The specter of mass protest – of mob rule – seems to have haunted Vladimir V. Putin throughout his political life, and that fear lies at the heart of his belief in the primacy of state authority. It also informs Russia’s forceful intervention in Syria. NYT, 4 October 2015.

The NYT – one of the key spin doctors in spreading falsehoods – knows no limits in manipulating public opinion and demeaning Mr. Putin in Machiavellian fashion with lies and untrue inferences.

What the paper describes in its article titled [“In Putin’s Syria Intervention, Fear of a Weak Government Hand”](#), is just about what the US has been doing in Syria since 2007 with increasing intensity by training, funding and arming terrorists that were given different names ranging from al Qaeda – to al-Nusra – ISIS/L- Daesh... “moderate opposition” – you name it, to please the Washington hegemon’s needs; and this with the objective of achieving ‘regime change’, meaning replacing President al-Assad with a Washington puppet.

All the while hypocritically and deceptively claiming the US / NATO and other European puppets were fighting the terrorists, when in fact America, the Saudis, Qatar, Turkey, NATO and the EU were funding, arming and training them.

The only legitimate intervention on behalf of a foreign country since WWII is Russia helping Syria since 30 September 2015 in eliminating the foreign funded, devastating terrorism, causing human misery and millions of refugees flooding neighboring countries and Europe.

Mr. Putin with the approval of the Russian Parliament, the Duma, agreed to this intervention at the request of the legally and people-elected President al-Assad. The official request of the Syrian Government is one of the two only lawful reasons for a foreign country to intervene in a sovereign nation. The other one is by request of the UN Security Council.

None of the US / NATO interventions in the Middle East and around the world, including economic sanctions, are legal. None of them would stand up in an honest court of justice that deserves its name; is there still one left that is not coerced into defending US interests?

All interventions in foreign countries by the United States directly or by proxy are spreading chaos, destruction and death in the name of ‘democracy’. They have been and continue to be – in its full meaning – *illegal and in flagrant violation of the Charter of the UN*. They serve only one purpose: for Washington to achieving *Full Spectrum Dominance* of the world, as outlined by the Zionist-drafted PNAC (Plan for a New American Century) – which is the road

map for the US State Department's Foreign Policy. – NYT and other MSM adherents might want to know this.

After listening to Mr. Obama's pitiful speech of lies and deceptions before the UN General Assembly on 28 September, followed by that of Mr. Putin – who presented a series of down-to-earth facts, culminating in his conclusion 'do you realize what you have done' – the world at large may have started opening their eyes and minds to the truth. The shrouds of deception, manipulation and outright lies spread by the sorts of the NYT and other MSM will gradually be lifted, giving light to a new dawn, a new horizon away from the NWO (New World Order) towards peaceful cooperation rather than US controlled wars, conflicts and destruction through bombs and financial fraud.
