"Autopsy is not only a service to the doctors who were responsible for the patient, but it is a public service for our health system." – Prof. Dr. Arne Burkhardt

Many cases of sudden death and severe disease are being reported since the rollout of the COVID-19 gene-based vaccines. Early on, several doctors and scientists warned that the COVID vaccines would lead to several complications including autoimmune disease, blood clots, strokes, and more. Additionally, The Vaccine Adverse Event Reporting System, or VAERS, data showed a strong correlation between the vaccines and adverse events. But how does one determine in an individual case that the vaccine was the cause of death or the adverse event? It is through pathology.

An early pioneer of pathological investigations into vaccine adverse events was Prof. Arne Burkhardt — a senior, highly accomplished pathologist from Germany. Prof. Burkhardt came out of retirement in 2021 to examine the autopsy and biopsy materials of vaccinated patients. The work of Prof. Burkhardt not only provided strong evidence of vaccine causation, it substantiated the professional medical hypotheses of doctors and scientists around the world.

Journalist Taylor Hudak interviewed Prof. Burkhardt in his laboratory in Reutlingen, Germany, shortly before his death in May 2023. Prof. Burkhardt explains several of his findings in detail as well as which testing mechanisms he uses. Additionally, he shares his perspectives on the public health industry and academic and medical science as well as what motivates him to do this work.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. -Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists.

—Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it’s too late. You will not find so much valuable information and analysis in one place. –Edward Curtin
