Author's Note: This “Open Letter” was emailed to Republican Senator Ron Johnson of Wisconsin and was also faxed to his offices. FaxZero.com lets you send up to five free faxes per day to most U.S. Senators, Representatives, and Governors.

You can tell them how you feel about the “vaccines”, mandates, health passports, lockdowns, masks and other coercive measures.

To: The Honorable Senator Ron Johnson

Dear Senator Johnson:

On September 29th, you joined Senator Rick Scott (R-Fla.) and other Republicans to co-sponsor new legislation that would block federal vaccine mandates by using the U.S. Constitution's Interstate Commerce Clause.

In introducing the bill, you said: “The Biden administration's decision to mandate vaccines for working Americans is an outrageous trampling of civil liberties and a dangerous precedent for what a U.S. president can unilaterally impose on the American public. The American people deserve transparency and as much information as possible from the federal government so they may make an informed choice about their own health.”

“I'm happy to co-sponsor Senator Scott's ‘Prevent Unconstitutional Vaccine Mandates for Interstate Commerce Act’ that would prohibit federal agencies from requiring anyone to show proof of COVID-19 vaccination to do business across state borders. No one should be pressured, coerced, or fear reprisal for refusing treatment, including the Covid-19 vaccine.”

This well-intentioned piece of legislation, if it ever becomes law, would have only a limited impact on tens of millions of Americans whose lives are being destroyed by federal, state, city, and private businesses' vaccination mandates now forcing people to get the dangerous, often lethal COVID-19 injections or lose their jobs and livelihoods.

On September 30, you presented a chart and data before the Senate which showed that the vaccines are not working as advertised. And you declared: "Our federal agencies have not been transparent. They have not given the American public information that we need to make an informed choice."

This is commendable and very true as far as it goes, but unfortunately it merely scratches the surface of the problems we face.

Senator Johnson, there is an urgent need for you to hold a press conference or make a major speech before Congress to tell the American people what is really going on with respect to the vaccines and the pandemic.

America is presently on a suicidal course. Unless that course is reversed very soon, there will be no more Republic—physically or otherwise.

The following is the gist of what the American people urgently need to hear, all of it backed by overwhelming, irrefutable evidence:

The COVID-19 "vaccines" (genetic-modification agents) do not work. They are killing and severely damaging millions of people, both in the United States and around the world, as the data from CDC/VAERS and the adverse-events reporting systems for the UK and the European Union prove.

These so-called "vaccines" all need to be taken off the market immediately. All of them should have been withdrawn by February 2021, when it became empirically obvious that these defective products are massively injuring and killing people.

Requiring America's men and women in military uniform to take these dangerous jabs is treasonous and suicidal. Forcing these shots on children (who have 100% natural recovery) is deeply immoral and criminal and violates the Nuremberg code of ethics. Imposing federal and local mandates to force employees and other citizens to get these risky, often deadly shots is unscientific, illegal, and frankly insane.

The vaccines do NOT provide immunity and do NOT prevent transmission of the virus. They only claim to offer transient "protection" lasting 4-6 months against mild symptoms of the illness. Countless people who got the jab are subsequently diagnosed with COVID-19 sickness. Furthermore, the vaccines interact with the virus to foster new variants that escape immunity. In other words, the vaccines are spreading disease and people who got jabbed can be super-spreaders, as the CDC admits. The vaccines are totally the wrong approach to the situation.

The fraudulent PCR test is an acknowledged scam—as per the CDC's and WHO's admission. The test gives false-positive readings up to 97% of the time. The fear-mongering data promoted by the government and the mainstream media is junk data. Many inexpensive, highly effective remedies are available to treat Covid sickness. No vaccines were ever necessary, and no one should take these harmful genetic cocktails.

Senator, it takes a courageous statesman to stand up and tell the American people the truth. All of the above statements can be verified many times over. They have the full support of thousands of respected mainstream physicians, immunologists, virologists, epidemiologists, vaccine specialists, and medical researchers who have called for the

immediate withdrawal of all the genetic “vaccines” (Pfizer, Moderna, AstraZeneca, Johnson & Johnson). As you know, their voices are censored by the news media and Big Tech.

- As the harmful effects of the “vaccines” kick in over the next few months and years, millions more Americans will be seriously damaged—and killed—by these products.
- Anyone who gets a “booster” shot is exponentially increasing their risk of bad side effects and death.
- A whole generation of our youth will have a high incidence of myocarditis because of the damage these injections have already caused.
- Countless women risk sterility because of these injections.

Senator Johnson, if I may be blunt, the time for half-measures is over. This is a dire national emergency. Please do the right thing. There is very little time left. The “vaccines” have nothing to do with public health, they are indeed ‘bioweapons’ and they are all about imposing authoritarian control and medical tyranny on the American people.

Please stand up in the Senate or hold a press conference—either alone or with fellow Congressmen—and tell the American people the unvarnished truth. A 360-degree course correction is urgently needed, or this country is doomed.

Below I have summarized the key points and provided links to relevant articles, videos, and documents. Kindly review this material, share it with colleagues, and do act upon it.

The American people and the world will thank you for your honesty, integrity, and courage. Don’t let this vaccine holocaust continue.

Sincerely,

Walter Gelles
