Aug. 14, 2023 – Melbourne, Australia – Danny Norman and Stacey Singles lost their baby boy Cooper at 2 weeks old on May 23, 2023. Just 2 months later, on August 13, 2023, while on vacation in Bali, Stacey Singles collapsed and died suddenly. This is a truly heartbreaking family tragedy.

[Aug. 19, 2023 – Halifax, MA](#) – William Roche and his wife Tracy Roche have both come down with cancer. Tracy was diagnosed with breast cancer last year and this spring William was diagnosed with tonsil/neck/throat cancer.

HELP BILLY AND HIS FAMILY FIGHT CANCER!!

Team fundraiser

BARBARA HAYES and Kathleen ONeil are organizing this fundraiser.

Dear Family, friends and community,

As many of you know, our sister-in-law Tracy was diagnosed with breast cancer last year and underwent surgery and months long treatment. She has been on the road to a full recovery, but it has been difficult and emotionally overwhelming for the family. Then this spring, our brother Billy was diagnosed with tonsil/neck/throat cancer. In February 2023 he had surgery on his nose for post nasal drip and other issues, and when he found a lump on his neck a few weeks later, the doctors thought it was an infection related to the surgery. He was put on a round of antibiotics with no result. They scheduled a series of tests and xrays/scans and discovered nodules/tumors in his neck, and on one of his tonsils; CANCER. The word no one wants to hear....

He is now in the midst of daily treatment; chemotherapy and intensive radiation on his neck and throat. He is not able to eat or drink and had a feeding tube placed at the start of treatment to sustain him. There will most likely come a time when the pain will be so intense he will not be able to speak. The hope is he will regain his ability to swallow, eat and speak with the understanding his voice could be different, his taste buds could be destroyed, chronic dry mouth...the list goes on.

He has speech therapists, nutritionists, radiologists, oncologists, nurses, VNA all at a cost. His insurance covers only a portion of the staggering amounts of money needed to treat this deadly disease. This has taken a toll on both Billy and Tracy, as they attempt to maintain their household and their jobs, all while making daily trips back and forth to Dana Farber.

Aug. 12, 2023 - Darlington, UK - 41 year old Mike Clinton died unexpectedly in his sleep just 3 months after his wife Shelly Clinton also died unexpectedly, leaving behind two orphan boys ages 12 & 14.

Darlington community football club raise £7,000 for boys who lost both parents in three months

TYNE TEES | DARLINGTON | FOOTBALL | ⌚ Wednesday 16 August 2023 at 10:25am

*Robbie and Logan Clinton's parents Shelly and Mike died within three months of each other.
Credit: Family*

A community football club has raised over £7,000 to help two young boys who recently lost both of their parents.

Robbie and Logan Clinton's dad Mike died unexpectedly in his sleep last week just three months after their mum Shelly passed away, also in unexpected circumstances. They are now being looked after by 19-year-old cousin Caitlyn Smith who has taken them in despite her young age.

Robbie, 12, is a member of Hurworth Albion FC in Darlington and the club has rallied around him and his 14-year-old brother.

Aug. 9, 2023 - Dartmouth, NS - 55 yo Brian Scott Sutherland died unexpectedly on Aug. 9, 2023 at home. His partner, 59 yo Robert Bobby Barkhouse died unexpectedly in his sleep on Mar. 22, 2022.

FUNERAL HOME AND CREMATION SERVICES

It is with great sadness we announce the unexpected passing of Brian "Scott" Sutherland, age 55, of Dartmouth, on Wednesday, August 9, 2023 at home. Born in Kentville, he was a son of the late Brian and Patricia (Warden) Sutherland. In addition to his parents, he was predeceased by his loving and devoted partner of 17 years, Robert "Bobby" Barkhouse in March 2022.

Scott is survived by his brother, Jason (Kelly) Sutherland, Centreville; his chosen sister and best friend for many years, Kathy "KP" Purcell and her partner Shawna Young. Scott shared a special relationship with Bobby's sister, Patti and family members. Scott is also survived by several aunts, uncles, nieces, nephews, cousins and friends.

Robert Bruce "Bobby" Barkhouse 1963-2022

We are deeply saddened to announce that Robert Bruce Barkhouse "Bobby" formerly of Mahone Bay passed away unexpectedly in his sleep at his home in Dartmouth on March 29th, 2022.

Bobby was born on March 23, 1963 at Fisherman's Memorial Hospital in Lunenburg, Nova Scotia. Although Bobby grew up and attended school in Mahone Bay his favourite memories were of his childhood home on Georges Island.

As an adult Bobby left for Ontario to pursue other ventures. He attended Marvel Academy and became a hairstylist working for Echo Salon in Kingston, ON. Bobby eventually returned to Mahone Bay where he started his own painting service where he did interior and exterior painting for homes in the South Shore area for about seven years.

In 2005, Bobby met his life partner, Scott Sutherland, and they eventually moved to Halifax and then settled in Dartmouth.

Aug. 4, 2023 - Albertson, NY - Jill Silverstein "suffered a medical event" and died unexpectedly on Aug. 4, 2023. Her 45 year old husband, Craig Silverstein, had died suddenly on April 29, 2021 from a cardiac arrest. Their kids are now orphans.

I cannot believe I am writing this. After losing their father, Craig suddenly in 2021, the Silverstein kids are once again facing an unimaginable tragedy. Their mom, Jill, suffered a medical event on Tuesday and was rushed to the hospital. She seems to have suffered a heart attack and/or seizure as a result of a terrible cold, asthma, and Covid mixing together and causing her lungs to be unable to expel Co2.

Jill has built a community of love around her life—what Craig once called her “cultivation of a life” filled with love and laughter and kind souls. She spent her life giving selflessly every single chance she has had and often creating chances to give out of nothing.

Her kids, Carter (18) and Brooke (14) are going to need that army of support behind them.

Silverstein Kids

Update 8/7:

On Friday, Jill was moved from her ICU room to the operating room in order to complete the organ donation process. The hospital gave her an Honor Walk to thank her for her donation of life to so many—lining the hallways with staff and family.

Pearl Jam, Phish, and The Beatles were blasting the whole time.

Just like she breathed life and love into so many friendships and moments her whole life... in less than 24 hours from her passing, she gave life to others.

Just breathe. Deeply. See you on the other side.

Update 8/4:

Final tests happened. At 12:10 Jill went to be with Craig.

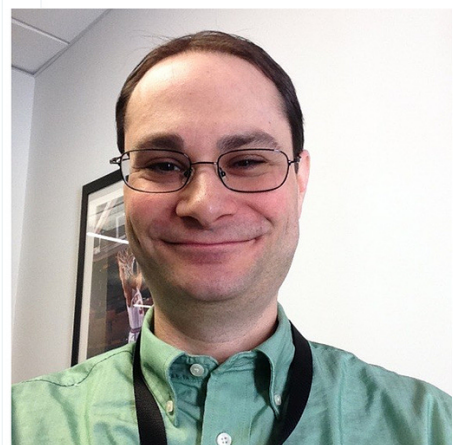

Our MSG Networks family has suffered a tremendous loss.

Craig Silverstein served as director of on-air promotions for over 20 years and was an incredible colleague and friend to us all.

Our thoughts and prayers are with his family.

10:00 AM · May 3, 2021

Aug. 4, 2023 – Whitman, MA – Michelle/Lexi Kowalski suffered a hemorrhagic stroke on Aug. 1, 2023 which left her unable to speak or swallow. Two days later, her husband Joe Kowalski suffered a heart attack.

Joe and Michelle (aka Lexi) with medical bills

Jennifer Ciano is organizing this fundraiser on behalf of Joe Kowalski.

Hi, my name is Jennifer and I am Joe's sister.

I am updating the overall need for this as things have changed dramatically.

As you are all likely aware, Michelle/Lexi suffered a hemorrhagic stroke on Tuesday August 1, which in the immediate aftermath left her unable to speak or swallow, with right-sided paralysis, and a stay in the ICU at St Elizabeth's Medical Center. While she has shown steady improvement -- able to speak and eat, regaining feeling on her right side, as well as some right foot movement -- the future is still unknown regarding potential rehab, physical therapy, or even her ability to walk up the stairs to their second floor apartment. Regardless of insurance, medical bills will be high with an ambulance ride, ER, ICU stay, a myriad of tests and future therapies.

Two days after Lexi's stroke, Joe unknowingly suffered a heart attack, and kept trying to push through for 4 days until a friend brought him to the ER instead of their plan of him visiting Lexi in the ICU.

Joe's heart attack and reduced blood flow caused a hole in his cardiac septum (the wall separating the right and left sides of his heart), as well as injuries to his liver and right kidney. A cardiac catheterization revealed a nearly occluded Right Coronary Artery, and an 80% blocked Left Anterior Descending artery. Both the blockages and the septal defect need to be repaired but that cannot happen until the liver injury is managed and his blood labs normalize.

"Died suddenly".

Both husband and wife, within a week.

This is not normal and it would be nice if people would stop acting as if it is normal

Emmanuel Pentecostal Church - Deer Lake, NL · [Follow](#)

July 29 · 🌐

Please remember the Pearce and Reid families in your prayers. On Tuesday we conducted the funeral for Selby Pearce who passed away so suddenly at the age of 59. This afternoon his wife Sandra also passed away so sudden. This family needs our prayers. To lose both Selby and Sandra just a week apart so sudden is too much to comprehend.

🙏👍🥺 27

I GOT MY COVID-19 VACCINE

WE CAN DO THIS

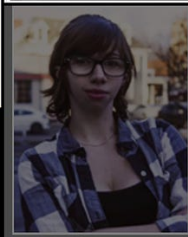

Timothy J. Smith
July 8, 1963 ~ November 2, 2022 (age 59)

Tribute

Timothy J. Smith unexpectedly passed away at his home on Wednesday, November 2, 2022

Tim was born to the late Stephen and Bertha Smith in Norwalk, CT on July 8, 1963, though he spent most of his life in New Milford, CT. He married his high school sweetheart, Zina (Mellas), to which they shared their lives together for well over 30 years. Their love also gave them their precious only daughter, Hope.

Hope M Smith

<P>SADLY, HOPE M. SMITH UNEXPECTEDLY PASSED AWAY AT HER HOME ON TUESDAY, JULY 18, 2023. <P><P>HOPE WAS BORN TO PARENTS TIMOTHY J. SMITH AND ZINA M. (MELLAS) SMITH OF NEW MILFORD, CONNECTICUT ON APRIL 16, 1999. SHE WAS PREDECEASED BY HER FATHER TIMOTHY ON NOVEMBER 2, 2022. HOPE LIVED HER ENTIRE LIFE IN NEW MILFORD, CT. <P><P>HOPE ATTENDED AND GRADUATED FROM THE AMERICAN SCHOOL FOR THE DEAF (ASD) IN WEST HARTFORD, CT IN 2017. July 6, 2023 – Fort Hamer, FL – 11 year old Andrew Amber had breathing problems, ended up intubated, coded and died briefly before being revived by Hospital staff. He was diagnosed with myocarditis. His father, Barnabas Amber had a massive heart attack just 5 months ago and needed 6 AED shocks to be revived.

Andrew (11) in ICU with severe myocarditis

Jackie Stone is organizing this fundraiser on behalf of Barnabas Amber.

Hi! We are raising funds for the Amber family. They are involved in church planting in Muslim majority countries and were visiting FL to tell churches here about their ministry when their 11 year old son (Andrew) suddenly became ill. They were taking pictures near the beach when Andrew started coughing. By the time they arrived at their hotel, he felt worse and had low oxygen saturations. They went to a hospital nearby (Sarasota Memorial), and he ended up being intubated for worsening breathing problems before being transferred to All Children's Hospital in St. Pete. He was intubated for several days before starting to improve, but last night he developed an abnormal heart rhythm and coded. The team at the hospital was able to resuscitate him, but he has a long road ahead. He has myocarditis (inflammation of the heart muscle) likely caused by a viral infection.

Please pray for Andrew and his parent (Barnabas and Brandy) and their 3 younger children. Pray for healing, strength and comfort. **Barnabas (Andrew's dad) had a heart attack not very long ago that he has recovered from,** but that along with a long hospital stay out of state with needs for housing and accommodations will put additional financial strain on the family. I'm sure they would appreciate any help. Funds will be used to help pay for food, accommodations, medical bills for the family.

Barnabas Amber

Health Update:

Dear Friends, It has been a little over 2 months since I had a massive heart attack. After 7 CPRs, 6 AED shocks, being in coma for 35 hours and little hope given by the doctors, God's plan was to keep me in this world with you all. Since my heart attack and during my recovery, many of you have been a great blessing to my family and I. I have to thank so many for your kindness and generosity. I am so thankful to all that comforted my family and prayed for me while I was in coma. Your comfort and prayers ment a lot. I am thankful to all that took care of our kids while my wife was in the hospital taking care of me. You were there for us when we needed you the most. I am thankful to all that provided the meals. Because of your kindness, my family did not have to worry about food for a while. I am thankful to all that are still supporting financially. Your help is helping us with so many bills. I am thankful to our dear neighbors for stepping in to take care of us . Lastly and most importantly, I am thankful for all that are still praying. I am still on a road to recovery. I still get dizzy and tired easily. I started driving. But I learned the hard way that I can't drive too far. I still have pains in my ribs. I have a doctors appointment next week for my ribs. Thank you so much for your Christlike love. I will forever be thankful to you.

Feel free to share this update with others.

[May 5, 2023](#) - Magnolia, TX - Physician Darrick Wells had a brain bleed from a micro aneurysm in 2021 after his COVID-19 vaccine. Recently, he had another stroke. His wife has been diagnosed with Transverse Myelitis, also COVID-19 vaccine induced.

Please help the Well's Family

Dear friends and family,

As you know, my husband, Darrick has had another stroke.

He suffered a stroke two years ago, and thank God he recovered because my entire support system is in California since moving to Texas two years ago. We've met wonderful and kind friends and we're very grateful for the support we've had from the kids mothers, church family and complete strangers.

I myself have suffered a terrible reaction to the vaccine. I have been diagnosed with Transverse Myelitis, a rare condition with inflammation on the spinal cord.

That inflammation has caused permanent damage in 4 areas along my spine. Each day I suffer with severe pain that is unbearable. My doctors are unsure how to care for me.

Darrick has been the breadwinner of our family for the last 20 years as a doctor caring for others. He has been working in the urgent care field the last 5 years. Here in Texas he works at a privately owned small doctors urgent care. Unfortunately because it is small, there is no PTO or Disability. Since Covid, the days at urgent care are long and unbelievably busy. The average day there would be 100 patients to be seen. The vaccine is possibly the cause for these medically unexplained strokes.

He is unable to speak, but is able to write things on the board. We are encouraged that he can make a full recovery but the doctors say it can take up to a year. Recovery will entail outpatient rehabilitation once he is able to come home. He feels completely devastated, and very sad that he can't provide for his family.

We have three teenagers at home, one in college, and 2 in high school.

after taking COVID-19 vaccines. Her husband's injury appears to be an autoimmune vasculitis caused by COVID-19 vaccine.

June 1, 2021 - Husband and wife have major heart surgeries 3 weeks apart. Erin Gallagher had chest pain on June 1 and needed open heart surgery. 3 weeks later her husband Chris Gallagher, who had chest pains after COVID-19 vaccine, had to have open heart surgery as well!

The Gallagher Family Heart Bypass x2

Kirsten Redd is organizing this fundraiser on behalf of Erin Gallagher.

June 1st 2021 Erin Gallagher was rushed to the emergency room by her husband with chest pain, right arm pain, and jaw pain. Advance one week forward, still in the hospital Erin was now having open heart surgery (cabg X4). Husband (Chris) was just (a month prior) hospitalized at the same hospital in Lufkin due to chest pain and side affects after receiving the covid vaccine. Erin was released from the hospital after having her quadruple heart bypass on June 11th. Sent home with restrictions for 6 weeks! No Driving! No Picking up her babies! Can not pick up anything heavier than a gallon of milk!

Let's go to June 21st 2021... Erin is 2 weeks out from her quadruple heart bypass and she is sitting back in the Cath Lab at the hospital where she had her surgery. Only this time, she is not the patient! Her husband, Chris has gone through multiple tests since his dismal from the hospital and was ordered to have a heart cath completed. Ok, no worries! Heart Cath, then he will be released 4-6 hours after that is done to come back home where he needs to be getting ready to go to work at the school. WRONG!!!! Doc came in and said..... you have multiple blockage areas, one is 100%.....

YOU REQUIRE OPEN HEART SURGERY!

OMG!!!!!! Ok..... God doesn't give us more than we can handle!

June 25th, 2021 by Kirsten Redd, Organizer

Exhausted is the word for the day!!!! Two broken hearts, repaired less than three weeks apart. I find myself thinking.... is this for real????!!!!

Chris surgery went amazing today!! He is off of the vent, speaking taking pills by mouth. DOING GREAT!!!!

I'm exhausted and can't keep my eyes open hardly to finish this.. so goodnight! Thank you all soooo much!!!!

My Take...

This is why I started my substack.

I wanted to report information that would not be reported anywhere else.

These stories are almost impossible to find.

Special thanks to two Twitter users: [Nashville Angela](#) and [Janiesaysyay](#) for locating a few of these cases and alerting people to them.

Big pharma and the Vaccine Cartel don't want people to know about these stories.

Multiple family members coming down with injuries has only a few possible explanations (beyond coincidence):

1. Genetic predisposition shared by family members (doesn't explain couples) – no one is studying this anywhere in the world;
2. Took a COVID-19 vaccine from the same bad batch or bad vial that has high incidence of severe adverse events and sudden deaths – possible cause in some of these cases;
3. The overall incidence of COVID-19 vaccine injuries is now so high, that it is statistically inevitable that some families will have more than one person coming down with vaccine injuries.

I believe the last scenario is now in play. There are simply so many people being injured by COVID-19 vaccines that it is inevitable now that there will be families where two or three members are injured or die suddenly.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
