Who: Representatives of AE911Truth and Richard Gage, AIA, **SF Bay Area** architect and founder of the non-profit Architects & Engineers for 9/11 Truth, Inc. (AE911Truth) will announce that more than [1,000 architects and engineers](#) in dozens of countries now support the call for a new independent investigation into the destruction of the Twin Towers and Building 7 at the World Trade Center on September 11, 2001.

Signers of the Architects & Engineers for 9/11 Truth Petition will discuss the organization's startling findings, based on examination of the forensic evidence, videos and eye witness testimony omitted from official reports, such as the free-fall collapse of the 47 story WTC building 7 into its own footprint and the discovery of advanced explosive nano-thermitic material found in the WTC dust samples. The implications of these findings have the potential of profound impact on the **Khalid Sheikh Mohammed** trial. The focus of this

press conference will be to detail the scientific concerns of these building and technical professionals whose findings reveal that all three skyscrapers were destroyed by explosive controlled demolition – not by jet plane impacts and fires. AE911Truth is also calling for a grand jury investigation of Shyam Sunder, NIST Lead Investigator and John Gross, NIST Co-Project Leader (National Institute for Standards and Technology). The Petition will be provided to the offices of every congressional representative on the same date – February 19th.

This press conference will be hosted concurrently in cities throughout the country including San Francisco, Los Angeles, Las Vegas, Seattle, Portland, Chicago, Austin, Dallas, Madison, Dover, NH, Tulsa, Tucson, Boston, Alexandria, VA (DC), Tampa, Temple Terrace, FL, Denver, Newark; and internationally in Ontario, Vancouver, Brussels, Denmark, Sydney, and Wellington, NZ. The SF press conference will be accessible to media (audio and video) via webinar at www.ae911truth.org at 11:00am PST on Friday Feb 19, 2010.
