*The book [No Worries No Virus](#) is a structured summary of my research on the Covid-19 situation, and of the agenda behind the Covid hoax. The book was first published in 2021 under the title *Transcending the Covid-19 Deception*. In this book I look 'behind the curtain' at the corporate, media, and financial players behind the hoax. Key historical events are detailed to provide a bigger picture of what it all means.*

I have attempted to provide:

comprehensive evidence of the Covid-19 hoax;

technical analysis and evidence showing that a Covid-19 virus causing disease simply does not exist (no evidence Covid-19 exists – never been isolated, ever);

the pandemic situation was planned with a purpose;

the Covid-19 death numbers are fraudulent;

flawed modelling and false case numbers were used to justify world lockdown;

the fraudulent Covid-19 PCR test created false case numbers;

and that virology took a wrong turn – pathogenic viruses causing disease do not exist.

The book also details the following topics: an analytical timeline of the banking and

corporate landscape over the years 1913 to 2019, prior the Covid-19 lockdown; analysis of the UN Agenda 2030 and WEF technocratic reset agenda; the hoax required a single controlling world influence – single group control of the world’s mega-corps/mega-banks; and a humble spiritual perspective on the economic power game.

The following are extracts from the book.

The pandemic was pre-planned

In addition, to the unscrupulous relationship between the WHO and vaccine companies, we see that Covid-19 is, in reality, a ‘live exercise’ that has been meticulously planned for the past 20 years.

Millions of Covid-19 test kits specifically labelled Covid-19 were sold and exported worldwide before Covid-19 supposedly even existed, I personally viewed this evidence.

Plans for vaccine passports were in place long before the so-called pandemic started; and the infamous WEF event 201 coronavirus pandemic simulation event took place 3 months prior to the so-called real coronavirus pandemic.

Furthermore, a smoking gun deal, the Bill Gates contact TRACE deal took place six months before the pandemic. 20

A decision for a worldwide lockdown had already been taken at the WEF conference in Davos, 21 – 24 January 2020, i.e., a decision that obviously would collapse the world economy.

There were only 150 so-called Covid-19 cases outside of China at that time.

On March 11, Dr Tedros, Director General of WHO, declared a pandemic, under the advice/instruction of the private-public partnerships that advise the WHO, i.e., under advice from the vaccine companies. Note that Tedros, an accused genocidist, previously served as a minister in a violently oppressive rooted regime in Ethiopia from 2012 to 2016. In preparation for the live 2020 exercise, simulation exercises of communist-type authoritarian control in the face of a virus, have been running since 1999.

The Rockefeller Foundation rehearsal for a pandemic and ‘Lockstep’ strategy for world totalitarian control illustrates exactly what later occurred worldwide. In Germany, the pandemic was declared based on the opinion of just one person, the same person involved the swine flu hoax; and in Australia, corruption was exposed in which the government was taking advice from lobbyists being paid tens of millions of dollars

No increase in infections only a rapidly increasing use of a flawed Covid-19 test

The Covid-19 PCR test is flawed and fraudulent; It was never the Covid-19 infection rate that was increasing exponentially, but the number of PCR tests being carried out. Independent analysis of the evidence by numerous doctors and scientists comprehensively proves that the PCR test is bogus and fraudulent.

The fraudulent Covid-19 PCR test created false case numbers Waves of Covid-19 were intentionally orchestrated via mechanisms including fraudulent PCR testing, which can dial

up and down case numbers. The crucial point is the pandemic is fake because the PCR tests are bogus and not proof of anything. Many so-called pathogenic virus fragments are found in our body, but in such incredibly minute quantity they pose no danger. However, the PCR test incorrectly records these as an infectious disease case, and the cases are then used to argue in favour of a rapidly advancing pandemic. Dr Thomas Hardtmuth makes the point as follows:

“It has long been known that the human being carries thousands of cancer cells which are kept in check by an active immune system... It is similar with viruses. With every salad leaf that we consume we take in a billion viruses... Even drinking water is bristling with viruses... We barely know 1% of all these viruses but one thing is sure – they do not cause illness!” – Dr Thomas Hardtmuth

Pharma operatives running a vaccine racket – brave doctors sacked for speaking out

Ireland’s National Public Health Emergency Team have been reported as “Deep state Pharma operatives essentially, running a vaccine racket.”, see Endnote 12.

The following events took place in 2020 and exemplify the shocking treatment, sacking and silencing of the many doctors that have spoken out against government Covid-19 policies worldwide. Dr Pat Morrissey, Chairperson at ShannonDoc, the out of hours GP service for Limerick, Clare and Tipperary in Ireland, became the latest medical professional to lose his job after strongly criticising the National Public Health Emergency Team (NPHE) and the Irish government over their Covid-19 strategies.

Dr Morrissey had attended the health freedom Ireland protest in Dublin in 2020 where he delivered the criticism. A few days later Dr Morrissey was removed from his position as see Endnote 13. He had described NPHE as “megalomaniac bureaucrats” that are “completely out of touch” and “believe your health is determined by a stupid swab result” that is “meaningless data being used to subdue the people” and that NPHE “should be 24 scrapped. He further asserted: “There is very little scope for free speech and those who stick their heads up are liable to get them knocked off”, and that there were many other doctors who have concerns about Covid-19 restrictions pursued by NPHE. Dr Morrissey has stated that:

“Our rights are being trampled by the Government organisation called NPHE... By any reasonable definition at this point, Covid is no longer a health emergency. We must take back our country and our freedom from these megalomaniac bureaucrats.”

“After I spoke at the (health freedom Ireland) rally there was a storm of retribution against me... I was removed from the Shannondoc board as well ... we have gone through bigger public health issues here in Ireland in the past and we haven’t crashed the economy and crushed our society to fight these challenges... There is no health emergency anymore. If you look at the deaths, it is zero or one per day... I mean eighty plus people die every day in Ireland. So why are we not locking down the country because of car accidents...The average age of death from Covid is 84. And I am not the only person saying this, there are others... Internationally there’s lots of people trying to counter this nonsensical approach with lockdowns and mandatory masks in low-risk settings” – Dr Pat Morrissey

TV doctor spills the beans “I just say whatever they write down for me!”

The owners and top management of these media corporations control the overall news ‘agenda’ and news template. On the ground level, employees and news reporters at these corporations have, over the decades, gradually become little more than presentable actors that do what they are told and read what they are given, they are the witting or un-witting agents following instructions.

Government health officials also simply follow the adopted government narrative, for example, in a Covid-19 press briefing on Canadian television in December 2020, one of Ontario’s top public health officials made an incredible remark into a hot microphone, minutes before the beginning of the briefing. A video recording was posted on internet platforms and the local news networks reported on it, see Endnote 22.

The video shows Associate Medical Officer of Health, Dr Barbara Yaffe, unpacking some papers next to her colleague Dr David Williams prior to the beginning of their twice-weekly briefing. Before the briefing, Yaffe remarks “I don’t know why I bring all these papers. I never look at them. I just say whatever they write down for me.”

She later stated her communications team provides her with “researched and vetted remarks”. NDP Leader Andrea Horwath said that it “just leaves more and more questions in people’s minds as to who is calling the shots” when it comes to the province’s pandemic response.

The incident provides an insight into how these corporate and government controlled Covid-19 press briefings actually functioned.

Millions of Covid-19 test kits were being sold two years before Covid-19

Millions of Covid-19 test kits were being sold and exported two years before Covid-19 supposedly even existed. The so-called Covid-19 virus emerged for the first time in 2019 this is why it contains the number 19. However, data from the World Integrated Trade Solution, (WITS) website, showed something that proves Covid-19 was planned well in advance.

The website shows that hundreds of millions of Covid-19 PCR test kits were being sold and exported worldwide 2 years before Covid-19 supposedly even existed.

This astonishing proof on the WITS website exposed Covid-19 as a pre-planned event. I personally viewed and verified the WITS website evidence in late summer of 2020 as did many other people worldwide. When I viewed this in late summer 2020, I instantly published the screenshot evidence on social media and on my website.

The screenshots are in the book *No Worries No Virus*. Many other people were doing likewise. This damning evidence appeared to be going ‘viral’ across the world on social media in September 2020, however, the WITS website page was quickly altered in an attempt to hide the evidence.

I personally observed that changes had been made to the WITS website during the week after I had posted the evidence on social media. The WITS had changed the original label ‘COVID-19’ into the vague term ‘Medical Test Kits’. However, I had already saved the original screenshot as proof, and I presume other researchers did likewise.

The WITS cover-up came too late. This critical evidence had been uncovered and revealed worldwide. The original data of the WITS website can also be seen on the web archive, see Endnote 34. Furthermore, the WITS organisation, or whoever attempted the cover-up, forgot to delete one detail: the bottom of the webpage still showed the product code for these 'Medical Test Kits': 300215 which specifically means 'COVID-19 Test Kits'.

The extract is provided in the book *No Worries No Virus*.

The argument used to dispute this evidence is that the label 'COVID-19' was only added in 2020. That however doesn't hold true, since the very product code, from 2017, for these test kits is 'COVID-19 Test Kit'.

It also doesn't change the fact that two years before the pandemic, suddenly virtually every nation in the world started distributing hundreds of millions of medical test kits that are specifically used for Covid-19. Even without the label 'COVID-19', it is extremely uncommon and strange that the entire world suddenly imported and exported literally hundreds of millions of medical test kits.

What were they preparing for? Why was this mass distribution of hundreds of millions of medical test kits initiated right before the worldwide pandemic hit?

The book also details the following:

- A Global Vaccination Summit took place 3 months before the pandemic began
- Anthony Fauci and Bill Gates guaranteed a pandemic was "on its way"
- Smoking Gun: \$100 billion Bill Gates contact TRACE deal six months before Covid-19
- Definition of a pandemic was changed by the WHO - it's a pandemic even if no one dies
- timeline to Covid-19 launch. Simulation games/pandemic exercises took place from 1999 onwards. For example, pandemic simulation symposiums were held in 1999 and 2000 sponsored by the John Hopkins Center for Health Security, the US Department of Health and Human Services. and the Infectious Diseases Society of America.
- the Rockefeller 'Lockstep' scenario, a strategy for totalitarian control during a pandemic, was published in 2010.
- 2 years before the pandemic, the EU developed an action plan for mass vaccinations
- Germany: pandemic declared based on one opinion - the same person involved the swine flu hoax
- Rockefeller Foundation rehearsal and 'Lockstep' strategy for totalitarian control
- Rockefeller handbook on implementing authoritarian control during a pandemic
- Worldwide contact tracing is not to control a virus, it is an attempt to control humanity
- Bio-metric technology to monitor the world population
- 2 years before the pandemic, the EU developed an action plan for mass vaccinations
- Australia: Government lobbyists paid tens of millions by vaccine companies
- The WHO accidentally admit the death rate is no different to the common flu
- Majority of Covid-19 deaths was amongst the 'vaccinated' not the un-vaccinated

Remember the 2009/2010 swine flu fraud – a trial run for the 2020 Covid-19 hoax

The WHO had persuaded countries, including Germany and Ireland, to agree to purchase vaccines if a pandemic was declared. With this new pandemic definition in place, the WHO, which is an organisation closely linked with the vaccine companies, declared the swine flu pandemic in 2009, despite absolutely no evidence.

With the result that swine flu vaccines were sold worldwide on the basis of ‘sleeping’ contracts. The swine flu was also nothing more than a mild flu and was by no means the deadly killer virus that the pharmaceutical corporations and the WHO stated it was – they predicted millions of deaths ‘if’ people didn’t get vaccinated, but in reality, there were hardly any deaths from swine flu at all. Sound familiar?

In Germany, the virologist, Mr. Drosten, was one of those creating panic in the population, repeatedly stating over and over again that the swine flu would kill millions of people. This corporate hoax was exposed by Dr Wolfgang Wodarg, who was a member of the German Bundestag. Most of the German people rejected the swine flu vaccine and millions of doses of the vaccine had to be destroyed. This was a clear case of rigged market fraud producing billions of dollars of profits for pharmaceutical companies and the taxpayers of the countries that had purchased the vaccines footed the bill. However, no-one was held to account.

Australia: Government lobbyists paid tens of millions by vaccine companies

In New South Wales, Australia, Premier, Gladys Berejiklian, was forced to resign in 2021, when a well-known politician, billionaire businessman and founder of the United Australia Party, Clive Frederick Palmer, uncovered/exposed a scandal. The Premier, Gladys Berejiklian, a promoter of mass Covid-19 vaccination, was being advised and directed by lobbyists and these lobbyists were being paid tens of millions of dollars by biopharmaceutical/vaccine foundations AstraZeneca and Pfizer to drive policy. Palmer stated to the press:

“She’s being directed by lobbyists in Sydney who’ve been paid by AstraZeneca and by Pfizer tens of millions of dollars to get these policies through to make sure the vaccine is pushed... that’s my personal knowledge and I’m happy to make a statement here to the police or to anyone” – Clive Frederick Palmer

Two weeks after Palmer’s statement, Gladys Berejiklian, the New South Wales Premier, resigned amidst an investigation by the Independent Commission Against Corruption. Berejiklian stated to the press:

“the Independent Commission Against Corruption will today release a public statement in which it will state it is investigating allegations made about me... therefore it pains me to announce that I have no option, but to resign from the office of Premier.” – Gladys Berejiklian

Governments registered deaths as Covid whether or not Covid was the cause of death

There was no virus pandemic. The website www.covidrecovery.ie provides graphical

analysis, see based on data from the Irish government's CSO, illustrating there was no change in the overall number of deaths in Ireland in 2020 compared to previous years, i.e., indicating there was no pandemic. In Ireland official data shows overall mortality rate in 2020 was no different from previous years and previous flu seasons, and Europe as a whole shows a similar situation. Ireland's so-called second wave showed no evidence of notable difference in respiratory ICU or excess mortality over previous years.

Many researchers have also highlighted the fraudulent methods governments have used to register and count the number of Covid-19 deaths. Deaths within 28 days of a positive Covid-19 test are classified as a Covid-19 deaths, regardless of true cause of death. This means that Covid-19 death numbers were hugely inflated. For example, on the 14th August 2020, a document from the Northern Ireland Government website, see Endnote 60, stated on page 10:

"The Department of Health count the number of deaths reported by health trusts, where the deceased had a positive test for COVID-19 and died within 28 days, whether or not COVID-19 was the cause of death...and whether or not Covid-19 was the primary underlying cause of death. The figures include cases where the doctor noted that there was suspected or probable corona virus infection involved in the death"

The same trickery for counting Covid-19 deaths was evident in the 93 Republic of Ireland. In 2020, at a meeting of the Government Covid-19 Special Committee, TD (member of parliament) Michael MacNamara, Chair of the Dail Covid-19 Committee, enquired about the method the government's Health Service Executive uses for counting the number of Covid-19 deaths. It was confirmed that deaths are counted as Covid-19 deaths even if the person does not die of Covid-19. A person with no Covid-19 symptoms whatsoever, dying of a heart attack or falling off a roof for example, is counted as a Covid-19 death if the person's Covid-19 PCR test in hospital is positive. A video of this extraordinary confirmation at the meeting is available on the internet. The transcript is as follows:

MacNamara: "Doctor... If somebody... who shows no symptoms whatsoever of Covid and they have a heart attack, and are tested and it is found that they have covid, and they die soon thereafter, but this is somebody who has demonstrated no symptoms whatsoever - are they recorded as a Covid death or not? - if they have tested positive for Covid - but ultimately came to hospital because they have had a heart attack or a stroke or fell off the roof of a building or something like that."

Doctor: "We adhere to the WHO case definition in terms of their recording and reporting of deaths - in the situation you have just described... then it is a death in a confirmed Covid case. They are recorded as a Covid death."

MacNamara: "If someone is admitted to hospital and are asymptomatic and they have a broken leg, for example, and test positive are they included among the statistics of those in hospital with Covid?"

Doctor: "Yes they are."

MacNamara: "And these are the statistics relayed at the daily press conferences."

Furthermore, in many cases post-mortems were not permitted to determine the true cause. A consequence of this trickery was that number of flu cases all but disappeared in the

statistics and was replaced by Covid-19. The US used the same fraudulent method of counting deaths. This was exposed at the Illinois Department of Public Health in the US, when the Department Director, Dr Ngozi Ezike, explained how the department determines if a death is related to Covid-19. Dr Ezike explained that anyone who passes away after testing positive for Covid-19 is counted as a Covid-19 death even if the person died of a clear alternative cause, see Endnote 61. Dr Ezike stated:

“If you were in hospice and had already been given a few weeks to live, and then you also were found to have Covid, that would be counted as a Covid death. It means technically even if you died of a clear alternate cause, but you had Covid at the same time, it’s still listed as a Covid death. So, everyone who’s listed as a Covid death doesn’t mean that that was the cause of the death, but they had Covid at the time of the death.” – Dr Ezike, Director of the Illinois Department of Public Health

Furthermore, a report from the U.S. Federal Centers for Disease Control and Prevention in August 2020 showed that the number of actual deaths that occurred has been significantly misrepresented. The report drops a “bombshell” i.e., that in 94 percent of the cases of those who died from Coronavirus, another disease was also at work on the victim and the overwhelming majority of this 6% are aged over 80. The report states: “For 6% of the deaths, COVID-19 was the only cause mentioned,” the CDC stated in its report, under the heading “Comorbidities.”

The book also details the following

- S. CDC report shows number of deaths has been hugely misrepresented
- CDC paid hospitals to register deaths as Covid-19 deaths, up to \$39,000 per death
- German government official leaks report that Covid-19 is ‘A Global False Alarm’
- Sweden with no lockdown compared to Ireland lockdown – no difference in death rates
- Reports that overdoses of Hydroxychloroquine caused excess deaths – not Covid-19
- Reports that deaths were caused by Medazolin and Remdesevir protocols in hospitals
- Reports that prohibition of effective treatments for pneumonia caused deaths – not Covid-19
- Hydroxychloroquine (as an effective treatment) was prohibited in some countries due to a political agenda
- Covid-19 PCR test – the key to the hoax – it’s not a valid method of testing for a virus
- CDC admit a positive PCR test does not mean a person is infected with anything
- Testimonies from medical experts that the PCR test is flawed and fraudulent
- Peer review by 22 scientists revealed 10 major scientific flaws of the PCR test
- Covid-19 PCR test flaw ruling by the High Court of Portugal: 97% false positives

- 114 medical institutions have no evidence Covid-19 has been isolated anywhere, ever

- Covid-19 vaccines bypassed normal safety procedures – emergency approval given
- Bio-pharma has paid more than \$35billion in criminal penalties for falsifying science
- The harmful health side-effects of mass vaccinations – especially on children
- Covid-19 vaccines were not granted regular EU approval – ‘on-trial’ for two years
- Flawed computer models claim vaccine effectiveness – vaccine related deaths ignored
- In-house study trials resulted in numerous serious side-effects and some deaths
- Testimonies from numerous doctors and medical experts that the Covid-19 vaccines are dangerous
- EU GMO risk evaluations had not been conducted on the Covid-19 DNA-based vaccines
- GMO-based Covid-19 vaccines should be subject to the pre-cautionary principle
- Huge numbers of adverse reactions/vaccine-induced deaths not reported by media
- Lockdown and masks caused immense harm – were completely unnecessary
- Masks are masonic symbols of de-personalization and slavery

How did the flawed PCR test become the standard for Covid-19 testing worldwide?

Various medical experts have described what occurred in Wuhan, where the Covid-19 was supposedly discovered, and how the new and unvalidated Corman Drosten PCR test was controversially approved and fast-tracked into use for worldwide Covid-19 testing. For example, Dr Wolfgang Wodarg has described the sequence of events as follows:

“Mr. Drosten submitted a protocol to the WHO and it got admitted really quickly... it was decided to just use this (Drosten) test everywhere... the Chinese government made something really big out of it... completely exceeding the virological frame... all of sudden face recognition was installed everywhere at the airports... something was woven around this... a network of information and opinions has been developed in certain expert groups and the politicians turned to these expert groups who initially started all this... Which means that now it’s going to be very hard for critics to say “Stop. There is nothing going on”. All this reminds me of the fairytale about the king with no clothes on and just a small child was able to say “Hey. He is naked!” All the others in the courtyard, surrounding the government and asking for advice, because they can’t know themselves, they all played along and joined the hype. Scientists who just swim along in this mainstream and also want their part... because they want to earn money with it and become important.” – Dr Wolfgang Wodarg

If the Drosten PCR test is flawed and unvalidated, why is it being used worldwide for Covid-19 testing of hundreds of millions of people?

Researchers attempting to answer this question quickly discovered that the two of the authors of the Drosten PCR protocol had major conflicts of interest. They were on the

editorial board of the journal that the Drosten PCR test protocol was submitted to, is it any wonder the new protocol went through the peer review in 24 hours, when the average is around 6 months! Authors of the protocol were also on the WHO advisory board. Is it any wonder that the WHO approved the Drosten protocol! Kevin McKernan, CSO of Medical Genomics, a whistleblower who has worked in the area of PCR testing for 25 years described these shady developments in a presentation in 2020:

“the... Drosten PCR protocol... the authors had conflicts of interest... it was compromised in the peer-review process... those weren’t declared... two of the authors of the paper are on the editorial board of the journal that they sent the manuscript paper to... and it went through peer review in 24 hours... that is an exceedingly fast peer review... the average is north of 170 days or so... Corman and Drosten formulated a goal or an aim for that protocol stating the following: ‘we aim to develop and deploy a robust diagnostic methodology for use in public health laboratory settings without having virus material available’. They only had theoretical sequences... If you look the authors list again you will find two people who are on the WHO advisory board... so you can see here another very big problem... it’s still a mystery why only the Corman Drosten paper was the only protocol recommended at the beginning of the pandemic....” – Kevin McKernan, CSO of Medical Genomics

After the Drosten test was exposed as fraudulent, 22 scientists signed the Corman Drosten retraction letter, calling for the Corman Drosten PCR protocol to be retracted. Signatories included Kevin McKernan and Bobby Malrota, who was on the Austrian COVID task force. According to McKernan there has been quite a bit of blowback against the signatories:

“Well, I think they start calling you an antisemite... every slander in the book they are not going for the ball they are going for the person...” – Kevin McKernan, CSO of Medical Genomics

The UK MHRA knew in advance that Covid-19 vaccines would cause many Adverse Drug Reactions

The vaccine companies and government health agencies knew that the Covid-19 vaccines were unsafe and going to injure a high volume of people. This is proved by the fact that the Medicines and Healthcare Products Regulatory Agency (MHRA) in the UK posted a procurement contract notice on the EU EPSD procurement website in 2020. The notice stated:

“The MHRA urgently seeks an Artificial Intelligence (AI) software tool to process the expected high volume of Covid-19 vaccine Adverse Drug Reactions (ADRs)...”.

I personally took a screenshot of the notice on 17th March 2021 and this is provided in the book *No Worries No Virus*. The tender notice was publicly available official EU procurement information. When I posted this information on my twitter account, I received a message from the Twitter company that my Twitter account was suspended specifically for posting this information. This appeared to be a clear case of censorship.

Fraud: PCR test sequences occur naturally in humans, not in a new coronavirus

The PCR test does not even test for a virus. Research by Dr Stefan Lanka has shown that RT-

PCR does not detect so-called SARS-CoV-2 (Covid-19), but fragments of RNA that occur naturally in humans and in numerous microbes. In an article titled *The beginning and the end of the corona crisis*, Dr Lanka explained why Drosten's test is fraudulent and Covid-19 is a hoax.

"Prof Drosten has crossed the clearly recognizable line between a scientifically justified action and an obvious and serious fraud... Prof Drosten and his colleagues relied on social media to assume that a SARS-related corona virus could be the cause of the atypical pneumonia outbreak. At that time there was no clinical data available that could support such claims... Did Prof Drosten verify if the genetic sequences that he used as the basis for the development of his detection test actually come from a virus? The answer is no!... Did Prof Drosten carry out the mandatory control experiments to test his hypothesis that the genetic sequences used by him were constituents of a virus?... The answer is no!" – Dr Stefan Lanka

You cannot have specific tests for a virus without having first isolated the virus you are trying to detect. To examine the sequences that have been published as new coronaviruses and where these sequences come from, medical researcher, Jesús García Blanca carried out a search with a computer program called Basic Local Alignment Search Tool (BLAST), a sequence alignment search tool that enables the comparison of a given sequence with all the virus sequences stored in the National Institutes of Health of the United States, see Endnote , and he explains step by step, what he did so that people can repeat the search for themselves and check the results. He found that THE SEQUENCES OF THE SO-CALLED SARS-COV-2 (Covid-19) are found naturally in humans and in numerous microbes, which means that the sequences that have been published as new coronaviruses do not belong, as claimed, to new viruses, i.e., the PCR test is a fraud. He states in a November 2020 report, that:

"The genetic sequences used in PCRs to detect suspected SARS-CoV-2 and to diagnose cases of illness and death attributed to Covid-19 are present in dozens of sequences of the human genome itself and in those of about a hundred microbes... CONCLUSIONS... THERE IS NO VALID TEST TO DETECT SARS-COV-2, neither antibody or antigen tests nor RT-PCR... And that means that ALL THE NUMBERS OF "CASES", "INFECTED", "SICK", "Asymptomatic" OR "DEAD DUE TO COVID-19" LACK A SCIENTIFIC BASE AND ALL "POSITIVES" ARE FALSE POSITIVES, something that should be communicated immediately to those affected and those responsible should be held accountable." – Jesus Garcia Blanca, Medical Researcher

Furthermore, Jesús García Blanca, found that "the conclusions are extremely serious: none of the seven "human coronaviruses" have actually been isolated and all the sequences of the primers of their respective PCRs as well as those of a large number of fragments of their supposed genomes are found in different areas of the human genome and in genomes of bacteria and archaea". He states:

"those who claimed to have done so (isolated SARS-CoV) were relying on "isolates" of previous "human coronaviruses", we began to do a thorough review of those claimed isolates.... In short, what had been done with the first coronaviruses, and with many other supposed viruses, is to cultivate supposedly infected tissues – any "cytopathic effect" was attributed to the presence of a virus only... according to Dr Stefan Lanka the so-called "cytopathic effect" is actually an effect caused by the conditions of the culture itself.... This had already been noticed by none other than Dr Barbara McClintock in

1983 during her Nobel Prize lecture, as can be seen at [HYPERLINK "https://www.nobelprize.org/uploads/2018/06/mcclintocklecture.pdf"](https://www.nobelprize.org/uploads/2018/06/mcclintocklecture.pdf) – Jesus Garcia Blanca, Medical Researcher

This startling information one could conclude that the entirety of mainstream virology is flawed and fraudulent, i.e., so-called “pathogenic coronaviruses causing disease” have never been isolated and, therefore, cannot be held responsible for any disease or illness. Even more incredible is that all tests, of whatever kind, to detect a coronavirus are based on ‘presumed components’ of these so-called viruses and, therefore, are completely invalid as “infection tests” or as “diagnostic tests” of a disease.

Legal case in Canada proves that Covid-19 does not exist

In Canada, the mainstream media was quick to censor and spin the outcome of a landmark legal case in which a Canadian court decided in favour of a citizen, Patrick King. Mr. King had been fined for being in a group of over ten people violating the Alberta Public Health Act, but he did not want to pay the fine, and therefore, he subpoenaed Deena Hinshaw, Chief Medical Officer of Health, asking for proof that the Covid-19 virus had been properly isolated. In effect, his legal challenge asked the government to prove that Covid-19 exists. It transpired that the government could not provide any proof that so-called Covid-19 had ever been isolated and Mr. King won his case, the fine was dropped and the court, therefore, decided there was no basis for the Covid-19 restrictions. The state then dropped the Covid-19 restrictions in light of this court decision, see Endnote 94.

US CDC even admitted that Covid-19 has never been isolated

“Since no quantified virus isolates of the 2019-nCoV are currently available...” – U.S. Centers for Disease Control CDC-006-00019, Revision: 05 CDC/DDID/NCIRD/ Division of Viral Diseases Effective: 07/13/20, see Endnote

The reality is there is no Covid-19 other than a digital theoretical abstraction made on a computer. The US CDC even admitted they made the virus via computer generation of 29,963 missing base pairs. One of the concocted narratives is that an engineered coronavirus virus, called Covid-19, leaked from a laboratory in Wuhan, China. We were then told that this Covid-19 virus then spread all over the world, infecting a large portion of the population and killing millions. It is noteworthy that the Wuhan story was also the scenario that was presented in the 2018 video made by The Institute for Disease Modeling, they called it ‘A Simulation For A Global Flu Pandemic.’

The fact that Covid-19 has been proven and even admitted to be a complete theoretical computer-generated abstraction shows that the Wuhan virus leak story is yet another a media-spun orchestrated lie.

Virology wrong turn, pathogenic viruses causing disease do not exist

Dr Stefan Lanka has published analysis, in which the flaws of mainstream virology are revealed and exposed; and Dr Claus Köhnlein has published a book challenging mainstream virology theory. Dr Köhnlein is author the book ‘Virus Mania’, which boldly challenges mainstream virology theory. He exposes the lack of evidence behind many of the claims regarding viruses being promoted by members of the medical establishment and the media; explains that the presence of a virus in a host does not mean that there is an infectious

disease; and that both AIDs and Covid-19 are 'test pandemics', in which there would be no pandemic if there was no test.

"The whole thing (AIDs) was a test pandemic... it went around the world like Covid-19 via testing, there are no new clinical diseases.... You cannot fight against viruses, you have to relax, you have an immune system and it works. And that was the big lie which Fauci spread in the world. Fauci is a well-known immunologist responsible for the ACT disaster in the 90's... and says this virus is so terrible humanity has no immune system against it and its complete nonsense – we have very good immune system... We are dying of cancer and heart disease, but not of infectious diseases... this virus is not a big problem for us... The presence of a virus in a host does not mean that it is responsible for a disease..." – Dr Claus Köhnlein

Dr Stefan Lanka exposed the virus misconception

It well-established that we at all times have millions of viruses in our body that do not cause disease and the research referenced in the previous chapter demonstrates the so-called human coronaviruses have never actually been isolated, and therefore cannot be validly linked to being the actual cause of people becoming ill. The startling question must then be posed "do viruses actually cause illness?" In addressing this question, Dr Stefan Lanka, author of the *Virus Misconception*'papers, has analyzed the methods of mainstream virology, the history behind these methods, and demonstrated and asserted that pathogenic viruses causing disease do NOT exist. This assertion flies in the face of the mainstream virology theories. Government health services and treatments to billions of people worldwide are based on these mainstream virology theories. Could it be that Dr Lanka, and doctors conducting similar research, have unearthed a major worldwide problem here? i.e., that government and corporate run health services worldwide are based on completely flawed theories about viruses. According to Dr Lanka:

"Contrary to what most people believe, pathogenic viruses do not exist.... All claims about viruses as pathogens are wrong and are based on easily recognisable, understandable and verifiable misinterpretations...Virologists primarily believe in the existence of viruses, because they add allegedly "infected" blood, saliva or other body fluids to the tissue and cell culture, and this, it must be stressed, after having withdrawn the nutrients from the respective cell culture and after having started poisoning it with toxic antibiotics. They believe that the cell culture is then killed by viruses. The key insight, however, is that the death of the tissue and cells takes place in the exact same manner when no "infected" genetic material is added at all. The virologists have apparently not noticed this fact! According to the most basic scientific logic and the rules of scientific conduct, control experiments should have been carried out... This, of course, to check whether it is not the method itself that yields or falsifies the results. These control experiments have never been carried out by the official "science" to this day... If they carried out the control experiments, they would realize that ALL short genetic sequences that are conceptually combined to form a viral genetic strand are in reality products of the human metabolism and do not come from a supposedly external virus." – Dr Stefan Lanka

Dr Lanka also exposes the flaws and errors in the so-called evidence provided for the existence of pathogenic viruses causing disease, he states:

"The fact is and remains that a virus has never been isolated according to the meaning

of the word isolation, and it has never been photographed and biochemically characterised as a whole unique structure. The electron micrographs of the alleged viruses, for example, really only show cellular particles from dying tissue and cells, and most photos show only a computer model (CGI – computer generated images). Because the involved parties BELIEVE that the dying tissue and cells transform themselves into viruses, their death is also regarded as propagation of the virus. The involved parties still believe this because the discoverer of this method was awarded the Nobel Prize and his papers remain the reference papers on ‘viruses’.” – Dr Stefan Lanka

Dr Lanka also explains the flawed basis upon which vaccines for viruses are derived and thus the health danger of these vaccines and emphasises that a real and complete virus causing disease does not appear anywhere in the entire scientific literature, and explains this is because the process to come to the description of a complete virus is not done by any scientific method, but by means of consensus and fabrication, in which the participants usually argue for years on what pieces of genetic code “belong” to the “virus” and what pieces don’t. He states: “In a nutshell: From short fragments, theoretically and according to a model of a viral DNA or RNA strand, a bigger piece is also theoretically fabricated, which in reality doesn’t exist...”.

Dr Lanka also describes that due to the lack of negative control experiments, all tests for “viruses” will result in a certain number of “positives”, depending on the sensitivity of the calibration of the testing equipment. The templates that are used in the tests that supposedly find “viruses” don’t come from “viruses”, but rather from the tissue, cells and foetal serum (blood without specific components) coming from animals, mainly monkeys and calves, that are used in the cell cultures from which the viruses are supposedly cultured.

“The virus tests do not find anything specific, certainly nothing “viral” and on account of this they are worthless. The consequences, however, as we have seen with Ebola, HIV, Influenza etc., are that people become paralyzed with fear and they often die due to the very dangerous treatment.” – Dr Stefan Lanka

In summary, the work of Dr Stefan Lanka, and other diligent scientists, indicates that the entirety of mainstream virology took a ‘wrong turn’, to put it kindly, back in 1952, and that pathogenic viruses causing disease simply do not exist, and all treatments of so-called harmful viruses are, therefore, incorrect treatments. This has either been an intentional profit-motivated deception from the start, or this ‘convenient mistake in virology theory’ has been allowed to continue as vast profits have been made for decades selling vaccines that immunize against these invisible non-existent virus enemies. Either that or literally everyone in the mainstream virology sector is completely incompetent. Whatever the case, it appears a large chunk of so-called modern medical science can now be thrown in the bin. Just like a magician who distracts with one hand while implementing his tricks with the other, by being fed the Wuhan virus story in the media, people have been led away from a deeper truth whilst the mega-corporates implement their lucrative tricks.

Relax and chill out there was no Covid virus. This book provides comprehensive evidence that the Covid pandemic was faked and planned with a purpose; the Covid-19 death numbers are fraudulent and the deaths were due to other causes; the fraudulent Covid-19 PCR test was used to create false Covid-19 case numbers; there is no evidence Covid-19 actually exist; and looks behind the curtain at the corporate, media, and financial players behind the hoax. To explain what is 'behind the curtain' of the Covid-19 hoax key historical events are detailed to provide a bigger picture of what it all means.
