[July 11, 2023](#) - Inverkip, UK - 25 year old NHS pediatric nurse Kristin Hamill was finishing her pediatric nursing studies (with COVID-19 mRNA Vaccine mandate). On June 28, 2022 she developed sepsis, her kidneys failed, she ended up on dialysis and needs a kidney transplant. In July 2023 she was diagnosed with heart failure - all COVID-19 mRNA Vaccine injuries & long term effects.

Kristin Hamill
June 28 · 🌐

Today marks the 1 year anniversary since the day I was rushed to a&e with sepsis & admitted to intensive care. Little did we know, it was just the beginning of what planned out to be the most awful year ahead of us. With the love and support from my family I defied all odds and survived ❤️ I am still fighting today as I currently wait on a kidney transplant whilst dialysing 3 times a week. I am beyond grateful for my loved ones for helping me battle through this last year and between them & an incredible team of nurses and doctors, I would not be alive today without 🙏 here's to continuing the fight 🍷

Kristin Hamill is with **Karen Rennie** and **Gary McKeown**.
July 11 at 12:46 PM · 🌐

Just wanted to give a wee update on what's been happening lately. Now that my brother is home from working away and has been told, I have recently been diagnosed with heart failure. Unfortunately, this is just another aspect that comes with the harsh treatment that is dialysis. We are thankful that it is not expected for this news to stop me from being transplanted as I have recently been accepted to be on the transplant list. My family and I are very grateful for all the support we've received over the last year. We are taking some time away in between dialysis sessions soon to have some special family time and get away from reality for a few days. With all the messages of love and comfort, it's hard to reply to everyone, but very grateful for your continuous support 🙏 Big love, K xx

Nashville Angela ✓
@angelanashtn

25 y.o. Kristin Hamill was 12 weeks away from qualifying as a paediatric nurse when she began having extreme abdominal pain. She had sepsis from a "mystery virus". She spent months in hospital, began dialysis, & now she's in heart failure.

Support Sofie during her fight against cancer!

Marcus Miller is organizing this fundraiser.

Dear friends and family,

We are writing to ask for your support for our daughter Sofie, who is currently fighting Lymphoma. Sofie was an outstanding nursing student until back pain forced her to drop out of school. Despite this setback, she has persevered and is now studying child development as an alternative career.

[July 31, 2023](#) - Calvary, TX - Danny DeGrande was a Nursing Student at TCU and 5 years in the US Marine Corps. He had chest pain and died suddenly on Oct. 31, 2022.

In Memory of Danny DeGrande

Brittany Karl is organizing this fundraiser.

Danny passed away on July 31, 2023 due to a Medical Emergency. He is a Senior Nursing Major coming to TCU after 5 years of serving in the United States Marine Corps as an Aviation Structural Mechanic. He chose to continue his military service as a Reserve Soldier while pursuing his college degree. Danny is expected to graduate this December.

He was described as a true servant-leader. The nursing cohort described him as sincere and earnest, a hard worker willing to help others in countless ways. He used his talents to create and lead the student team in developing a sensory path for pre-K, Kinder, and special education students at Morningside Elementary School as part of a Public Health Clinical project.

Calvary, TX

Danny Nick DeGrande

Chelsea Garcia is organizing this fundraiser on behalf of Tara Hamilton.

On October 31, 2022 the unthinkable happened. Danny DeGrande was in the middle of a clinical for nursing school and started having chest pains. Emergency services were called and he was rushed to a hospital, but unfortunately there was nothing they could do for him...

Danny studied nursing at TCU here in Fort Worth, and was set to graduate in December of this year. He was also a Staff Sergeant in the United States Marine Corp, but most importantly he was a husband. His wife Hannah was his whole world, as he was hers. This was completely unexpected and shocking news for us all but especially to Hannah. We all love them both so much and want to help any way that we can.

[June 22, 2023](#) – Marietta, GA – 18 year old Kylie Yeager died after being diagnosed with Leukemia in April 2023. She was interested in pediatric nursing and had attended a Wellstar Nursing Camp and volunteered at special needs camps in the summer. She is presumed COVID-19 mRNA Vaccinated.

In Memory of Kylie

Kim Borna is organizing this fundraiser on behalf of Eric Yeager.

Kim Borna →

Organizer
Marietta, GA

It is with great sadness we announce the passing of Kylie Yeager, 18, of Marietta, GA on June 22, 2023, surrounded by her loving family and friends. Visitation will be held from

Upon entering high school, Kylie continued to excel academically, entering the International Baccalaureate Career Pathway. Kylie was ready to start the foundation to becoming a pediatric nurse. In high school Kylie joined the Marietta Color Guard and served as Captain of the Flag Division for two years, as well as being a member and Captain of the Winter Guard Competition team. She was a member of the Marietta High School Mock Trial team for all four years, winning the Best Witness Award in her Senior year. Outside of school Kylie continued pursuing her love for viola playing in the Georgia Youth Symphony for five years as well as continuing to dance at the Georgia Dance Conservatory. She was also a member of the Cobb Chamber Georgia Youth Leadership Class of 2022. Despite her diagnosis with Leukemia in April, Kylie graduated from Marietta High School with Honors, receiving an International Baccalaureate Career Pathway, Dual Enrollment and Fine Arts Diploma. Kylie was an extraordinary student.

In addition to her very busy high school career, Kylie loved to serve others, especially children. She volunteered at McKenna Farms special needs camps in the Summer, was a WellStar Volunteer, attended the first WellStar Nursing Camp, help teach at Color Guard Camp and volunteered her musical talent wherever needed and did everything she could to contribute to our Marietta Community.

She was opinionated and passionate. Following her mom's political interest, she often got into social media debates about our local and federal politicians and their actions. Kylie loved to travel. Last September she was able to go on her dream vacation to Paris with Mom, Dad, and her brothers. In addition, she traveled to Alaska, Hawaii, and many islands in the Caribbean. Kylie was passionate about others, the world's political situation, and life itself. Kylie will be missed by our entire community, and those who knew her are richer

June 22, 2023 – Provo, UT – 27 year old Keyon Snow, a nursing student at Joyce University, died suddenly in his sleep.

Becca McKell Snow
2d · 🌐

This is [Katie McKell Enos](#), Becca's sister, it breaks all of our hearts to have to make this announcement.

My sweet sister lost the love of her life, her very best friend ❤️ Our beloved Kenyon Clinton Snow unexpectedly passed away on Thursday June 22, 2023. Kenyon was a great husband, brother, son, and friend to those around him. He leaves behind is wife, Becca McKell Snow who loved him immensely. We are all devastated by Kenyon's sudden loss. We want to give Kenyon the memorial he deserves, to honor his memory and wonderful life and say our last goodbyes.

We are currently asking for donations to help cover the cost of Kenyon's funeral, medical bills, and help alleviate Becca's financial burden during this incredibly hard time. Anything, no matter how big or small, will help. Thank you ❤️

June 24 at 12:30 PM · 🌐

Our hearts are broken with the loss of our sweet grandson Kenyon Clinton Snow. His life was cut way too short. This is one of my favorite pictures of Clint and his little family. Kenyon and Clint were buddies from the very beginning of Kenyon's existence here in this life until the very end. [The two of them had traveled to Denver to enjoy a little father-son activity and watch a baseball game at the Rockies Stadium.](#) They arrived on Wednesday, June 21st, and on the morning of June 22nd, he was gone. So sudden and such a shock to us all. We feel so blessed to have had this sweet, wonderful spirit with us for the 27 years he was here. He leaves a sweet little wife who has been his brick through everything for seven years of marriage. We love her and

[June 20, 2023](#) – Las Vegas, NV – Crystal Martinez is a nursing student at Nevada State College. She began having neurological deficits and was diagnosed with a strange epidural hematoma of her spinal cord.

Donate to help Crystal's spinal rehabilitation

Team fundraiser

Nayeli Martinez and John McInaney are organizing this fundraiser.

Nayeli Martinez

Organizer

Las Vegas, NV

Hi, my name is Nayeli and I'm helping raise funds for my sister Crystal. On May 21, 2023 my sister began having neuro deficits and was diagnosed with a traumatic epidural hematoma of her spinal cord. She had emergency surgery performed that night in order to relieve the swelling on her spinal cord in hopes of reversing her loss of motor function and sensation. She has slowly been improving but still has a long road of recovery ahead. She is still unable to use her hands and arms and cannot stand without assistance. She is still currently in the trauma ICU. Once she is discharged she is still going to need spinal rehabilitation which may not be covered by insurance. **She is currently a nursing student at Nevada State College. She is going to require additional spinal cord rehab in order for her to return to normal and be able to finish her nursing degree.**

June 20th, 2023 by Nayeli Martinez, Organizer

Crystal has made a significant amount of recovery in her inpatient rehab and we are bringing her home tomorrow! She's slowly starting to walk with a walker for short

[June 14, 2023](#) - Metairie, LA - 20 year old Bryan Ibanez is a nursing student at Missouri State University. He was diagnosed with Stage 2 Testicular Cancer in Sep. 2022 which has metastasized to the lungs and is now Stage 4.

Bryan's Fight Against Testicular Cancer

Leslie Ibanez is organizing this fundraiser.

Dear Reader, I'm Leslie Ibáñez and this fundraiser is to support who I refer to as my sweet baby brother. Bryan Ibáñez is the goofball of our family and has always been a positive light for himself and others. His loving soul and genuine spirit is one my entire family cherishes.

Bryan spent his high school years working at a local nursing home as a dedicated CNA. This time spent giving to others in a healthcare atmosphere sparked his interest and desire to become a nurse. In 2020, after graduating high school, Bryan enrolled in Missouri State University to pursue his nursing degree. Shortly after starting his college career, Bryan began experiencing discomfort in everyday tasks. Having a busy and active lifestyle of a college freshman, Bryan thought he could work through his pain and assumed it was nothing serious.

Unfortunately, Bryans pain did not cease and escalated to a point where he finally chose to visit a doctor. Upon discovery of a tumor, Bryan was diagnosed with Stage II Testicular Cancer on September 2nd, 2022 at only 20 years old. With a Stage II Diagnosis, Bryans tumor had been manifesting for what doctors predicated well over a year. In attempt to avoid metastasis, immediate surgery called a radical orchiectomy was required and conducted shortly after diagnosis. Following surgery and testing, Lymphovascular Invasion (LVI) was still present in his body. Although removal surgery was completed, Bryan's cancer cells were still present in his tests leaving his body susceptible to a potential reoccurrence. However, with a treatment plan set into place Bryan & his doctors were left confident for an encouraging recovery even with the LVI still apparent in his blood stream.

Bryan's initial surgery was not fully covered by insurance, and he was forced to pay over 8k in medical bills out of pocket. As a college student living on server's wages, paying his own bills and supporting himself, he was forced to abandon school to make ends meet. Bryan is still trying to pay off those bills to this day.

Following his strict treatment plan, Bryan visited the doctor as needed and within the parameters of his abilities. Blood tests over the next few months resulted in promising outcomes, but unfortunately his 1st biannual CT scan did not reflect such positivity.

On May 1st, 2023, CT Scan results concluded that Bryan's cancer had metastasized.

Alarmingly—not one, but two tumors had developed; this time in his lungs. His doctors recommended immediate chemotherapy treatment. Bryan's chemotherapy treatment has

June 10, 2023 - Knoxville, TN - 18 year old Caileigh O'Donohue Duggan, a nursing student at University of Tennessee nursing program died suddenly on June 10, 2023. She died in her sleep.

	<p>Fontbonne Hall Academy graduate Caileigh O'Donohue Duggan died June 10 at age 18.</p> <p>According to the school's Facebook page, Duggan "passed away suddenly but quietly this weekend."</p> <p>The Breezy Point resident graduated from the Shore Road school last year and also graduated from Visitation Academy in 2018.</p> <p>She had just finished her first year in the University of Tennessee's nursing program.</p> <p>"She loved her dream school and dove headfirst into all the activities associated with being part of her Delta Gamma sorority family," her obituary says. "Her goal was to become a pediatric oncology nurse and her departure is a huge loss to her expected future patients and families for whom she would have given her ultra special love and empathy."</p>	<p>June 15, 2023 Orange Bows in Bay Ridge for Caileigh Duggan</p>  <p>Caileigh Duggan peacefully died in her sleep, from an undiagnosed heart condition on Saturday on June 10th - she was only 18 years old.</p>

May 22, 2023 - Chandler, AZ - 21 year old Valerie Calderone was a college student studying to become a nurse when she was diagnosed with Hodgkin Lymphoma.

Cancer Journey

Valerie Calderone is organizing this fundraiser.

Hello my name is Valerie Calderone, I'm 21 years old. Before April of this year my life was completely normal, I was a full time employee and a full time student. I was going to college to become a nurse. Beginning of April, I discovered a lump on my neck. I panicked and made a doctors appointment for the same day, got an ultrasound done and waited. Those results came back and they sent me to do a CT scan, after that they wanted a biopsy. On May 4th 2023 I was diagnosed with cancer Lymphoma Hodgkin's.

May 21, 2023 - UK - Winifred Chioma George, a Nigerian Nursing Student who was only 16 weeks away from completing her nursing degree at the University of Hertfordshire died suddenly on May 21, 2023.

GIVE WINNIFRED A BEFITTING BURIAL

OLA AYENI is organizing this fundraiser on behalf of SOALA GEORGE.

Remembering Winnifred Chioma George: Honoring the Life of a Loving Friend, Sister, Daughter, Wife, and Mother. Let's come together to support Winnifred's family during this difficult time as we raise funds for her dignified burial. As a dedicated final year nursing student of the University of Hertfordshire, Winnifred's passion for caring touched many lives. Now it's our turn to show our appreciation and give her the farewell she deserves. Every contribution brings us closer to our goal of £10000. Join us in celebrating Winnifred's remarkable life and helping her family find solace in their time of grief. Your support means the world to us. Thank you for your kindness and generosity.

Habdulake... @ · May 26 ...
One of my biggest fears about migrating is the possibility of not seeing some friends & family ever again. Sadly, **Winifred Chioma George, a Nigerian Nursing Student** who was only 16 weeks away from completing her nursing degree at the University of Hertfordshire died May 21 2023 💔

Habdulakeem Bhadm... @Mrbhadoosky ...
A Gofundme page has been set up to help offset the burial and all associated costs. Winifred Chioma George is survived by her parents, siblings, husband and a 4-year-old son. Kindly donate and help Retweet for wider reach 🙏 God bless you all.

April 26, 2023 – Southport, UK – 31 year old nursing student Ashleigh De Andrade returned from holiday, felt unwell, had a brain bleed, several seizures & died suddenly.

A 'beautiful' mum-of-three who had 'big plans' for her future including getting married tragically died suddenly after waking up from a nap 'sweating'.

Ashleigh De-Andrade, 31, had started feeling unwell after returning home from a break away with her family at a Haven holiday park. She had gone for a nap but woke up hours later with a temperature. She was rushed to hospital where **she suffered several seizures and was put into an induced coma before passing away on April 26, aged just 31.**

Just days before, everything was normal. The mum-of-three had taken smiling holiday snaps with her fiancé Jordan Nimmo and three sons Jacob, 12, Noah, 10, and Lewi, three and was hoping to get married next year.

READ MORE: [Join the FREE Manchester Evening News WhatsApp community](#)

It was later confirmed that Ashleigh, who was in her second year studying to become a mental health nurse, had suffered an unexpected bleed on the brain.

Speaking to the *Manchester Evening News*, her close friend Lauren Guest, 25, said Ashleigh was a 'beautiful person' with 'big plans for her future', including getting married to fiancé Jordan, her partner of 17 years, and finally qualifying as a mental health nurse.

"There aren't enough words to describe her as a person. She was such a beautiful person, inside and out, who would do anything for anybody," she said.

Lauren said **Ashleigh is believed to have suffered from a bleed on the brain and meningitis.** Lauren and friends who met Ashleigh at Edge Hill University, where she was in her second year studying to become a mental health nurse, have set up a [Gofundme page](#) to support partner Jordan and her children.

April 20, 2023 – University of Missouri – 19 year old Nursing student Kennedy Grace Carter died suddenly on April 20, 2023. She was found dead in her dorm room bed.

[April 16, 2023](#) - Mesa, AZ - Katherine Wilson is a nursing student who was diagnosed with a brain/orbital tumor in Feb. 2023 and had surgery in April.

Assistance needed for a brain tumor surgery

Katherine Wilson is organizing this fundraiser.

Katherine Wilson

Organizer
Mesa, AZ

My name is Katherine Wilson. I was diagnosed with an orbital/brain tumor 2/2023. I'm humbling my self to ask for assistance. My surgery is scheduled 4/11/2023. I have insurance, but as we all know it can still be very costly on a patients end. I still have rent and other bills to pay. Not including other diagnostic testing and appointments I owe for. I will be treated by Dr. Andrew Little with Barrows Neurology/Dignity Health/St Joseph's in Phoenix, Az.

I am a student for healthcare, but I'm unable to finish school until I get this surgery. Healthcare and the ICU is my passion. I hope to return to school and work soon after recovering so I can continue helping and saving lives as well. I want to tell my current team at GCFM, thank you so much and I can't wait to return!❤️

Thank you so very, very much to everyone for such an overwhelming support of messages and calls! My former co-workers, friends, [MY NURSING SCHOOL COHORT](#) (I love and miss you guys/gals!), family, and so many more. This means so much to me❤️.

April 16th, 2023 by Katherine Wilson, Organizer

Day 6 already and doing extremely well:) I feel good besides the expected swelling, aches, pain, discomfort post surgery. Otherwise, not having to take as much pain meds and I'm up and walking and moving around everyday with rest in between. So excited what the near future may bring being free of this tumor. I already feel a huge difference and I'm still recovering!

My Take...

Nursing students in United States and Canada were mandated COVID-19 mRNA Vaccines to be able to continue their studies.

mRNA Vaccine mandates forced on University and College students were one of the greatest crimes perpetrated during the COVID-19 pandemic.

All University and College leaders who presided over COVID-19 Vaccine mandates must serve life in prison sentences without possibility of parole.

Now that COVID-19 mRNA Vaccine injuries are out in the mainstream and can no longer be covered-up, it is crucial for nursing students and their families to carefully evaluate any health problems that occurred after COVID-19 Vaccination.

Kristin Hamill's immune system would have been damaged by COVID-19 Vaccines, putting her at high risk of sepsis, which is now a common condition among the COVID-19 Vaccinated. Her kidneys and heart may have also been damaged by spike protein.

Danny DeGrande would have had COVID-19 vaccine cardiac injury, and those who died in their sleep like Keyon Snow, Caileigh Duggan, Kennedy Grace Carter may also have had COVID-19 Vaccine cardiac injury.

Also important to note are blood clots, DVTs, pulmonary emboli, as well as blood vessel injuries such as aneurysms and hemorrhagic strokes.

Any Cancer diagnosis after COVID-19 Vaccination must be considered a Turbo Cancer until proven otherwise and carefully evaluated for unusual behavior.

The time for lawsuits against Pfizer, Moderna, AstraZeneca and Johnson & Johnson is now.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. –Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom

loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
