ATLANTA ... On behalf of The family of Martin Luther King, Jr, Martin Luther King III today issued the following statement on the U.S. Justice Department's release of its report on their "limited investigation" of recent evidence regarding the assassination of Dr. King

"We learned only hours before the Justice Department press conference that they were releasing the report of their results of their "limited investigation," which covered only two areas of new evidence concerning the assassination of Dr. King. We had requested that we be given a copy of the report a few days in advance so that we might have had the opportunity to review it in detail. Since that courtesy was not extended to us, we are only able at this time to state the following:

1. We initially requested that a comprehensive investigation be conducted by a Truth and Reconciliation Commission, independent of the government, because we do not believe that, in such a politically-sensitive matter, the government is capable of investigating itself.
2. The type of independent investigation we sought was denied by the federal government. But in our view, it was carried out, in a Memphis courtroom, during a month-long trial by a jury of 12 American citizens who had no interest other than ascertaining the truth. (Kings v. Jowers)
3. After hearing and reviewing the extensive testimony and evidence, which had never before been tested under oath in a court of law, it took the Memphis jury only one (1) hour to find that a conspiracy to kill Dr. King did exist. Most significantly, this conspiracy involved agents of the governments of the City of Memphis, the state of Tennessee and the United States of America. The overwhelming weight of the evidence also indicated that James Earl Ray was not the triggerman and, in fact, was an unknowing patsy.

4. We stand by that verdict and have no doubt that the truth about this terrible event has finally been revealed.

5. We urge all interested Americans to read the transcript of the trial on the King Center website and consider the evidence, so they can form their own unbiased conclusions.

Although we cooperated fully with this limited investigation, we never really expected that the government report would be any more objective than that which has resulted from any previous official investigation. In a reasonable period of time, when we have had an opportunity to study the report, we will provide a detailed analysis of it to the media and on the aforementioned website."
