[NEWS](#): Air Canada Pilot Maurice Patenaude

It is with profound sadness that we announce the death of Maurice Patenaude, at the age of 54, on September 26, 2023.

An Air Canada captain, he flew his last flight in December 2022 following a diagnosis of terminal renal cell carcinoma. He fought this dreadful illness valiantly and tenaciously, characteristic of his indomitable spirit.

A career pilot, Maurice was very much appreciated and respected by all; it was with the Canadian Air Force reserves and Air Canada that he was able to fulfill his passion, flying.

He is mourned by his new bride, his family, his friends, his aviation colleagues and all who crossed paths with him.

His decision to leave his body to medical research reflects his wish to contribute to the battle against cancer. Respectful of his wishes there will be no traditional funeral but rather a celebration of life, details to be announced.

In this period of mourning, we thank the staff of the Medical Surgical Intensive Care unit of the Toronto General and his oncologist Dr. Fallah-Rad.

Dear Mo, rest in peace, you are in our hearts forever.

His family

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. -Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying

Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists.
—Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it’s too late. You will not find so much valuable information and analysis in one place. –Edward Curtin
