“Not every wrong, or even every violation of the law, is a crime.” Michael Mukasey, US Attorney General.

Lawlessness in government has become the rule of the land. Loyalty to the party superseded the loyalty to the country, which is a déjà vu phenomenon in the archives of fascism. The stench of our political sewage system has contaminated our nation and the world. Mendacity became truth, and manipulation became intelligence and virtue.

Macchiavellian politics has reached new height of deception, corruption, and propaganda. Our supreme court became politicized with unscrupulous appointees who were co-opted to implement the new laws for the new world order. Our intelligence agencies have been methodically politicized and corrupted for many years to a point of no return. Cash became GOD!

Ralph McGeehee a 25 year veteran of the Central Intelligence Agency enlightened us with this following paragraph from his 1983 book “Deadly Deceits,” which edifies a familiar pattern of deception that we have witnessed but we never understood. He stated the following about the CIA:

“The CIA is not an intelligence agency. In fact, it acts largely as an anti-intelligence agency, producing only that information wanted by policymakers to support their plans and suppressing information that does not support those plans. As the covert action arm of the president, the CIA uses disinformation, much of it aimed at the U.S. public, to mold opinion. It employs the gamut of disinformation techniques from forging documents to planting and discovering “communist” weapons caches. But the major weapon in its arsenal of disinformation is the “intelligence” it feeds to policymakers.

Instead of gathering genuine intelligence that could serve as the basis for reasonable policies, the CIA often ends up distorting reality, creating out of the whole cloth “intelligence” to justify policies that have already been decided upon. Policymakers leak this “intelligence” to the media to deceive us all and gain our support.” [1].

Conclusion

Will people learn from their mistakes and rise up in revolt to throw out their elected officials. Probably not! The masses always prefer wily and brutal leaders who will lead them into the promised Land, will act on their behalf, and will do the thinking for them. Critical thinking is a frightening phenomenon, because with it comes decision making, action and responsibility. However, the cost for this acquiescence is great and long lasting, resulting in

a lifetime of serfdom. Watch the video and decide...
