

Pfizer Trials: All Injected Mothers Lost Their Unborn Babies

Pfizer trial documents reveal attempts to cover up the death of 100% of unborn babies in outcomes actually reported

Please recall our November 23, 2021 post titled [“The FDA and Pfizer are a Match Made in Hell”](#).

There we described how the FDA took only 108 days to approve Pfizer’s injection, but wanted 55 years to produce the documents!

Thankfully [Public Health and Medical Professionals for Transparency](#) filed a lawsuit after the FDA denied their request to expedite the release of the records, and the records are being released, albeit still too slowly.

Among the first reports handed over by Pfizer was a ‘Cumulative Analysis of Post-authorization Adverse Event Reports’ describing events reported to Pfizer up until February 2021. [You can download this entire report here](#).

Look at table 6 from this Pfizer report. It is titled “Missing Information”. Its first heading under the topic “Missing Information” is “Use in pregnancy and lactation”. It includes this paragraph:

“Pregnancy outcomes for the 270 pregnancies were reported as spontaneous abortion (23), outcome pending (5), premature birth with neonatal death, spontaneous abortion with intrauterine death (2 each), spontaneous abortion with neonatal death, and normal outcome (1 each). No outcome was provided for 238 pregnancies (note that 2 different outcomes were reported for each twin, and both were counted).”

On the surface this states that of 270 pregnancies, there were 23 spontaneous abortions, 5 “outcomes pending”, 2 premature birth with neonatal death, 2 spontaneous abortions with

intrauterine death, 1 spontaneous abortion with neonatal death, and 1 normal outcome. But note also “no outcome was provided for 238 pregnancies”.

So really we have no idea what happened with 243 (5 + 238) of the pregnancies of these injected women; they have just not been included in the report. What we do know is that of 27 reported pregnancies (270 subtract 243), there are 28 dead babies! This appears to mean that someone was pregnant with twins and that 100% of the unborn babies died.

[Here is an excellent article by LifeSite News which goes into greater depth about these shocking revelations.](#) LifeSite News cuts Pfizer some slack on the 5 “outcomes pending” which creates the possible impression that 87.5% of the babies of the injected women died. With all respect to LifeSite, I feel correct in not counting the 5 “outcomes pending” and hence arrive at the conclusion that 100% of the unborn babies died in the injected women for whom results are presented.

The LifeSite News article also reveals deceptive number games in another article titled “Safety and Efficacy of the BNT162b2 mRNA Covid-19 Vaccine”, which was published in the New England Journal of Medicine on December 31, 2020. These deceptive practices attempted to cover up the fact that in first trimester pregnancies, the Pfizer injection produced 82% miscarriages.

On January 12th we shared the [excellent analysis by the Canadian Covid Care Alliance](#) of this same “Safety and Efficacy” article from the New England Journal of Medicine. This Pfizer-friendly study is a complete sham; it is replete with misrepresentation and deceptive methods. The deception and truth is revealed in detail in this [video and article by the CCCA](#).

Dr Trozzi’s brief and Dr Nagase’s excellent interview discussing this sham [article is here](#).

They’re killing babies; what can we do?

These injections are criminal; period. Help us serve the [Cease and Desist Declaration of the World Council for Health](#), to any and all governments, clinics, hospitals, medical regulatory bodies, doctors, nurses, politicians, or anyone participating in any way in the manufacture, shipping, distribution, promotion, or administration of these injections. The message to anyone involved in these injection campaigns is “Stop now. This is a crime. You will be criminally and civilly responsible. The cat is out of the bag. Justice is coming.”

The [Declaration can also be found here](#) along with information and instructions for serving it.

Please keep photos and notes of to whom, when and where the declaration and notice is served. We are finalizing more resources on the World Council for Health web site to upload these photos and details. These resources will be fine tuned and [found here very soon](#).

There are at least five million Canadians, and billions of global citizens who have resisted the injections. We, as well as many coerced injection victims who are waking up with buyer’s remorse, must be the army that stops this, and return human rights and real health care to our society.

[Do not submit; unite!](#)
