UPDATE: [Government censors document revealing plans to wage war on Americans. READ HERE.](#)

STATEMENT OF WORK
FOR
FEDERAL EMERGENCY MANAGEMENT AGENCY
NATIONAL CONTINUITY PROGRAMS (NCP) PROGRAM AND MISSION SUPPORT
SERVICES (PAMSS)

November 18, 2011

1.0 GENERAL

1.1 SCOPE

The Federal Emergency Management Agency (FEMA) has a requirement for Contractor support to assist FEMA's National Continuity Programs (NCP) with program and mission support services. Work to be performed by the Contractor will be in support of the NCP programs identified in Section 1.2 Background, and may fall within one or more of the following Task Areas, which are further defined in Section 4.0 of this Statement of Work:

- Administrative Support
- Test, Training and Exercise Programs
- Software, Systems, and Telecommunications Engineering and Support
- First Responder Partnership Initiative
- Audit Support
- Financial and Internal Controls
- Property Management Support
- OMB 300 Support
- Acquisition Support
- Outreach Support
- Professional Support/Subject Matter Expertise

The Contractor's performance under this contract shall be in an advisory and assistance capacity to the Government, and shall not include any inherently governmental functions. The Contractor shall submit all work products in draft for review and approval by appropriate Government personnel prior to preparation and issuance in final, in accordance with the contract. The Government will make all final determinations and decisions after a critical and close review of the Contractor's work product and reasons/basis for the Contractor's recommendations. The Contractor shall not represent itself as FEMA to outside parties. To maintain public trust, Contractor employees shall identify themselves as FEMA Contractors at the onset of any communications with internal and external parties.

Source Selection Sensitive -- See FAR 3.104

NOTE: Within an hour of posting this article and linking to the pertinent document, the feds at FBO.gov have pulled the link and implied that it was a classified posting. We believe this was public and of interest to American citizens, taxpayers and peoples of the world and are in the process re-establishing an archive link of the material. Obviously, however, this information is revealing and certain parties do not wish it to be widely known. If you believe this material is important, please archive it and share it with your contacts. In the meantime, here are links to many of the pages: [Page 1](#), [Page 2](#), [Page 3](#), [Page 4](#), [Page 5](#), [Page 6](#), [Page 7](#), [Page 8](#), [Page 9](#), [Page 10](#), [Page 11](#)

Infowars has discovered new FEMA documents that confirm information received from DoD sources that show military involvement in a FEMA-led takeover within the United States under partially-classified Continuity of Government (COG) plans. It involves not only

operations for the relocation of COG personnel and key officials, population management, emergency communications and alerts but the designation of the American people as 'enemies' under a live military tracking system known as Blue Force Situational Awareness (BFSA).

Further, this Nov. 18, 2011 FEMA-released plan [National Continuity Programs \(NCP\) Program and Mission Support Services \(PAMSS\)](#) [PDF] linked at the FedBizOpps.gov [website](#) outlines a scenario that overlays with eerie accuracy the bigger picture sketched out by concurrent calls for [troops to keep order in the streets of places like New Orleans](#), as well as other bombshell documents like those released from [KBR seeking to activate contracted staff for emergency detention centers](#) and for services like fencing and barricades, as well as numerous [agencies](#) and [think tanks](#) who've prepared for civil unrest and economic breakdown in America.

Hold onto your seats. The plan for the takeover of the United States has not only been drafted, but activated. Our sources and independent research make this abundantly clear. Martial law scenarios preparing for a breakdown of order under the ongoing economic collapse are underway, even as pretexts for control are initiated in locales across the country. Bold individuals like [Ron Paul have warned that dangerous legislation like the NDAA designate the American population as potential enemies](#). Now, there is more evidence this targeting of the people is sadly taking place.

A laundry list of operations organized under FEMA's National Continuity Programs (NCP) provides a base of technical support for the deployment of national emergency plans and the logistical tracking of all personnel incorporated under what Homeland Security chief Janet Napolitano has lovingly termed the big "[federal family](#)."

"Friendly" military and FEMA personnel, along with their contracted employees and those of other federal agencies, will carry transponder ID badges, like [those described here](#), to designate their "blue" inclusive status. As our military sources have confirmed, under the Blue Force Situational Awareness (BFSA) all other American citizens and civilians are designated under the "red" category and treated as an enemy or potential unfriendly. Throughout his past investigative work including witnessing numerous military drills, Alex Jones has also witnessed the technology and the use of this alarming code branding ordinary Americans as battlefield enemies. The plan includes drone and other high-tech tools to monitor and target individuals designated under the "enemy" status.

The military's [blue force tracking technology](#) has been adopted since 2003 in Iraq and used in [theaters like Afghanistan](#) to quickly distinguish "Blue" friendlies (including U.S. forces and allies like tribal forces) from "Red" enemies. However, on the U.S. homeland battlefield, it is the American people who will be designated under "red," whereas cleared *occupying* personnel are tracked as "blue" friendlies by their ID transponder badges. The designation was set-up to [reduce "friendly fire"](#) incidents.

Blue Force and other related programs like [Geospatial Information Systems \(GIS\)](#), Continuity Analysis and the Command, Control, Communications and Computing (C4) operations named in the document [electronically track and verify the location](#) and clearance of COG-related personnel, the usage of emergency shelter facilities and their components as well as the military's friendly/enemy designations- creating a matrix for live monitoring and control coordinating with FEMA databases during martial law or national emergency scenarios.

For instance, [FEMA acknowledges](#) in its documents the use of Blue Force tracking systems and other [geospatial information systems](#) to monitor the capacity and usage of its facilities under the [National Shelter System and other programs](#). Preparations for the orderly control of the masses have already been put into place.

In particular, the Mt. Weather Emergency Operations Center outside Washington, D.C. is empowered to "coordinate, track, and synchronize the relocation of key leadership and staff from the DHS and FEMA Emergency Relocation Groups (ERG) members to perform their essential functions" during a declared national emergency using the Blue Force and other related tracking programs managed under the established joint relocation operations control center and emergency relocation programs referenced in the document. Section 1.3.4 further details the minimum ID requirements for contractor employee identification and verification.

The [FEMA National Shelter System \(NSS\)](#) is a comprehensive, Web-based database created to support Federal, State and local government agencies and voluntary organizations responsible for Mass Care and Emergency Assistance. The FEMA NSS allows users to identify, track, analyze, and report on data for virtually any facility associated with the congregate care of people and/or household pets following a disaster.

FEMA has also outlined detailed support for its vast Integrated Public Alert and Warning System (IPAWS), proscribed under Executive Order 13407 for the federal takeover of communications. It details the continuity of emergency communications and the issuance of warnings to the public, including public-private partnerships concerned with issuing alert messages through cellular providers– a program that only [recently caused panic when it was publicly tested](#) without forewarning in New Jersey. It is designated in the document under the [Commercial Mobile Alerting System](#) (CMAS).

As we have mentioned here and detailed in the past, this is part of larger COG government takeover– not part of any ordinary natural disaster response as the media has been told. The elite have initiated worldwide economic collapse and prepared their power-grabbing response as currencies and markets fall across the globe. All the experts we’ve talked to over the years concur with this basic analysis.

To put it simply: once the economic depression has sunken in completely, the population will willingly head in droves to government centers for basic requirements like food. As Henry Kissinger bluntly quipped, “Control oil and you control nations; control food and you control the people.” FEMA’s response will in hinge, in part, on just that– encouraging people sign up for their own enslavement.
