Remember Nuremberg

A reminder to the participants (government officials, heads of state, heads of government, billionaire philanthropists, UN officials et al) of the 2023 WEF Davos Venue regarding what is best understood and described by Peter Koenig below, as

The Globalists’ Criminal agenda directed against humanity:

“The fact that a person who committed an act which constitutes a crime under international law, acted as Head of State or responsible government official, does not relieve him [her] from responsibility under international law. ([Nuremberg, Principle III](#))

“Leaders, organizers, instigators and accomplices participating in the formulation or execution of a common plan or conspiracy [WEF] to commit any of the foregoing crimes [see full text] are responsible for all acts performed by any persons in execution of such plan” ([Nuremberg Principle VI](#))

The World Economic Forum (WEF) – with its noble logo: “Committed to Improving the State of the World” (really?) – will be holding its 53rd Annual Meeting from 16-20 January 2023 in Davos Switzerland.

The official WEF Agenda for 2023 is known and available on WEF’s website. This year’s Conference goes under the honorable title of “Cooperation in a Fractured World”.

Attendance

About 2700 participants are expected, including over 50 heads of state, and some 380 public officials of governments around the world, plus the European Union (EU). Slightly more than in May 2022 (WEF 52) – but fewer of the important “political influencers”.

To the delight of the climate freaks, and similar to other years, the elite – government and private sector honchos – are expected to arrive in about 1000 to 1500 private jets, clogging both the Zurich and Geneva airports.

From there to Davos, most will not take a train, but a helicopter.

Davos is besieged for “security” by military and police. This year, maybe the first time, the Davos population has voiced its unhappiness about this unelected NGO’s extravagant, self-serving, life-interrupting event. After all, Davos is for the people of Davos.

It’s winter sport season. Tourists are not interested in the police and military protected WEF chaos.

Interestingly, other than Olaf Scholz, German Chancellor, none of the G7 heads of state will be present. None of the presidents or PMs of France, Italy, UK, Japan, and Canada have registered their attendance.

However, female top shots include Kristalina Georgiewa, Managing Director of the IMF; and Christine Lagarde, President of the European Central Bank (ECB). [[criminal record in France](#)]

Likewise, none of the heads of state of what would appear to be important countries, China, Russia, US, India, Iran – and none of the re-emerging BRICS+ except for South Africa's President, Cyril M. Ramaphosa – are going to be present. No delegates from Russia and Iran will attend.

On Russia, WEF Director, Alois Zwinggi, said that no Russian delegates will be attending. Same as last year. *The Ukraine situation remains unchanged.*

However, Volodymyr Zelenskyy, President of Ukraine, was invited to the WEF 2023, with a big virtual embrace by Klaus Schwab.

Pretty similarly, as he was invited by the US for a “ten-hour” visit, during which he embraced Nancy Pelosi, then still Speaker of the House, and had a special fire-place chat with Joe Biden. After the 10-hour warp-speed money-weapons begging sessions in the US, he was jetted back to Kiev by the US Air Force.

The short visit was apparently due to a “security issue”. In other words, Zelenskyy, highly unpopular in his country, risked to be banned from access to Ukraine.

Probably for the same reason, he is not planning to physically attend the 2023 WEF, but rather by video, alongside NATO's Jens Stoltenberg and CNN's anchor, Fareed Zakaria. We can just imagine what his plea to Stoltenberg will be.

Other key figures for the WEF 2023 will include:

- The UN Secretary General, António Guterres,
- WHO's Director General, Tedros Adhanom Ghebreyesus,
- and of course one of the WEF's important trustees, Madame Ursula Von der Leyen, President of the European Commission (EC),
- as well as a key trustee and simultaneously the WEF's main sponsor, Larry Fink, CEO BlackRock, will be there with special roles to play in this “fractured” world – among them – rebuilding Ukraine.

Notice: The peaceful concept “multi-polar world” is not part of the agenda’s vocabulary. The WEF agenda may seek collaborators – instead of cooperators – to pull the “fractured” together, possibly towards a new model of “globalism”, and away from a multi-polar world vision.

What will *Cooperation with the fractured Globalism* entail?

Already at the recent G20 meeting in Bali, Klaus Schwab seemed to have realized that “globalism” is dead. Already then, he talked about a fractured world, never about a multi-polar world. As if the “fractured” bits and pieces of this broken world could eventually be put together again under a Global Governance.

Actually, globalism’s demise is logical. As people start awakening – they realize what it means. Nobody wants to be “globalized” – governed by a One World Dictatorship.

Instead of the usual globalist talk, Schwab concentrated in Bali on talking about his dream of the all-digitized 4th Industrial Revolution – about AI, (5G-generated) transhumanization, robotization – and frankly, even though the attendees to his speech politely applauded, though none of them would like to be chipped for mind manipulation by electronic signals.

Agenda

Here is the WEF’s website and the official agenda – and topics that will be discussed. See [this](#) and [this](#).

Will the elite realize that the only way for their own survival is *Cooperation* with the rest of the world – *Cooperation* – as in equals with equals, not a mass reduction of the world population, as in eugenists?

– And as practiced with the fake covid “plandemic”, followed by a mass “vaccination” with experimental, non-tested and deadly mRNA jabs, that may have caused already millions, if not tens or hundreds of millions of deaths and seriously injured around the world.

None of these tragedies are covered by the bought and corrupted mainstream media. And we are only at the beginning. Mainstream doesn’t keep track of such non establishment narratives.

To a large extent the vaxxes have been coerced with blackmail (job loss, barred from social events and social places, unless vaxxed, crime against humanity – crime under the Nuremberg Codex), or through well planned mind manipulation of individuals as well as of the masses. See *“Tavistock Institute – Social Engineering of the Masses”*, by Daniel Estulin.

We may see what emerges from the 2023 WEF regarding the covid *cum* pandemic agenda.

*

On the eve of the WEF’s 53rd Summit, journalist Philipp Dahm had this to say: *“The luster of WEF is fading. Basically, all has been said”*.

Elon Musk doubles up with – *“boring like shit”*. See [this in German](#), Swiss newspaper Tagesanzeiger.

Agenda – Behind the Curtain

Elon Musk may be wrong.

Every year, in addition to the official agenda with more or less open meetings, dozens of secretive clandestine meetings take place behind closed doors, not accessible to anybody who has not been personally invited.

It is in these secret meetings, where real “decisions” are taken. Mind you, these are decisions taken above the people, for top-down executions – with lies and deceptions, i.e., social engineering of the masses (see “Tavistock Institute”, mentioned above).

Top Topics with Top Secrecy to be imposed Top-Down on Populations, may include those stated below – and more. They are not listed in order of priorities. But be aware, they are all related and connected – as we are talking about total *attempted* control and take-over of the world population. Notice: *attempted* – the cabal is not there yet. People’s awakening and resistance is growing.

- *WHO – Pandemic Treaty*: Both, the WHO DG Tedros and UN Secretary General, António Guterres, are present, plus key delegates of the World Health Assembly, to debate with Schwab how to best bulldoze this Treaty through. So far it has encountered serious resistance, mainly from blocks of African countries.

As stated by section 593 — (a) Decisions of the Health Assembly on important questions shall *be made by a two-thirds majority of the Members present and voting*. The Pandemic Treaty is considered an important question. – It would give WHO’s DG authority above all sovereign member states in all matters of health. For example, Tedros could decide that the common flu is henceforth a pandemic and vaccination is compulsory, could even be military enforced.

The world would be subject to WHO tyranny. Already now, before the Pandemic Treaty is decided on, *all member countries are urged to leave WHO – to preserve their political and societal sovereignty over issues of health. To protect their people.*

- *The depopulation / eugenist agenda* – The eugenists – Gates, Soros, Kissinger *et al* – present at the WEF 2023, will most likely debate whether and rather how, to continue their depopulation drive. It’s part of Agenda 2030, of the Great Reset – will timelines be adjusted, or the target abandoned? – Legal systems throughout the world are currently paralyzed. But what if people, a critical mass, are bringing back law and order for the people by the people?
- *Pushing the Covid vaxx-drive* – will despite all odds, protests and foremost

scientific evidence against covid vaxxes – what is also called bioweapons which kill in the millions; and render hundreds of million men and women infertile, with vaxxes and boosters the average human immunity is reduced up to 80%, rendering them vulnerable for all kinds of diseases – leading to early death (depopulation) – will the Death Cult continue pushing this agenda? – Will it depend on the approval of the “Pandemic Treaty”? – *People – force your governments to exit WHO.*

- *Ukraine – “reconstruction” – sale to BlackRock – Larry Fink, CEO BlackRock and Volodymyr Zelenskyy may make their previous negotiations over BlackRock’s reconstruction of Ukraine plans “official” – sign a deal, witnessed by the unelected NGO, called WEF, possibly as much a selling what’s left of Ukraine with all its riches to BlackRock.*

A third to half of Ukraine’s agricultural land has already been sold or leased to international ag-corporations, most of them planting GMO crops, for which Ukraine had to change her legislation. It would be the first official privatization of a country – a precursor for others to follow? – Understand why Zelenskyy is most unpopular with Ukrainians?

- *Continued, permanent intimidation:* Climate lockdowns – Oxfordshire County; energy shortages; food shortages – famine; high inflation; job insecurity. How to continue, how to circumvent ever-growing popular resistance? – These may be topics of debate.
 - *Fifteen-minute cities* – may be the fate of Oxfordshire County; no further travel radius allowed, being digitally surveilled everywhere you go. A strong popular resistance is emerging – that will unlikely fall for the dictate of the planned climate lock-down;
 - *Eliminating 3000 Dutch farms*, about a third of Netherland’s agriculture economy. Holland is the world’s second largest agriculture exporter, after the US. Farmers, supported by the people resisted since 2021. The Ag-Minister has recently resigned – and government is making concessions... This may be a theme for secret WEF debate – to continue with bulldozing, or letting go; and
 - *Famine* – leading to disease and death – is part of the depopulation agenda.

These are possible closed-door discussions with selected Death Cultists.

- *NATO – Ukraine – Russia* – where is the war going? It is a war of US / NATO against Russia. The faltering US empire, made up of psychopaths and sociopaths – cannot admit to living in a multi-polar world in peace. The megalos want to control and possess the world’s largest and by far most resource richest country.

Will their dystopian minds opt for going nuclear – total annihilation of mankind? – It would certainly feed into depopulation. But there is no guarantee that the perpetrating elite would be protected and survive.

Will the WEF and those who command the WEF, give Peace a chance? Will humanity prevail over evil minds?

- *How to rigorously ban “misinformation”* – censoring is in full swing. Never in remembered history has men’s free expression been curtailed to this extent – yet, the truth eventually prevails.
Since the beginning of the covid-craze, WHO has been requesting social media platforms to delete or “shadow banning” more than 10,000 covid and vaxx-related “fake news” – censoring of the truth. Yet the truth still prevails. See [this](#).
Will the WEF / WHO perpetrators continue suppressing the truth despite the people’s uprising? – Or, again, will they make it dependent on the passing, or not, of the Pandemic Treaty?
- *Globalization is dead* – how to cooperate / collaborate – the cultists against the world – to reassemble the fractured world? – This is certainly close to Klaus Schwab’s heart. Globalization, *alias* centralized tyranny – is a fascist concept, difficult to drop for somebody with Schwab’s background. – But he is not alone. His and his WEF’s sheer survival depends on the sponsorship of other megalopsychopaths, who do not want to lose out in a possible collapse of the world economy – from mere limitless over-reach. – There is hope.
- *4th Industrial Revolution* – digitization of everything is almost certainly a key debate among the “controller-pathologists”. The tools – 5G and soon to come 6G (the latter to span the world by 2030 is the plan) – are ready for Artificial Intelligence (AI) driven transhumanization and robotization.

This may be a sick man’s – Schwab’s – dream, but who of the elite-clan wants to run the risk of being overtaken, controlled by AI that becomes – or is already – smarter than mankind? – Even megalosickos may come to this conclusion. – Another spark of hope that people’s resistance and the Cult’s self-preservation might help bury Schwab’s dream.

- *Universal digital ID – Digital money – QR-Coding* – data collection – everything digital is in the end humanity’s demise. Accidental or deliberately caused blackouts could wipe out all vital data and money for common people – the cultists might save themselves with alternative schemes. See [this on QR-code control](#).

Yet, when it comes down to controlling an ever-more subdued population – a hapless society – what is there to control? Without human interaction – let me quote Elon Musk – “*The world would be f***king boring*”.

Let us hope the WEF comes to senses.

Simultaneously, let us resist.

Let us lobby in solidarity at home and worldwide – to exit WHO. Once a country is no longer a member, WHO has no power over this nation.

Let us create a world By the People for the People – independently of the corrupted country governments, independent of WHO, WEF and the bought UN system.

We don't need them.

Our independence, autonomy and sovereign authority over our lives and over our newly created society – shall be our new future.

With a People for the People movement we will make it – without the WEF, WHO and the entire UN system – and certainly without our WEF and BlackRock compromised governments.
