Presstitute Media, such as the UK Telegraph, spend a lot of energy debunking exposés of government conspiracies. For example, the thousands of highrise architects, structural engineers, physicists, nano-chemists, demolition experts, first responders, military and civilian pilots, and former government officials who have provided vast evidence that the official story of 9/11 is a made-up fairy tale at odds with all evidence and the laws of physics are dismissed by presstitutes as “conspiracy theorists.”

Similarly, those, such as James W. Douglass, who have proven beyond all doubt that President John F. Kennedy was not assassinated by Oswald but by his own paranoid anti-communist military-security complex, are dismissed as conspiracy theorists.

The 9/11 Commission Report and the Warren Commission Report were cover-ups. VP Dick Cheney and the neoconservatives he sponsored needed a “new Pearl Harbor” in order to begin their military assaults on the Middle Eastern countries that had independent foreign policies instead of being US/Israeli vassals. 9/11 was their orchestrated “new Pearl Harbor,” and this fact had to be covered up when 9/11 families persisted in their demands for an investigation and could not be bought off for large sums of money.

Similarly, the Warren Commission had no choice but to cover up that a popular American president, John F. Kennedy, had been murdered by the Joint Chiefs of Staff, the CIA, and the Secret Service, because he was believed by paranoid anti-communists to be “soft on communism” and thereby a threat to the security of the United States. The cold war was on, and the Warren Commission could not hold those responsible accountable without destroying the public’s confidence in the American military and security services.

Nevertheless everyone aware of the forged case against Oswald knew what had happened. One of these people was Attorney General Robert Kennedy, JFK’s brother.

Bobby Kennedy understood the situation. He knew that as a member of a cover-up administration he could do nothing about it. However, he knew that if he won the presidency, he could hold accountable those security elements responsible. His brother had told him that after his reelection he was going to “break the CIA into a thousand pieces.” When the Vietnam war destroyed President Lyndon Johnson, Bobby Kennedy emerged as the next president of the US.

Bobby Kennedy was assassinated the evening that he won the California Democratic

primary. Sirhan Sirhan was blamed. He was standing in front of Kennedy. He had an eight shot low caliber pistol, which he fired. He did hit Paul Shrade, who was standing next to Kennedy. But he did not hit Kennedy. Kennedy, according to the medical evidence and eye witnesses was killed from shots to his back and to the back of his head.

This was confirmed to me years ago by a distinguished journalist and documentary film maker who was standing just behind Robert Kennedy when he was shot. He told me that he felt the bullet that hit Kennedy go by his ear and saw its impact. He wrote a full report for the FBI and despite his credentials was never contacted by the investigation.

Now, last Wednesday, 48 years later, Paul Shrade has presented ironclad evidence at the parole hearing of the now 71 year old Sirhan Sirhan that Robert Kennedy was shot by someone else from the rear, not from the front where Sirhan Sirhan was standing.

You can read Paul Shrade's statement here: <http://www.informationclearinghouse.info/article44184.htm>

Of course, the presstitute media will say that Paul Shrade, who was himself shot when Kennedy was assassinated, is a "conspiracy theorist." Remember: a conspiracy theorist is anyone who on the basis of hard evidence challenges a government that blames its crime on an innocent third party.

At the time of Robert Kennedy's assassination, the CIA was conducting mind control experiments. Experts think that Sirhan Sirhan was one of those under the CIA's control. This would explain why Sirhan Sirhan has no memory of the event.

President John F. Kennedy had experienced in the Joint Chiefs of Staff under Chairman Lyman Lemnitzer a high level of insubordination. Lemnitzer showed in White House meetings contempt for the president. When Lemnitzer brought Kennedy the Northwoods Project to shoot down American citizens in the streets of America and to blow American airliners out of the sky in order to place the blame on Castro so that the US could invade and achieve "regime change," a popular term of the George W. Bush regime, in Cuba, President Kennedy removed Lemnitzer as chairman and sent him to Europe as head of NATO.

Kennedy did not know about Operation Gladio, an assassination program in Europe run by NATO and the CIA. Communists were blamed for Operation Gladio's bombings of civilians in train stations in order to erode communist political influence, especially in Italy. Thus, Kennedy's way of getting rid of Lemnitzer put Lemnitzer in charge of this program and gave Lemnitzer a way to get rid of John Kennedy.

Anyone who thinks that democratic governments would not kill their own citizens is uninformed beyond belief. If, dear reader, you are one of these gullible people, please go to the Internet and become familiar, for example, with Operation Northwoods and Operation Gladio.

Dr. Paul Craig Roberts was Assistant Secretary of the Treasury for Economic Policy and associate editor of the Wall Street Journal. He was columnist for Business Week, Scripps Howard News Service, and Creators Syndicate. He has had many university appointments. His internet columns have attracted a worldwide following.

Roberts' latest books are [The Failure of Laissez Faire Capitalism and Economic Dissolution of the West](#), [How America Was Lost](#), and [The Neoconservative Threat to World Order](#).
