considering the compete and total lawlessness of the government in Washington, why would any sane person as demonized as Putin go there? Washington doesn't even respect US law. Torture is a US crime as well as a crime under international law; yet President Trump has appointed a US and international criminal to be the Director of the CIA!!

Putin should tell Trump that whenever, if ever, Trump achieves control of the Deep State and can act independently as a president of the United States, then, and only then, he is welcome to Moscow to discuss the conditions on which the two countries can cooperate and mutually benefit. God forbid that Putin, who holds all the weapons cards, agree to any arms control with a government that has broken every agreement and thrown the pieces into the face of the Russian government.

If Putin succumbs to the Western harlot, Russia will be destroyed.

Washington is a hostile and determined enemy of Russia. The inability of Russia to accept this conclusion is a direct threat to the existence of Russia.

In the Russian military/security sphere there is realization that Russia now holds the balance of power and does not need to accept any “favors” from Washington. The director of Russia's Foreign Intelligence Service, Sergey Naryskin, said today that the West is an Orwellian version of itself in attempting to hold onto unilateral power when in fact, Western “influence, which used to be unchallenged, is now diminishing.” Washington's unjustified arrogance, Naryskin said, [“resembles the overconfident Biblical strongman Goliath, who was slain by the young David.”](#)

Washington, Naryskin said, tries “to present the US-centered system of international relations, which is based on coercion and even blackmail, as an appearance of voluntary submission.” In this way, “the US is trying to masquerade the brutal American dictate as ‘Euroatlantic’ or ‘international solidarity.’”

Washington attempts to cover up its crimes, Narysin said, with “big talk about human rights and democracy,” but instead uses “military interventions into sovereign nations” which “were plunged into bloody chaos that had no place for such a fundamental right as a right to live. Over the past two decades hundreds of thousands [millions by my count] of innocent people fell victim to NATO aggression in Europe, the Middle East and Northern Africa.”

If President Putin makes the mistake of trusting Washington yet another time, he will destroy Russia and the world with it.

Reviews

“This book is a ‘must’ resource – a richly documented and systematic diagnosis of the supremely pathological geo-strategic planning of US wars since ‘9-11’ against non-nuclear countries to seize their oil fields and resources under cover of ‘freedom and democracy’.”

–John McMurtry, Professor of Philosophy, Guelph University

“In a world where engineered, pre-emptive, or more fashionably “humanitarian” wars of aggression have become the norm, this challenging book may be our final wake-up call.”

–Denis Halliday, Former Assistant Secretary General of the United Nations

Michel Chossudovsky exposes the insanity of our privatized war machine. Iran is being targeted with nuclear weapons as part of a war agenda built on distortions and lies for the purpose of private profit. The real aims are oil, financial hegemony and global control. The price could be nuclear holocaust. When weapons become the hottest export of the world’s only superpower, and diplomats work as salesmen for the defense industry, the whole world is recklessly endangered. If we must have a military, it belongs entirely in the public sector. No one should profit from mass death and destruction.

–Ellen Brown, author of ‘Web of Debt’ and president of the Public Banking Institute
