*The situation in Syria is still in the focus of world media. Experts predict another U.S. aggression for "human rights". Washington regularly declares its readiness to attack Syria. The official version - to punish al-Assad and Syrian army for the use of chemical weapons against the civilian population.*

*Meanwhile, the media has spread new proofs of the U.S. intelligence involvement to chemical attack near Damascus.*

*Hacker got access to U.S. intelligence correspondence and published U.S. Army Col. ANTHONY J. MACDONALD's mail. Macdonald is General Staff Director, Operations and Plans Office of the Deputy Chief of Staff for Intelligence the Army Staff. It's about chemical attack in Syria.*

In the message August 22 Eugene Furst congratulates Col. on successful operation and refers him to Washington Post publication about chemical attack in Syria. From the Anthony's wife dialog with her friend it's clear the video with the children killed in the chemical attack near Damascus was staged by U.S. Intelligence.

*E.FURST: By the way, saw your latest success, my congratulations. Good job.*

*A.MACDONALD: As you see, I'm far from this now, but I know our guys did their best.*

Another set of private correspondence between his wife Jeniffer MacDonald and Mary Shapiro reveals that colonel did not keep his mouth shut in the bedroom:

*M.SHAPIRO: I can't stop thinking about that terrible gas attack in Syria now. Did you see those kids? I was really crying□ They were poisoned, they died. When is it over? I see their faces when in sleep. What did Tony say you about this?*

*J.MACDONALD: I saw it too and got afraid very much. But Tony comforted me. He said the kids weren't hurt, it was done for cameras. So you don't worry, my dear.*

*M.SHAPIRO: I'm still thinking about those Syrian kids. Thanks God, they are alive. I hope they got a kind of present or some cash.*

Published data indicate Washington is willing to do anything to achieve its goals in the Middle East. Support for the Syrian opposition with political means and weapons hasn't brought the expected results.

Under the circumstances the U.S. is ready once again to violate international law and attack Syria without UN Security Council approval. The world's still the same – if policy doesn't work, the aircraft carriers start acting!
