The Warp Speed Timeline – is what Dr. Fauci, NIAID / NIH and Bill Gates called the Covid-19 vaccination program that should have started in a few weeks ('should have' – hopefully now it won't).

The world should know about the type of fraud that is planned to being administered to Mother Earth's 7 billion people.

If the trials' side disastrous effects are any indication – the vaccination would cause considerable harm or injury – and possibly death – to people of Planet Earth

This is what Robert F. Kennedy Jr. – JFK's nephew – who is intimately involved in Children's Protection from vaccines – had to say about it.

Moderna's "Clinical Trial Results for Its Groundbreaking COVID Vaccine Could Not Be Much Worse"

by Robert F. Kennedy Jr.

"Despite Moderna's (pharmaceutical company created by the Bill Gates Foundation) cheery press release this morning (20 May 2020), the clinical trial results for its groundbreaking COVID vaccine could not be much worse.

The vaccine, developed and championed by Anthony Fauci and financed by Bill Gates, used an experimental mRNA technology that the two men hoped would allow rapid deployment to meet President Trump's ambitions "warp speed" timeline.

Dr. Fauci was so confident of his shot's safety that he waved ferret and primate studies (Moderna suspiciously reported no health data from its mouse studies).

That appears to have been a mistake. Three of the 15 human guinea pigs in the high dose cohort (250 mcg) suffered a "serious adverse event" within 43 days of receiving Moderna's jab.

Moderna did not release its clinical trial study or raw data, but its press release, which was freighted with inconsistencies, acknowledged that three volunteers developed Grade 3 systemic events defined by the FDA as “Preventing daily activity and requiring medical intervention”.

Moderna allowed only exceptionally healthy volunteers to participate in the study.

A vaccine with those reaction rates could cause grave injuries in 1.5 billion humans if administered to “every person on earth”.

That is the threshold that Gates has established for ending the global lockdown.

Moderna did not explain why it reported positive antibody tests for only eight participants.

These outcomes are particularly disappointing because the most hazardous hurdle for the inoculation is still ahead; challenging participants with wild COVID infection.

Past attempts at developing COVID vaccines have always faltered at this stage as both humans and animals achieved robust antibody response then sickened and died when exposed to the wild virus.

Moderna’s press announcement heralded “Positive Interim Phase 1 findings”.

I have forwarded that claim to my colleagues in securities law; FTC rules restrict the amount of lipstick public companies may slather on bad donkeys.”
