OneAmerica is a large life insurance company in Indianapolis. The chief executive officer, Scott Davison just announced that judging by policy claims Americans of working age are suddenly dying in unprecedented numbers.

He reports that all life insurance companies are experiencing a 40% rise in the death rate. “Just to give you an idea of how bad that is, a three-sigma or a one-in-200-year catastrophe would be 10% increase over pre-pandemic. So 40% is just unheard of.” These are not Covid deaths. They are deaths from conditions caused by the vaccine.

Brian Tabor, president of the Indiana Hospital Association, reports a corresponding huge increase in hospital caseloads, not from Covid but from all sorts of things, things known to be risks of the vaccine.

In other words, the extraordinary increase in deaths and hospitalizations is associated with the Covid vaccines.

For the past year and perhaps longer I have reported the findings and predictions of top medical scientists who are not on Big Pharma or Fauci’s payrolls. The findings of these scientists have been suppressed by Fauci and the presstitutes. In a nutshell, the vaccine undermines the human immune system and turns it into a weapon against your own body. The result is heart attacks and the range of adverse effects now associated with the vaccine. An exasperated and angry Dr. Sucharit Bhakdi explains the process [here](#).

A number of experts have concluded that a large percentage of the vaccinated are going to experience disability and death. As Dr. Bhakdi explains, it doesn’t happen to everyone right away. Some experience death or disability immediately, some a month later, some a year afterwards, and some over a longer time.

As I understand it, the rate of death and disability of Covid vaccinated people will rise with

time. If the process is rapid, one consequence could be societal collapse. If the process is slow, then those populations most vaccinated would experience numerical decline.

Clearly, the vaccination drive was a huge mistake, or an intentional population control operation. But now that it is known that there is more danger in the vaccine than in the virus, all vaccination should be stopped.

Censorship of renowned medical experts must stop so that we can escape marketing propaganda and come to an understanding of the true situation.

Covid was not deadly except for untreated persons with comorbidities. The current variant, Omicron, appears to be milder than the common cold, and as the vaccine does not protect against either, its use is completely irresponsible. Humanity will be paying the cost of the mRNA vaccines for decades to come.
