While Al Qaeda and their affiliates, including the Islamic State (ISIS), are routinely presented as terrorists threatening the “Free World”, most media fail to mention that they were recruited and trained by the CIA, Mossad and others.

The United States and its allies have launched a global military adventure which threatens the future of humanity.

America’s hegemonic project in the post 9/11 era is the “Globalization of War” whereby the U.S.-NATO military machine —coupled with covert intelligence operations, economic sanctions and the thrust of “regime change”— is deployed in all major regions of the world. The threat of pre-emptive nuclear war is also used to black-mail countries into submission.

This “Long War against Humanity” is carried out at the height of the most serious economic crisis in modern history.

It is intimately related to a process of global financial restructuring, which has resulted in the collapse of national economies and the impoverishment of large sectors of the World population.

The ultimate objective is World conquest under the cloak of “human rights” and “Western democracy”.

Michel Chossudovsky is an award-winning author and Professor of Economics (Emeritus) at the University of Ottawa. He is the Founder and Director of the Centre for Research on Globalization (CRG), and Editor of the globalresearch.ca website, a cutting-edge, independent research and media organization. He is the author of: The Globalization of Poverty and The New World Order, America’s War on Terrorism, and Towards a World War III Scenario: The Dangers of Nuclear War. He is a contributor to the Encyclopedia Britannica; his writings have been published in more than twenty languages.

This event will also launch Prof. Chossudovsky’s latest book: [The Globalization of War: America’s Long War against Humanity](#), Global Research Publishers, Montreal, ISBN

978-0-9737147-6-0, 2015 240 pages.
