It is with great sadness and disbelief that i announce the sudden and very unexpected passing of my cousin Arturo montano jr at 29 years old.

Arturo was a very special person with a heart of gold. He would light up any room he entered with his warm smile, kind words, and the way he treated everyone he met. May 8, 2023 – Calgary, AB – 47 year old Stacie Roper, singer & songwriter and lead singer of the group “Hey Romeo”, died suddenly on May 8, 2023. She was COVID-19 vaccinated.

## My Take...

On April 24, 2023, I wrote a substack about musicians getting vaccine injured or dying suddenly ([click here](#)).

This may be subjective, but it appears to me that the trend of singers and musicians dying suddenly is accelerating. More and more are dying suddenly.

Many musicians and singers were forced into COVID-19 vaccines in three ways:

- record companies had COVID-19 vaccine mandates
- concert venues required COVID-19 vaccination to be able to participate
- international travel required at least 2 if not 3 COVID-19 vaccines

I can't think of many musicians who were vocally opposed to COVID-19 vaccines or vaccine mandates, but there were a few memorable ones like Nicki Minaj and others who are listed here ([click here](#)).

Today, news broke that 64 year old Madonna was found unresponsive and was rushed to the hospital. She has claimed in the past to be at least double vaccinated with Moderna COVID-19 mRNA vaccine ([click here](#)).

She apparently had a “serious bacterial infection” that landed her in the ICU for several days, intubated and septic. I don’t have any information beyond that.

Up to now, Jamie Foxx has probably been the most famous entertainer who has had a very serious COVID-19 vaccine reaction, a stroke that has apparently left him partially blind and paralyzed, and which nearly killed him.

Jamie Foxx is also a musician. The tragic nature of his injuries has opened many people’s eyes to what the COVID-19 vaccines are doing to people.

## The Worldwide Corona Crisis, Global Coup d’Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*
