

Obama's Farewell Address: Touting the Legacy, Exposing the Truth. Non Stop Wars, A Costly Six Trillion Dollar Legacy

President Barrack Hussein Obama delivered his [farewell address](#) in Chicago last Tuesday night.

Honesty is not an Obama Virtue

Obama wasted no time uttering his [trademark lies](#). In his third sentence he stated that his "conversations" with the American people "are what have kept me honest." Honest? Are you kidding? This guy's the most deceitful pathological lying president in US history. Two of his biggest whoppers out of the gate numbering in the [thousands](#) will go down in infamy:

After the damage inflicted on the world by the Bush-Cheney regime, Obama came to power preying on America's desperate need for [change and hope](#). But he only delivered more damage to our nation and world, faithfully carrying out the very [same malevolent policies](#) both foreign and domestic as his war criminal predecessors. And the transformational change he promised turned into a nightmare gone from bad to worse that we'll be stuck with for years to come. That a Democrat or a Republican occupying the White House doesn't matter points to the same actual power controlling the figurehead in Washington.

After two [stolen terms](#) in office by the Bush-Cheney duo, and nonstop war in both Iraq and Afghanistan, Obama campaigned on a [promise to end](#) those senseless conflicts but instead only prolonged them. At the expense of American taxpayers, Obama continued waging those costly wars to the tune of [\\$6 trillion](#) (or more) and [near 14,000](#) American lives (military and civilian), most of which were lost on his watch. Obama ensured that the neocons' "endless war on terror," now over 15 years and counting, remain endless. With

Afghanistan going down in American history as our nation's [longest running war](#), Obama's legacy in both Iraq and Afghanistan as well as Syria and Libya, and indirectly in Yemen, are the Obama regime's "ENDLESS WAR OF TERROR." On top of that despicable fact, President Obama is the first two term president in US history to have [America at war](#) throughout his entire presidency. The peace candidate turned out to be the most [warring president](#) of them all.

As a case in point of his legacy, earlier this week on the same day of Obama's speech, three bombs blasted three separate cities in Afghanistan [killing 50](#) and wounding 100 Afghan citizens. All these bloodbaths in the Middle East and North Africa stand as a glaring and disastrous outcome to the US façade of "bringing democracy" and "[nation-building](#)" to the world – [4 million](#) dead Muslims later. In actuality the ruling elite's systematic plan is to misuse the US Empire and NATO to militarize and destabilize the entire planet, then misuse millions of war refugees to destroy Western nations by inciting religious, race and class wars utilizing its always effective [divide and conquer](#) strategy, all for the nefarious purpose of creating a one world government tyranny. And as the destroyer of America, the [CIA bred](#) and groomed puppet, followed his marching orders to the T.

After Bush presidential [candidate Obama](#) boldly promised to be the most transparent and open president in US history, but then Pinocchio nose just kept telling whopper after whopper for the next eight years. Obama has a track record of being the most dishonest, [secretive](#), vindictive, least open and [least transparent](#) president in US history. He's been at war with a free press and indicted more journalists and [whistleblowers](#) than any other president.

Obama's "Yes We Can" Chicago Roots

In the next paragraph of Obama's farewell speech, he begins patting himself on the back, nostalgically using his Chicago days in his early twenties as a supposed community organizer working for "positive" change. Obama must be referring to learning to be a future nation destroyer still under the tutelage of a close friend of his CIA white grandpa who happened to be Obama's secret real father – card carrying Communist [Frank Marshall Davis](#), in addition to confirmed terrorist mentor [Bill Ayers](#) who once proclaimed that [25 million](#) Americans may need to be exterminated in concentration camps for refusing to go along with the radical left's reprogramming agenda.

Then in the same breath Obama goes on to claim that his youthful belief in grassroots level change still resides in "the beating heart of our American ideal – our bold experiment in self-government." What planet is this guy living on? The 'self-government' he refers to, the one that's supposed to be "[of the people](#), by the people and for the people" simply doesn't exist anymore, killed decades ago by oligarchic [special interest bribes](#) that buy and control elected spineless puppet politicians like himself to faithfully do their dirty bidding, waging violent conflicts around the world while invasively at home unconstitutionally spying on citizens to deny their liberties and freedoms, of course all justified under the pretense of national security.

Obama says when trust in government is low (and it is, presently only [19%](#) of Americans trust their government):

We should reduce the corrosive influence of money in our politics, and insist on the principles of transparency and ethics in public service.

Yet it was Barack's Supreme Court that gave license for the wealthiest to buy off politicians through unlimited [legal bribery](#). Obama did not lift a finger to oppose it. Again hypocrisy runneth over when the [least transparent](#) and perhaps [most corrupt](#) and unethical president in US history calls for virtues he so sorely lacks.

Orwellian Doublespeak Obama-style

And then [Obama](#) has the audacity to actually quote our Founding Fathers' "conviction that we are all created equal, endowed by our Creator with certain unalienable rights, among them life, liberty, and the pursuit of happiness." Though these are sentimentally empowering ideals to strive for, the bottom line is they've never been practiced in real life. The majority of the creators of our Bill of Rights and Constitution owned slaves and [9 of our first 11](#) presidents were slave-owners, engaged in a policy of genocide against the First Americans, and to a man failed to extend these "certain inalienable rights" even to their own wives. But then the arrogant hubris and over-the-top hypocrisy that's come to infamously characterize the Obama presidency wouldn't have it any other way, because the man's a fraud, an imposter who right to the end in his farewell address repeats lie after lie in his best polished [Orwellian doublespeak](#).

"Embrace all, and not just some"

Obama then goes into a wannabe "Grapes of Wrath" diatribe about patriots choosing "[republic over tyranny](#)," again what republic? Tyrannical fascism in the Obama totalitarian [dictatorship](#) reigns supreme now. He cites America's "call for citizenship," that pulls "immigrants and refugees across the Rio Grande." It was Obama's and DHS' [stand down order](#) to maintain eight straight years of unprotected wide open border policy, not unlike his manufactured wars that led directly to the flooding of [millions of Muslim](#) refugees by manufactured design to destroy both Europe and America using the lie of "humanitarian [multiculturalism](#)" intended to create strife, chaos and tension [leading to race wars](#), religious wars, class wars, civil wars.

Later in the [speech](#) the departing lame duck refers to America's "founding creed to embrace all, and not just some." This of course is his feeble attempt to justify his open border policy that welcomes a constant flow of [unvetted refugees](#) from his Middle Eastern and North African wars as well as [drug cartel gangs](#) from south of the border. Recall it was the Obama administration's [Fast and Furious](#) gun running operation and attempted cover-up that bestowed preferential treatment to the Sinaloa cartel in exchange for intel to eliminate Sinaloa competition. International drug smuggling under Obama's watch has been [a boom](#).

The Obama speech threw in that same "call for citizenship" "powers workers to organize." Under his watch, the rights of "workers to organize" has taken a hit. In 1983 American workers belonging to labor unions stood at 20.1%. In 2015 the percentage has nearly been cut in half at just [11.1%](#). Since 1983 when 42 of 50 states maintained at least 10% of its private sector workforce as union members, five years ago that number dropped to just 8 states. Whatever's left now of labor unions and their bargaining power to protect workers has largely gone the same route of every other American institution, becoming corrosively corrupt, [co-opted](#) and no longer truly representing the best interests of America's working population. Of course similarly, pension plans have virtually dried up across the nation, with the exception being those generous lifetime retirement salaries for former presidents and Congress members.

Obama's American Exceptionalism

As the historical name dropper darts from the Rio Grande to Iwo Jima to Afghanistan to Selma and Stonewall in one breath, in the next [he states](#):

So that's what we mean when we say America is exceptional... and make life better for those who follow.

It wouldn't be an Obama speech without his spouting off on [America's exceptionalism](#) that automatically grants US Empire the right to remain the endgame's [sole world superpower](#) hegemon even if it wipes out the human race. The fact that Obama has dutifully followed the neocons' homicidal tradition to an OCD degree, embarking on a renewed nuclear arms race costing up to [\\$1 trillion](#) while encircling two fully emerged world powers Russia and China, vilifying them both, is pure madness!

The choice to consistently and willfully push America into a forced West versus East confrontation in his rush to [World War III](#), [Obama's exceptionalism](#) has been his calling card trademark to justify his every aggressive, war-provoking move calculatingly misplayed, promoting his masters' agenda to [destabilize](#) the entire world through increasing conflict, war and economic instability and destruction. Throughout Obama's [race to WWII](#), his co-opted mainstream media is nothing less than a deployed front that's faithfully protected him and Hillary as their [propaganda ministry](#) intended to brainwash and con the American public into acquiescence, acceptance and complicit submission. Non-Americans must think that Obama's America is exceptionally grandiose in its hyper-inflated self-importance, and perhaps only [exceptional](#) in its arrogance and destructive tendencies to tamper, interfere and ruthlessly attempt to control the rest of the world.

Our Bright Future

Obama touts a record of "making life better for those who follow." Again, he's nowhere near living in the same galaxy as the rest of us who have sadly witnessed under his watch [America](#) and the world in a state of freefall [chaos](#) and destruction. Under his watch college students with their record high [loan debts](#) now over \$1.2 trillion have become lifetime indentured servants, with America's job security nowhere in sight for decades now, after graduation fighting over job scraps competing for [minimum waged](#) part-time dead-end employment. Under Obama's watch for the first time in American history, the current coming of age generation can no longer expect to [live better](#) or [longer](#) than the preceding generation, in either holding down [jobs](#) (lost to an age of AI and [robotic automation](#)), or actualizing the American dream of owning their [own homes](#), or even enjoying life as an independent adult. For the first time in [130 years](#), more adult Americans aged 18-34 are currently living with their [parents](#) than living with a spouse or partner. [40%](#) of Americans under 30 live with their parents. [Upward mobility](#) and the [American dream](#) are long since dead now. Obama's lasting legacy is the certainty of an extreme and [bleak future](#) for America that he destroyed while dutifully complying with his puppet masters' marching orders.

My Wonderful Legacy in a Nutshell

Obama then goes on to actually claim his so called [victories](#):

If I had told you eight years ago that America would reverse a great recession, reboot our auto industry, and unleash the longest stretch of job creation in our history...if I had told you that we would open up a new chapter with the Cuban people, shut down Iran's nuclear weapons program without firing a shot, and take out the mastermind of 9/11...if I had told you that we would win marriage equality, and secure the right to health insurance for another 20 million of our fellow citizens – you might have said our sights were set a little too high.

And later claims:

After all, we remain the wealthiest, most powerful, and most respected nation on Earth.

Again, this man is totally delusional if he believes “a great recession” has been reversed and that “the economy is growing again.” Additionally, Obama makes the bodacious statement that today “wages, incomes, home values, and retirement accounts are rising again; poverty is falling again.” When cost of living and inflation are accounted for, wages have either [fallen](#) or remained [stagnant](#) for decades now. Yet Obama stated:

Last year, incomes rose for all races, all age groups, for men and for women.

Reality shows that nothing could be further from the truth. Perched from his ivory tower White House, when not teeing up on multimillion dollar tax paid [vacations](#) (totaling near \$100 million), Obama's “facts” just never seem to add up.

For instance, in 2007 the year before Obama was elected, Pew Research found that [50% of Americans](#) rated the US economy as good. Last August after near eight years in office, only 44% of Americans shared that same optimistic outlook. During Obama's first five years as president, Census Bureau data showed that fulltime workers' salaries for men dropped by nearly 3% and women by 1%. Wages for black men sank even lower by near 6% and over 3% for black women. A little over two years ago government income reports demonstrated that over the last quarter century the US household median income remained stagnated and unchanged at just under [\\$52,000](#). Yet the value of the dollar drastically shrank. But from 2000 to 2014, nearly half with Obama as president, the average American median income dropped significantly [by 8%](#).

The so called recession economy has progressively slid from the 2008-09 housing market crisis (with the banking industry's grotesque tax paid bailout after which [Obama protected](#) the banksters from prosecution for fraud and no jail time) to an all-out major economic depression (that Obama and his minions still deny) that will inevitably and tragically surpass the 1930's Great Depression in human suffering. [Obama](#) and the Feds managed to kick the can down the road just long enough for [Trump](#) to step into the Oval Office. Likewise, the entire [global economy](#) is anemic and faltering, including even [China's](#).

Obama [states](#) that “the unemployment rate is near a 10-year low.”

The truth is Obama's job numbers are methodically crunched and [cooked](#) every month to deceive the public into not realizing that up to [40%](#) of America's working age population is not fulltime employed. If those working part time hours but desiring fulltime jobs along with those whose unemployment compensation has run out, and those chronically unemployed

who've become so discouraged they've given up, that percentage of Americans would be nearing half our population.

Virtually every honest economist has for months been warning that we are teetering closer to the edge of a complete economic collapse. Obama's assertion that we're in "the longest stretch of job creation in our history" is pure fantasy. Since the recession virtually the only jobs Obama created are [part time](#), seasonal or temporary, minimum wage positions that no one could actually live on. The boastful lie that Obama created 15 million new jobs is just the opposite from the truth. First, Obama artificially counts part-time employment in his artificial job creation boost. Secondly, his actual number of jobs created (including part-time) in his time in office amounts to 5.6 million. However, with his open border policy, the number of entrants into the US has soared to over 20 million, so his actual record has arguably [added 14.4](#) million to the unemployed ranks.

During the Reagan years America went from the largest creditor nation on earth to the [largest debtor](#) nation on earth, digging its deepest hole under Obama who has [nearly doubled](#) the national debt from \$10 trillion to near \$20. During that same post-WWII period, the US has gone from owning half the world's GDP (Gross Domestic Product as the indicator tool measuring nations' purchasing power parity) to now just 15%. Three years ago [China overtook](#) the US as the number one economic superpower in the world. As of last year China now has more [billionaires](#) than America - 594 to 535. And the margin is widening.

Obama mentions that currently "the stock market shatters records." That has nothing to do with Obama and everything to do with [Trump](#). So for Obama to try and take a bow due to Trump's honeymoon post-election swoon is a case of intentionally distorting reality. But then deception is Obama's signature. Also, in a troubled, unstable economy, the stock market fluctuates widely from one day to the next. Record highs one day are as apt to be followed the next day with record lows. And market volatility ain't a good thing.

Returning to Obama's lie that "poverty is falling again," unfortunately the pathological liar is oh so wrong. Poverty in America has risen from 11% in 2000 up to [15%](#) of Americans in 2014. As mentioned earlier, blacks under Obama are suffering the most with 26.2% of African Americans living in poverty. But near 1 in 4 (23.6%) Hispanic Americans are also poverty-stricken. 10.1% of whites fall under the poverty level. The South and [California](#) are the worst hit areas although the largest drops in [middle class](#) were in West Virginia, Michigan and Indiana. Just to make ends meet, more Americans are working two or three jobs than ever before.

During the Obama years the poverty rates have been climbing beyond America's inner cities to its suburbs as well. Add the [decimated](#), fast disappearing US middle class that as of 2015 is no longer the vibrant [majority](#) that has always characterized America, and the rich-poor disparity gap is soaring to unprecedented levels. Income inequality lies at the heart of the problem. As productivity increased, [wages didn't](#) for the lower and middle classes. When the [richest 20](#) Americans own more than the poorest half of all Americans, you know something is dreadfully wrong. Three years ago [income inequality](#) in this country reached an all-time high not seen since the eve of the Great Depression in 1928. But now the gap between the rich and the poor in America is at its [all-time worst](#) disparity ever, and the [highest](#) in the developed world. Despite what Obama claims, today's economy is in dire straits. And as a result, Americans either have no money to spend or worried over their uncertain future, are holding onto what little they have. An incredible [76 %](#) of Americans live

from paycheck to paycheck, just one away from homelessness.

Hence, all across America [shopping malls](#) are becoming extinct. Their demise is accelerated by record number of closures of major retail outlet stores. [14 of the biggest](#) – Target, Kmart, Macys, Office Depot and Sears among them, are all closing at least 100 of their stores.

Eleven other industrialized nations have more startup businesses per capita than America as [entrepreneurship](#) has fallen. According to the Annual Prosperity Index, the US dropped [out of the top ten](#) most prosperous nations for the first time in 2015. Also as of 2015, over five years after the recession, small businesses are still hurting as [only 21%](#) have recovered. Again 2015 was a very pivotal year for the US as it was the year that China eclipsed America as the number one [economic power](#) on earth according to IMF's Gross Domestic Product (GDP) computations. The GDP margin between China and the US is [.6](#) of a percentage point ahead and growing.

So you can see that clearly Obama is wrong, as he leaves office in 2017, the United States of America is no longer the wealthiest nation on earth. And the primary reason is that President Obama dutifully followed his rulers' orders, padding the coffers of Wall Street and the [military industrial](#) security prison complex rather than investing in his own nation's sorely needed infrastructure and the well-being of his own fellow citizens. The US military has been and is still misused as the elite's corporate body guard to rape and pillage the earth, gobbling up and stealing precious energy, mineral and other [natural resources](#). And the [affluence](#) of North America and Western Europe was viewed an obstacle that had to be eliminated prior to implementing a [one world government](#).

Obamacare Plug

In his farewell speech Obama dared to sneak in a plug for his abominable Obamacare, at the end of his braggadocio repeating the boldface lie that [20 million](#) more Americans are benefiting from his "right to health insurance," the same right that gives you no right to opt for no insurance without incurring increasing fines for refusing to buy his corrupt brand of snake oil that has rates obscenely skyrocketing [by 24%](#) this year on average. Obama's fuzzy math must be referring to those same 20 million new immigrants he allowed into the country complete with [insurance](#) entitlement. In any event, even Obama's main claim to fame – that the least number of Americans in history are uninsured – is bound to start rising again with his now [Unaffordable](#) Care Act. Yet despite this reality, Obama insists that "health care costs are rising at the slowest rate in fifty years." The man's delusional. His boldface lie glosses over the truth that in August last year alone healthcare costs [rose higher](#) than at any time prior to 1984.

More on Obama's True Legacy

Over two years ago it was noted that the US leads the entire world in any number of dubious ways. And we know that in two years things have only grown from bad to worse. As the nation that grants the most outrageous and unfair tax breaks to the rich, the US also leads the globe in tax evasion and corporate welfare. And with multibillionaire Trump coming to power assembling the [wealthiest administration](#) in US history, that statistic will not be changing any time soon. While good for the wealthiest class, America leads the planet in [declining public services](#), child poverty and homelessness. While the rich get richer and the poor poorer, America's number one in citizens in prison, [supplying 25%](#) of the world's inmates containing only 5% of the world population. We're also number one in police

brutality, and police murdering unarmed citizens ([70 times](#) the rate of other developed nations), sadly [three times](#) worse if you're African American than white and two times more likely than if Hispanic.

Obama is correct in saying the US is the most powerful nation on earth if measured strictly in terms of human genocide and global destruction. With US Empire's nonstop record of aggression and slaughter committed against rest of the world, killing [30 million](#) other humans since World War II alone, the United States is by far the world's biggest murderer as well. If US exceptionalism is measured in terms of number of invaded smaller countries (37), murders of foreign leaders ([several dozen](#)), 59 government [coups](#) since WWII, engaging in economic warfare by enforcement of trade embargoes ([Yemen](#), [Venezuela](#), [North Korea](#), [Cuba](#)), as well as imposing various economic sanctions ([Russia](#), North Korea, [Iran](#), [Syria](#), [Sudan](#)), and countless tampering in others' elections, all with total impunity, then yes, the US is uniquely exceptional in its unmatched evil. And that was just the short list. America ranks as the world's worst offender.

No other nation on earth comes even close to making war [over 93%](#) of its time in existence. No other nation on earth has [over 130,000 soldiers](#) occupying more than 150 nations at nearly [1,000 military posts](#) worldwide, with another [4,000 US troops](#) this month lining up along Russia's western border, joining NATO's 300,000 troops on active alert. Ready to ignite the next world war, Commander-in-Chief Obama has the US military occupying [over 77%](#) of all other nations on earth. In comparison, the number of foreign nations where Russia deploys its troops remains a single digit figure, and in all nine countries [Russia](#) is an invited guest, unlike America. If power in the world is measured in terms of causing grave risk to every living inhabitant on the planet dying from nuclear holocaust, then once again Obama's US of A is number one.

The liar-in-chief also [boasts](#) that America is the "most respected nation on earth." What a pathetic laugh that is. The reality is with so much US aggression and violence inflicted on the rest of the world, America has to be the most hated and feared nation on earth.

A [Gallup poll](#) found that the United States is the biggest threat to world peace. Though few nations can openly call America out for its never-ending transgressions, for fear of being overthrown, invaded or severely punished, behind closed doors, many the world over cannot wait to see the Empire crash and burn. The entire planet has suffered immeasurably for more than a century at the hands of the brutal world bully and unilateral executioner. Other nations see through Obama's lies and hypocrisy, and his wormlike leadership from behind is secretly mocked as mealy-mouthed and weak. On the world stage he has zero credibility and is hated, and unfortunately due to the sins of his seamless Clinton-Bush-Obama cabal, Americans get lumped in and are hated too. But hate and fear have nothing to do with respect, however smooth talking Obama's fork-tongued doublespeak bullshit may be to his so called liberal sycophants like Springsteen and Streep.

Normalizing Relations with Cuba

Getting back to more of what Obama believes are his bragging rights, he touts normalized relations [with Cuba](#) among his most notable accomplishments. The Empire's embargo lasting more than half a century cruelly caused untold human [suffering](#) on the little Caribbean island. But the resourceful nation survived and even thrived in ways in spite of it. So who benefits by the thawing relations? Doubtfully Cuba as much as the US oligarchs swarming Havana like sharks in a feeding frenzy, the same way they [jumped in bed](#) with

Russian organized crime once the Soviet Union broke apart... and under pre-Castro's Batista corruption as well. Tourism revenue is pouring in while the Cuban elite may begin reaping the benefit of less restrictive trade after decades of isolation. Yet despite these obvious perks, since Obama opened the US embassy in Havana in August 2015, the first full year of normalization saw the Cuban economy [shrink by .9%](#) after a 4.4% growth in 2015. No doubt Western predators are eagerly pouncing on Cuba's natural resources to turn that country into another banana republic. Perhaps an undefined Cuba was better off during the nearly six decades the island proudly and defiantly stood independent of the constantly threatening imperialistic Empire 90 miles away (not to mention the failed US [Bay of Pigs](#) invasion and alleged [634 attempts](#) on Castro's life).

The Iran Nuke Deal

Next Obama references his controversial nuke deal with Iran as another gold star achievement on his short list. Last August it was seriously marred when it was learned that Obama paid a [\\$400 million](#) ransom in US taxpayer dollars to free 4 American hostages from Iran prisons that Barack was caught lying about. When the UN and [Congress ratified](#) the nuclear deal last September, I [welcomed](#) it, hopeful it might restore peaceful relations with yet another so called "pariah" nation unfairly targeted by the Anglo-Zionist Empire that for too long had blindly followed a Middle East policy straight out of the [Greater Israel Project](#) playbook. Iran is another country that defied the global bully and paid for it, after CIA overthrew its democratically elected leader in 1953 and installed the [dictator Shah](#) and his murderous CIA trained secret police lasting over a quarter century. Once the Iranian [Revolution](#) ousted the Shah in 1979, Iran was always considered America's enemy.

As far as developing nuclear power to meet [Iran's energy needs](#), in the long run it's never a wise move after [Fukushima](#) and [Chernobyl](#). But when Washington not only silently condones but covertly assists [Israel building](#) a large nuclear arsenal (not to mention the immorality of handing over [\\$38 billion](#) in US military aid promoting Israel's genocidal apartheid), for years to constantly threaten [war against Tehran](#) should it pursue nukes in self-defense parity, though it makes for a more dangerous world, Iran certainly possesses a reasonable argument for having nuclear weapons. Yet Iran has led a non-aligned 120 nation movement for a [nuclear-free zone](#) in the Middle East to no avail. Meanwhile, Israel continues sitting on [200 warheads](#) aimed at Iran. With a pro-Zionist US president in less than a week who during his campaign promised to tear up the nuke agreement and move the US Embassy to Jerusalem, more hostile tensions toward Iran may be in store in the Middle East. But it was likely more rhetoric than reality as Trump would be going it alone to renege on the deal backed by all five other UN [Security Council](#) nations that signed it.

Pulling the "I Killed Bin Laden!" Card

Back to Obama's [speech](#) where he is still basking in [the lie](#) that he actually took out Osama bin Laden as 9/11's alleged "mastermind." That US commando raid in Pakistan was all an inside fake job just [like 9/11](#) was. The truth is the Bush-bin Laden [family connection](#) goes way back throughout the 1980's when [Osama](#) the US proxy mercenary in Afghanistan could fight Russians to help break up the Soviet Empire and then again in the 1990's to help to break up [Yugoslavia](#). Finally reprising his groomed role as the official fall guy on 9/11, Osama bin Laden became deep state's cardboard cutout who had [little to do](#) with the 9/11 false flag operation carried out by the [real criminals](#) Cheney-Bush/CIA-Israel/Mossad-House of Saud. The strong likelihood that Osama's failing kidneys that had [him dying](#) in December 2011 belies the fact that Obama conveniently uses bragging that he killed Osama in April

2011 as his crowning albeit fake foreign policy achievement just in time for his 2012 reelection.

He followed that [speech](#) lie with yet another enormous deception – that he and those in government serve “to make people’s lives better.” Is that why three years ago a joint university study confirmed that the US government functions as an [oligarchy](#), and neither a democracy nor a republic? It’s been all too painfully obvious that politicians are opportunistically self-serving while foremost serving the interests of the elite that bribes them and puts them in power. Puppet politicians like Obama serve to make the lives of the globalist rulers better, definitely not the people they’re supposed to represent who elected them.

UN Climate Change Agreement

Obama used his farewell [speech](#) to include yet another feather in his cap:

[We’ve] led the world to an agreement that has the promise to save this planet. But without bolder action, our children won’t have time to debate the existence of climate change; they’ll be busy dealing with its effects: environmental disasters, economic disruptions, and waves of climate refugees seeking sanctuary.

He expresses smug satisfaction in conning the world with [fake science](#) to propagate the lie that human CO2 levels are wreaking earthly havoc by causing extreme weather and climate change, bragging how the UN climate agreement will “save this planet.” No doubt his puppet masters are pleased as they know it’s a necessary precursor and milestone to their one world government. Obama played a pivotal role in manipulating [175 nations](#) into signing the UN climate change agreement that delineates a time schedule to reduce CO2 emissions through issuance of carbon taxes.

Never mind all the fake science consensus, Obama and Al Gore’s globalist rhetoric and dire warnings, it’s all based on a lie, [a hoax](#). Extreme weather and climate change are not the consequence of manmade greenhouse gases, but the ruling elite several decades ago latched onto “global warming” as the new common enemy facing the entire globe that will be their deceptive vehicle used to promote the need for one world governance.

The information war in this age of deception often is waged by omission. Heavy metals through [geoengineering](#) in Western nations are poisoning our atmosphere, ground soil, groundwater, food chain, lungs and brains and obviously contributing to chronic [health problems](#) and shorter [lifespan](#) (along with fluoride, vaccines, Monsanto and GMO’s, processed food, industrial pollution). Yet this covert phenomenon along with [HAARP systems](#) relating to weather modification likely have far more negative impact on climate change, extreme weather events and “[unnatural](#)” disasters than any CO2 emissions. Yet deep state and the UN refuse to inform us, continuing a policy of denial that they even exist much less disclose their hidden purposes and effects. As long as disinfo cheerleaders like Gore, [Pope Francis](#) and Obama are around, millions may go to their graves never really knowing the why or wherefore.

The Changing of the Guard... maybe

Obama falsely [declares](#):

I committed to President-Elect Trump that my administration would ensure the smoothest possible transition, just as President Bush did for me.

So that explains the Obama-Clinton-Soros' post-election purple revolution paying mercenaries to [incite violence](#) and mayhem across America's cities in protest and defiance of Trump getting elected. Or the payoff to get their shill Jill to demand a [recount](#) in three key states that fast fizzled out. Or all the [death threats](#) and behind-the-scenes, subversive pressures to manipulate the electoral votes against Trump also doomed to failure. So again the Obama-Clinton crowd resurrecting their go-to mantra "[Putin did it,](#)" deployed CIA to falsely accuse Russia with hacking that changed the election outcome rather than face the fact that Hillary is the [most hated](#) major party presidential candidate in US history. From the get-go she and the DNC had [rigged the election](#), stealing the state primaries, denying Bernie Sanders his rightful nomination. Then the Clinton controlled MSM was caught [cheating](#) to give Hillary the advantage during the debates only to arrogantly predict Hillary's "[landslide victory](#)."

Let's face it, the over-the-top corruption and hubris of Hillary, the DNC, Obama and MSM lost her election despite the [17 Hillary controlled](#) (un)intelligent agencies led by CIA director [John Brennan](#) bogusly claiming Russia's guilt without supplying a shred of evidence. And for alternative media's role in exposing the ugly truth, over 200 of the more legit alt news sites were then [blacklisted](#) as "fake news" for McCarthyite censorship. 2016 revealed just how utterly broken and corrupt the US political system is. And every step of the sordid way, Mr. Lame Duck had lots to do with pulling every dirty trick in the book to prevent Trump from inauguration.

As recently as last week Obama was still attempting to invalidate the election. In a laughable, desperado Hail Mary fiasco, [Obama](#) and his DHS head Jeh Johnson were huffing and puffing in front of the cameras about US election infrastructure being critically violated by alleged Russia's "tampering," falling under the DHS jurisdictional domain as sufficient grounds to cancel the Trump inauguration. All of this last minute blustering just goes to show the sheer desperation and panic setting in that the whole treasonous Obama-Clinton-Bush cabal will eventually be defending themselves one day before Truth and Reconciliation Commissions.

Obama [believes](#) "our diversity and openness" means that "the future should be ours." Does he mean the [polarizing effect](#) he's had on making the US populace the most contentious, angry, conflicted, confused and fractionalized than it's ever been since America's Civil War? If he's saying that it's about to cause America's second civil war, then he might actually be right for once. In the next minute Obama's talks of America's "solidarity" and either rising or falling "as one." Again, he's deployed the elite's [divide and conquer](#) principle as cunningly as any predecessor, leaving office with America more divided and conquered than any time prior in history. As America's first black president, he was supposed to be the uniter, not the [divider](#), yet his [race-baiting](#) tactics have incited racial tensions.

"Fake News"

Of course Obama just had to reiterate his familiar lament that too many Americans are basing their world view on "fake news" sources, which he [blames](#) for further polarizing the nation instead of admitting his own divisive role. As a psychopath, he will never admit that his own race baiting and his own deceitful, aggressive agenda have polarized Americans in the worst way. It goes without saying that his perception of legitimate and accurate news

comes from [mainstream media](#), the six oligarch owned mega media giants that control over [90%](#) of the news outflow. The same news that's been proven repeatedly [to be false](#), from echoing the neocons' WMD's in Iraq to predicting a Hillary landslide to the sour grapes accusing Putin of hacking the election. The enemy of his totalitarian regime are the blacklisted alternative news sites that regularly expose both his and his MSM fake news lies. That's why just prior to Christmas he snuck through signing the [2017 NDAA](#) designed to censor the real truth by designating his MSM minions as his "ministry of truth" gatekeepers.

"Resisting the lure of fascism and tyranny"

After destroying whatever was left of our democratic republic after the [Bush regime's](#) preemptive strike, Obama the fascist dictator who made it his habit of circumventing Congress with [executive order](#) end-arounds, the propagandist ironically [speaks](#) of resisting "the lure of fascism and tyranny during the Great Depression." Yet he takes no responsibility for currently creating his own [fascist tyranny](#) within his [Obama-made depression](#). He hypocritically adds salt to the wound when he addresses "post-World War II order" that emerged with other democracies based on the very things his eight years have targeted for [elimination](#) - "the rule of law, human rights, freedoms of religion, speech, assembly, and an independent press."

The irony of it all. Because the ruling elite chose to heavily invest in the [military industrial complex](#) and US military to fight nonstop dirty oil wars, as a direct result America now finds itself drifting deeper into unpayable [national debt](#) fueling an economic depression. In the process Obama and his neocons have systematically destroyed our constitutional rule of law that once guaranteed all those civil liberties and freedoms that his fascist totalitarian oligarchic police state [swindled](#) from us. Note the pattern of Obama's doublespeak. He constantly warns against the very same crimes that he notoriously commits.

America's Enemies According to Obama

Obama next [identifies](#) two challenges to his so called postwar "order" (in actuality his NWO kind) - "violent fanatics who claim they speak for Islam," referring to the very terrorists that he created, and "more recently by foreign autocrats in foreign capitals who see free markets, open democracies, and civil society itself as a threat to their power." Here of course he's referring to Putin and China, and perhaps the Philippines' [Rodrigo Duterte](#) because he rejected Obama's pivot and aligned with China. By reversing everything Obama says, a simple truth formula can be had. Obama insists that the terrorists, the Eastern powers he targets as the enemy, and any other independent nation that refuses to submit to his authoritarianism and US hegemony, is rife with:

A contempt for the rule of law that holds leaders accountable; an intolerance of dissent and free thought; a belief that the sword or the gun or the bomb or propaganda machine is the ultimate arbiter of what's true and what's right.

His articulate words above describe himself perfectly. Again, all the very same transgressions Obama is guilty as sin of, he conveniently projects onto all his designated enemies. It's Obama's exceptionalism that authorizes his exemption from ever being held accountable by any rule of law, be it domestic or international. And it's Obama's belief that he can use global violence against any deemed enemy, real or imagined, anytime, anywhere in the world along with his fake news propaganda machine to sell it. Why?

Because he can. And this unbridled, brutal arrogance for extrajudicial murder as judge, jury and executioner extends to any American citizens on US or foreign soil deemed enemies of the state. He's [killed four](#) confirmed Americans by predator drone, his personal favorite warfare despite its actual target kill rate of just 4%.

"Radicalized" Homegrown Enemies of the State

Next Obama blows more [smoke](#) up his ass:

No foreign terrorist organization has successfully planned and executed an attack on our homeland these past eight years.

Obama mentions Boston and Orlando as examples of radicalized homegrown terrorists going off the deep end despite "our law enforcement agencies being more effective and vigilant than ever." Of course the truth is Obama sponsors all these false flag terrorism attacks on American soil, from [Boston](#) to [Chattanooga](#) to [San Bernardino](#) to [Orlando](#). In every case the US intelligence community had extensive dossiers on each and every radicalized patsy. Obama uses his FBI and CIA as handlers to regularly recruit and coordinate young, angry, misguided Muslim Americans to carry out these [state sponsored](#) false flag operations. Former US Marine intelligence and CIA officer [Robert David Steele](#) has confirmed that virtually every terrorist event on US soil is just another inside job like 9/11, but obviously on a much smaller scale. Again, Obama and his Muslim CIA boss John Brennan are traitors who regularly aid and abet both domestic and foreign enemies. In fact, they are America's [enemy within](#).

Keeping Us Safe: The Fake War on Terrorism

Obama [boasts](#) that "we've taken out tens of thousands of terrorists" while in actuality as the ISIS founder, he has been repeatedly caught [arming](#), [supplying](#), [financing](#), [training](#), alerting, [protecting](#) and providing [air cover](#) for the terrorists on dozens of occasions. It's called aiding and abetting the enemy. And then when Putin called his bluff on his [fake ISIS war](#) at the UN in the fall of 2015, upon Assad's request Russia proceeded to [kick terrorist ass](#) in Syria. While after allowing ISIS to [invade Iraq](#) the year before in 2014 in order to oust President Maliki and reestablish a [military foothold](#) with permanent bases in Iraq, Obama infamously vowed to "[hunt down the terrorists](#)." Yet suddenly in 2015 and all of last year the actual terrorist supporter Obama [refused to partner](#) with Putin to eradicate Obama's [Christian-killing ally](#). Instead Obama and Kerry cunningly played along with Russia negotiating a fake peace proposal till last September launching an [airstrike](#) on Assad forces killing 62 and wounding 100 Syrian Arab Army soldiers, then falsely pretending it was an accident. That's how Obama takes out "tens of thousands of terrorists."

And then the faker himself has the audacity to [claim](#) "it has been the honor of my lifetime to be your Commander-in-Chief." More than any other president in US history, Obama has singlehandedly [forced into early](#) retirement over 300 top generals and admirals. The purge of top leadership is just part of the problem. Obama has gravely [undermined](#) the morale of our armed forces and severely weakened their strength as a fighting force as well. Many officers have complained that his policies have emasculated soldiers. It clearly hasn't been their honor to serve under his inept and weak style of leadership.

From his [speech](#) another blatantly false Barack Obama gem:

That's why, for the past eight years, I've worked to put the fight against terrorism on a firm legal footing. That's why we've ended torture, worked to close Gitmo, and reform our laws governing surveillance to protect privacy and civil liberties.

By ending torture, he can't mean his continuation of the illegal CIA [torture rendition](#) policy perpetrated by the Bush-Cheney gang. Or his [refusal to prosecute](#) the torturers and their leaders because he'd then have to indict himself. Speaking of another false promise made in 2008, [Guantanamo](#) prison still remains an open torture chamber, for decades still incarcerating individuals who've never even [been charged](#). As the [founder of ISIS](#) (along with Hillary), against the recommendations of his own military advisor, then Defense Intelligence Agency head General [Michael Flynn](#) (now Trump's national security advisor), maintains that against Flynn's recommendation Obama went ahead and armed and trained the terrorists in Syria for regime change purposes to oust Assad and go after their ultimate prize Iran. Kerry was recently caught on tape confirming Obama administration [favored ISIS](#) against Assad, providing yet more proof that [Obama is a traitor](#).

As a mere pawn in the global chessboard pecking order, Obama was assigned to oversee and let drag on two [unwinnable](#) leftover wars from the previous administration, restarted war in [Iraq](#), declared a fake [war on ISIS](#) after initiating several more wars by proxy using his terrorist ally ISIS in [Libya](#) and [Syria](#) to further the regime change policy finally outed in 2007 by presidential hopeful General [Wesley Clark](#). Then there are the atrocities Obama supports being committed daily by his terrorists, his contingent of [Special Forces](#) advisors coordinating US ally Saudi Arabia's genocidal [war in Yemen](#).

At the same time he's pledged to keep his [global war](#) of terror alive, Obama was also tasked with surrounding designated cold war 2 enemies [Russia and China](#) with hostile neighbors at their border with deployed NATO troops and Obama's failed Asian pivot. While amassing [US-NATO](#) forces at the Russian border, Obama has also launched a [nuclear arms](#) race, installing warhead missiles in [Romania and Poland](#) aimed at Moscow. But rather than isolating and weakening the Eastern powers, Obama's aggression has backfired, brought them closer [together](#) to face off against the growing provocative threat from their common enemy - US Empire hegemon's incessant [war-baiting](#) as Obama's apparent objective to trigger world war.

Here's a twisted puzzler in Obama's inane [illogic](#):

[ISIL] cannot defeat America unless we betray our Constitution and our principles in the fight. Rivals like Russia or China cannot match our influence around the world - unless we give up what we stand for, and turn ourselves into just another big country that bullies smaller neighbors.

The irony of it all. In the name of fighting his war of terror, Obama has done just that - betrayed our Constitution. But bypassing [Congress](#) and stripping away our constitutional liberties and freedoms has little to do with the terrorists themselves, only inasmuch as they've provided Obama the excuse to use "national security" to destroy our [constitutional rights](#).

The last part of the above quote is quite telling. Obama is saying Russia and China can only match our influence if US Empire turns "into just another big country that bullies smaller

neighbors.” Again, the bottom line reality is that for more than a century the US imperialistic Empire has been the [world policemen](#), global bully and worldwide tormenter, invading other nations, assassinating leaders, implementing government coups, engaging in economic warfare and tampering in internal affairs of other nations at will. According to [Noam Chomsky](#), the United States is the world’s biggest terrorist. Empire’s use of violence to wield its brutal, ruthless power has alienated itself from nations that are increasingly seeking protection and alignment with the Eastern powers, and Russia and China are growing stronger in their will to challenge and ultimately upend the vice-grip of Empire’s [unipolar hegemony](#). The day of reckoning is here.

Over four decades ago globalist guru-war criminal-Nobel Peace prize winner [Henry Kissinger](#) proposed a genocidal policy of punishing targeted nations by withholding food as the WMD to induce mass starvation, calling us “useless eaters” as part of the elite’s not-so-hidden eugenics plan to [cull the human herd](#) down in drastic number from its current 7.4 billion. So it’s logical that with Empire’s horrendous track record, bullying, raping, pillaging and destroying other nations by habit has become the US trademark. For all its exclusive lawlessness and grief inflicted upon the rest of the planet, [no sanctions](#) against the sole global superpower have ever materialized. But the US government’s longtime wanton slaughter and destruction is about ready to receive its karmic due. Fully aware of the awakening masses, as the globalist chessboard pawn, the US Empire will not stop at nothing to perpetrate the most heinous crimes against humanity in order to fulfill its genocidal mission to kill billions to enslave half to one billion humans ruled demonically by a tyrannical one world government. Obama the groomed CIA errand boy did his job to destabilize the world and destroy America in the process.

Epilogue

If Obama had one sincere bone in his body to “embrace all” in America as he preaches, he would never have sold his entire nation down the rapids to one world government that he’s been covertly promoting all along. More than any president in history he has betrayed all Americans. As a [narcissistic psychopath](#), to Barack Obama everything operates at surface level appearance as just another sales pitch acting job, including the display of phony emotions that on occasion he’s likely utilized artificially induced [fake tears](#).

If President Donald Trump follows through on what he says he’ll do, Obama the former president’s [legacy](#) will be reversed, redacted and dismantled right out of the history books. Trump is America’s [antidote](#) for the Politically Correct presidential imposter who weaseled his way through eight years smiling while treasonously twisting the knife inside the once great America.

Meanwhile the richest administration ever comes to town heavily stacked in Goldman Sachs, Big Oil and the [military industrial complex](#). All longtime fixtures within the elitist establishment, don’t expect a lot of change coming out of Washington. Democrat or Republican, we know who truly runs and controls the international “crime machine”, pulling invisible strings far removed from the figurehead puppet sitting in the White House. And like clockwork every few years we may get taken in by a few tantalizing campaign promises that implant wishful thinking expectations that this president will somehow be different from all the rest. But in the end he too proves to be “same as the old boss,” except oftentimes only worse. Because the real boss is the diabolical ruling elite that has never given up control.

Our fight for truth and justice will struggle on in a year that the powers-that-shouldn’t-be are

poised and getting ready to snatch the internet power of truth from us. The globalists fear that they've been exposed like never before, and are moving fast ahead of the darkening storm to subdue and repel the global uprising that's about to unfold in this year of reckoning. Citizens of the world must mobilize and coalesce our forces to unite behind the power of truth and quest for justice and accountability.
