Big Pharma compromised corrupt doctors, and virtue signaling far left activist doctors (medical students & residents who think they are smarter than they actually are) are the worst of the worst.

Some doctors are “mini-celebrities” who need to feed their narcissism and need for attention. Don’t know who they are? Well, they’re famous and you’re not.

Some doctors are “true believers”. They are professionals. They are highly educated. They don’t understand why everyone laughs at them. But they are brilliant and you’re not. And brilliant people mask up.

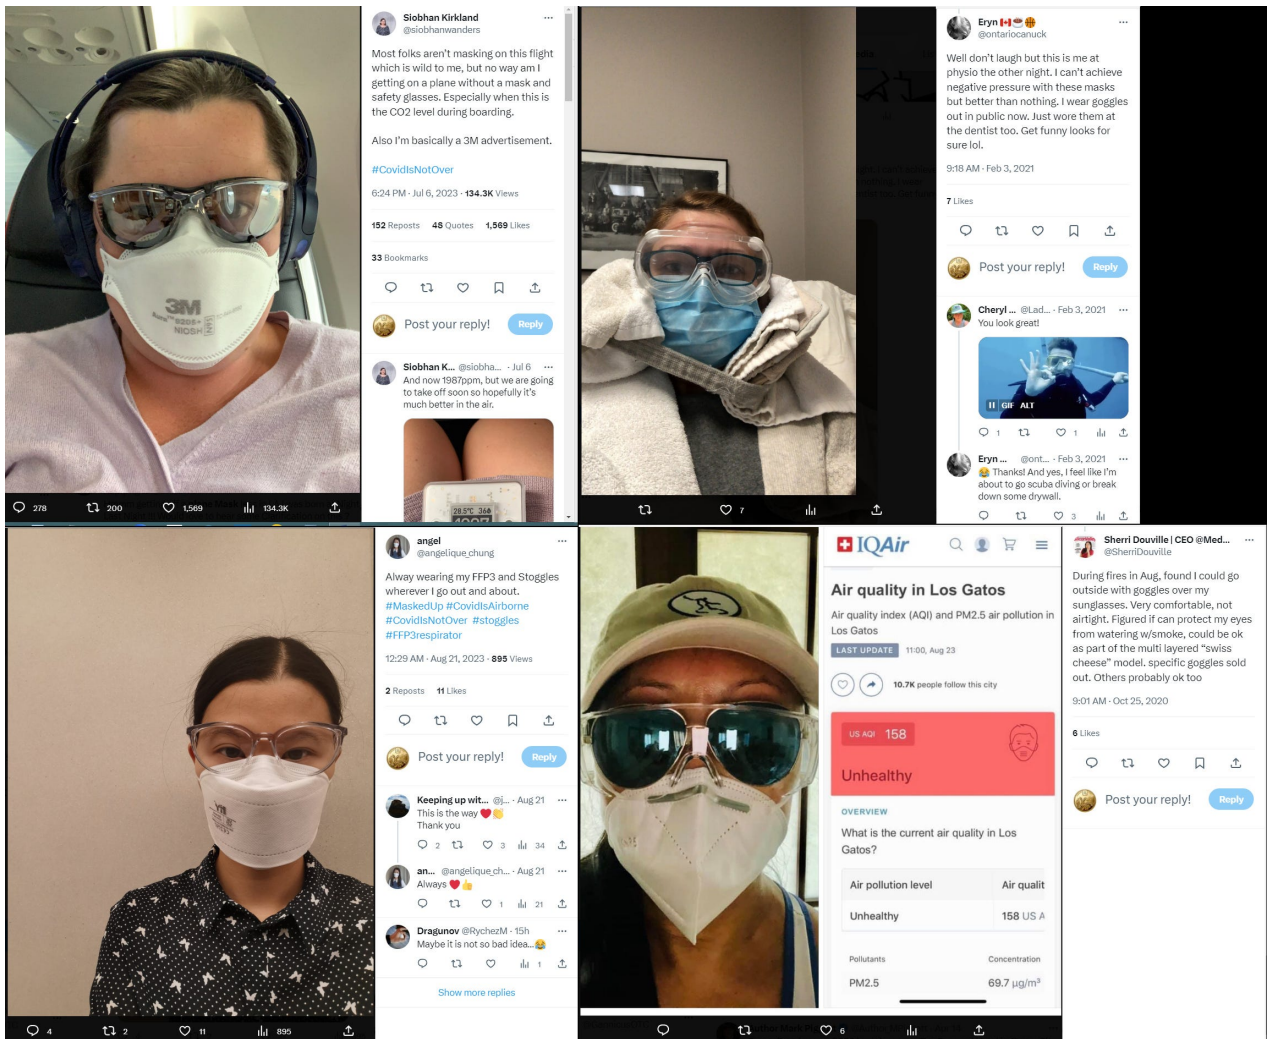

It wouldn't be leftist virtue-signaling propaganda without the presence of some form of child abuse. "It seems tolerable?" – An abusive leftist mother ponders. Virtue. Signaled.

Some take the propaganda all the way to the maximum (and in their mind, logical) endpoint. They are maximally safe and you're not. They even measure their CO2 levels, because it's the biggest poison known to mankind.

You're not truly safe if you're not wearing safety goggles! "Well, don't laugh" Eryn says. Believe me Eryn, I'm trying very hard not to. But I keep hearing a voice saying "winter is coming..."

You better be masked up if you're doing any kind of physical activity by yourself like driving, hiking or skiing (especially swimming):

When you're the only one masked up on the plane but you don't care because you're virtuous and you're saving lives. The one with the toaster on his face, Markham Hislop, writes about Climate Change for a living. There are levels to being a hero. And look at how perfectly that mask fits on that gigantic beard!

Virtue signalers who save lives are creative individuals who beautify their masks, even respirators. This is raw talent, creative genius. They all belong in a museum!

Being masked is not enough to be a true hero, because a true hero performs additional activism WHILE BEING MASKED, like saving the climate, or spreading “love”.

Thank you @jvipondmd and @GosiaGasperoPhD for your excellent discussion at the @ABFedLabour Convention on COVID, Long-COVID, and the current impacts on workers, kids, and our health care system.

You are champions in my eyes.

This is NDP hyper partisan and climate hypocrite Joe Vipond in a deleted tweet today looking like a lunatic talking about his symptomless COVID. Unfortunately missing his googles.

People like him need help. It's time to stop stigmatizing mental illness.

Even heroes need to stay hydrated! There is no way COVID is sneaking in past that climate friendly plastic straw!

You must be well versed in the latest mask propaganda, fortunately, the propaganda is everywhere in easy to understand cartoons, as cutting edge science dictates.

For example, Large Music Concerts have a Coronavirus Risk Level 9, which is the deadliest level there is. No one has ever come back alive from one of these.

We have a cancer patient who is unable to wear a mask. She asked us what she could do to protect others, so we recommended distancing and staying away from people who are high risk. Like most conditions, it's a COMBINATION of efforts that works best anyway.

Every time you catch COVID-19, your risk of other severe issues starts to rise. Research is starting to show that with reinfection, your chance of serious issues such as diabetes, mental health issues, and chronic fatigue goes up. [pic.twitter.com/qd85d9fcl](#)

See this chart and the inconsistency in govt. mask directives is really appalling. In BC, govt stated masks must be worn in all indoor spaces unless seated EXCEPT gyms and fitness studios. See this chart and gyms are 8/9 on a risk factor Covid chart.

I WEAR MY MASK IN PUBLIC FOR THREE REASONS:

- HUMILITY:** I don't know if I have COVID as it is clear that people can spread the disease before they have symptoms.
- KINDNESS:** I don't know if the person I am near has a child battling cancer, or cares for their elderly mom. While I might be fine, they might not.
- COMMUNITY:** I want my community to thrive, businesses to stay open, employees to stay healthy. Keeping a lid on COVID helps us all!

Why do I keep my respirator on when going about my errands?

Friendly messages to “mask deniers” are important. Like this one: 2 masks + 6 feet apart = 0% COVID transmission, something that even an idiot mask denier can understand.

IS IT USEFUL TO WEAR A MASK?

LET ME EXPLAIN!
If you walk around nude, and someone pees on you, you'll get wet.

If you wear pants, and someone pees on you, you're partially protected.

If the guy peeing also wears pants, he pees in his pants, and you don't get wet.

Now, do you understand the principle?

Chris Ziegenhagen @CZiegenhagen

For any mask deniers put there here's a little something to give you an idea of why it's important!

This one may be less controversial as it just says risk level rather than statistics that can't be proven.

I would advise against using this chart.

CONCLUSION: Our pandemic heroes send their greetings: you know them by their masks, and the friendly smiles they carry underneath those masks.

They will be the only masked person on the plane, and they will wear their masks driving alone in their car, because that's what heroes do.

My Take...

Masks don't work.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
