What is happening with “mass casualty events” at concerts?

This has now happened several times since COVID-19 vaccines have rolled out.

Simultaneous cardiac arrests. Dozens hospitalized or dead.

July 8, 2023 – Ed Sheeran concert in Pittsburgh – 2 people went into cardiac arrest, 17 people were taken to the hospital ([click here](#))

Ed Sheeran took to the stage at the city’s Acrisure Stadium on Saturday, July 8, to entertain the biggest Pittsburgh crowd he’s ever played in front of, with an estimated 51,000 fans piling in to see the Englishman.

Things took a turn among some gig-goers, though, who fell ill during the performance. Emergency services were called to more than 37 incidents, and 17 people were taken to hospital, including a stadium worker and a medic.

Two people went into cardiac arrest, including a venue worker as well as a paramedic.

Oct. 29, 2022 – Seoul, South Korea – Halloween party results in 159 deaths from simultaneous cardiac arrests ([click here](#))([click here](#))([click here](#)).

Seoul Halloween tragedy: What led to mass cardiac arrests, key points on signs, causes and other things to know

01 / 8 | This was the first Halloween celebration since the pandemic

The Halloween tragedy in Seoul broke everyone's spirit. The mass death of more than 150 people due to cardiac arrest came as a shocker to everyone, especially those who had come out for the first time after two years to celebrate Halloween.

100 Injured, Around 50 People Suffer Cardiac Arrest In Stampede At Halloween Festival In Seoul

Choi Cheon-sik, an official from the National Fire Agency, said around 100 people were reported as injured during the crowd surge Saturday night in the Itaewon leisure district and that around 50 were being treated for cardiac arrest as of early Sunday.

Oct. 30, 2022 – Kinshasa, Congo – Stampede at Fally Ipupa concert kills 11 people including two police officers ([click here](#))([click here](#)).

Stampede at Fally Ipupa concert kills 11 in DRC's capital

Interior minister blamed organisers for the packed concert headlined by African music star Fally Ipupa in Democratic Republic of the Congo.

The stadium was packed beyond its capacity of 80,000 and some of the crowd ended up forcing their way into the VIP and reserved sections, reporters of Reuters news agency at the concert said.

“Eleven people dead ... including two police,” the minister told reporters at the stadium, sending condolences to relatives of the casualties.

“The music lovers suffocated.”

Kinshasa police chief General Sylvain Sasongo had earlier told ACP nine people had died, amid reports the venue had been jammed with people for the local favourite's performance, with one witness saying “even the corridors” of the stadium were overflowing.

Sep. 15, 2022 – Guatemala concert to celebrate Independence Day had a stampede that left at least 9 dead and 20 injured ([click here](#)).

Guatemala concert stampede leaves at least 9 dead, 20 injured

Emergency services say the victims died in a crush of people during an event celebrating the nation's independence.

8 people were killed at Houston's Astroworld Festival after crowd rushed the stage

Updated November 6, 2021 • 6:52 PM ET ⓘ

By Rachel Treisman, Deepa Shivaram

Travis Scott performs at the Astroworld Music Festival at NRG Park on Friday in Houston.

More details and numbers are starting to emerge

Officials provided a slightly more detailed picture of the night's events on Saturday, but cautioned that it could take weeks or longer to determine exactly what happened.

Of the eight people reported dead, one was 14, two were 16, two were 23, one was 27 and one person's age remains unknown.

Authorities had previously said that CPR had to be performed on several people. At about 9:38 p.m., 17 patients at the event were transferred to hospitals and 11 of those transferred experienced cardiac arrest, according to Houston Fire Chief Sam Peña.

Police made 25 arrests on Friday night, Houston Police Chief Troy Finner said, and the vast majority were for trespassing. One person was arrested for

MIDTOWN, Manhattan (WABC) -- In the middle of a concert at Carnegie Hall, a man suffered a heart attack. He calls what happens next a miracle.

My Take...

Why are some concerts now turning into “mass casualty events”?

The Ed Sheeran concert having two cardiac arrests is unusual enough, but 17 people had to be hospitalized and that is very strange. 37 incidents requiring “emergency services”.

The 159 deaths during the 2022 South Korea Halloween party is the most striking example of this phenomenon, as it was reported that dozens of people were having cardiac arrests simultaneously.

The Travis Scott concert is legendary for simultaneous sudden cardiac arrests and 10 deaths.

In my opinion, this phenomenon is similar to what has happened at some marathons, like the May 21, 2022 Brooklyn Half Marathon where 1 runner died and 15 had to be hospitalized.

1 dead, 15 hospitalized in Brooklyn Half Marathon amid unseasonably warm conditions

Jason Owens · Staff writer

May 21, 2022 · 2 min read

A 32-year-old man collapsed and died on Saturday after completing a Brooklyn Half Marathon amid unseasonably warm temperatures.

Fifteen other marathon runners were hospitalized, the New York Fire Department [told local media including the New York Times](#). According to FDNY, four of the people hospitalized were in serious condition while others had minor injuries.

With concerts you have a venue of mostly COVID-19 vaccinated individuals (in some of the cases above, only the vaccinated were allowed to attend the concert).

Most of these concert goers are in an excited state, with increased heart rate and surging adrenaline.

That surging adrenaline is the catalyst that turns a COVID-19 vaccine induced myocarditis injured heart into having a sudden cardiac arrhythmia that leads to collapse and sudden death.

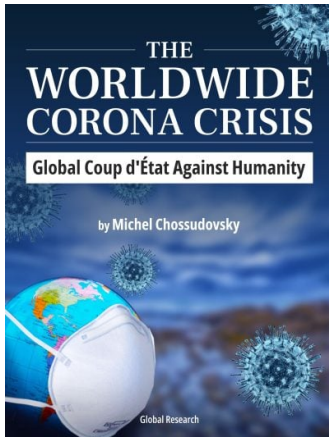

Sadly, COVID-19 vaccinated concert goers are probably not aware of this risk.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
