

Mask-Wearing: Ineffective, Potentially Hazardous. To be Mandated in the US?

By [Stephen Lendman](#)

Global Research, November 30, 2020

Theme: [Science and Medicine](#)

We're living through unprecedented times.

Covid is another form of seasonal flu/influenza that occurs annually like clockwork.

Millions of people are affected worldwide with no fear-mongering mass hysteria, no lockdowns, social distancing and mask-wearing — until 2020.

What's likely to continue ad infinitum is a made-in-the-USA dystopian nightmare.

It diabolically aims to transform Western nations (and all others) into ruler/serf societies.

It's to benefit privileged interests by exploiting ordinary people everywhere.

It's about plundering planet earth, not preserving and improving it for the betterment of humanity.

All the while, we're being systematically lied to by US-led Western ruling authorities and public health officials serving their interests.

Elections when held are farcical, not legitimate.

The rights and welfare of ordinary people are eroding in plain sight, heading toward eliminating them altogether — totalitarian harshness replacing them.

A year ago, who could have ever imagined that most Americans and others elsewhere would voluntarily accept house arrest for weeks or months — unaware of mass deception mandating it.

Events of 2020 causing Main Street economic collapse are highly likely to continue in the new year and beyond.

The hardest of hard times affect most people with no end of it in prospect.

Perhaps what's going on won't end in our lifetimes — the worst of times ahead, dystopia replacing societies safe and fit to live in.

Mass vaxxing and mask-wearing are among defining features of what's going on.

All vaccines are hazardous to human health — rushed development, production, and distribution of covid ones potentially most harmful of all.

It's why no one should accept the Big Lie about their safety and effectiveness, an issue discussed in previous articles.

What about mask-wearing? Do they protect against covid illness and its transmission?

According to a [GlobalResearch.ca](https://www.globalresearch.ca) article titled: "The Plain Truth About Face Masks," Michael Talmo explained the following:

Based on peer-reviewed studies, "all masks...have a network of microscopic pores/holes in them. If they didn't, you wouldn't be able to breath."

You'd be hermetically sealed and suffocate.

"Numerous systematic reviews have been done on masks. All of them came to the same conclusion."

None "established a conclusive relationship between mask/respirator use and protection against influenza infection."

According to "peer-review journal Canadian Family Physician (CFP) in July 2020:

"(U)se of masks in the community did not reduce the risk of influenza, confirmed viral respiratory infection, influenza-like illness, or any clinical respiratory infection."

Professor of Physics Denis Rancourt, an expert in his field, explained that no study exists to show mask-wearing effectiveness.

Based on what's known about viral respiratory diseases, they're mainly transmitted by "too fine to be blocked...aerosol particles" able to penetrate all face masks.

"No RCT study with verified outcome shows a benefit for HCW or community members in households to wearing a mask or respirator."

"There is no such study. There are no exceptions...Masks and respirators do not work."

Public health authorities in the US, West, and elsewhere know this.

Yet in cahoots with dark forces, they claim otherwise.

Based on scientific evidence, masks don't work and may be hazardous to human health from longterm use — "from concentration and distribution of pathogens on and from used masks."

Yet governments in the US, West and elsewhere ignored science, risking harm, instead of protecting human health.

Recommended mask-wearing — perhaps to be mandated ahead (see below) — shows governments, establishment media, and public health authorities are "operat(ing) in a

science vacuum, or select only incomplete science that serves their interests,” Rancort explained.

Critical care physician/public health expert [Pascal Sacre](#) explained that “(c)ontinuous wearing of masks aggravates the risk of infection.”

“(S)cientific and medical analysis” proved it.

“(A)ir, once exhaled, is heated, humidified and charged with CO₂.”

“It becomes a perfect culture medium for infectious agents (bacteria, fungi, viruses).”

Their longterm use “is a scientific and medical aberration!”

Scientific research shows that “about a third of the workers developed headaches with the use of the mask, most had pre-existing headaches that were aggravated by wearing the mask, and 60% needed pain medication to relieve it.”

“With respect to the cause of the headaches, while the straps and pressure of the mask may be causative, most of the evidence points to hypoxia and/or hypercapnia as the cause.”

“That is, a reduction in blood oxygenation (hypoxia) or an increase in blood CO₂ (hypercapnia).”

What’s recommended in the US may be required ahead.

On November 25, Dem Senators Edward Markey and Richard Blumenthal introduced legislation that mandates mask-wearing in public.

Joe Biden supports the ineffective/potentially harmful to human health practice.

Defying scientific evidence, he said “(t)his is about saving American lives (sic), so let’s institute a mask mandate nationwide, starting immediately.”

In legislation Markey and Blumenthal introduced, their intention is “masked” by the following remarks:

If enacted into law — what’s likely if a Biden/Harris regime replaces Trump — the law they introduced “would encourage states to require the use of face masks in all public spaces and outside when one cannot maintain social distance.”

Markey separately added: “(W)e need to use every technique available to us to encourage mask use...even... mandating (its) use nationwide.”

Mandatory mask-wearing — in defiance of scientific evidence against the practice — will be an element of social control if enacted into law that’s unrelated to and potentially harmful to human health.

It’s part of a planned dystopian future in the US and West, perhaps many other countries to follow.

Instead of governance of, by, and for everyone equitably according to the rule of law, Western societies are heading toward becoming more unsafe and unfit to live in than already for ordinary people.
