The Global Research News on RBN welcomes Rep. Dennis Kucinich, to debate and discuss the Articles of Impeachment directed against the President of the United States.

Having been elected to Cleveland's City Council at age 23, Dennis J. Kucinich was well-known to Cleveland residents when they chose him as their mayor in 1977 at the age of 31. At the time, Kucinich was the youngest person ever elected to lead a major American city.

In addition to being Mayor of Cleveland, Kucinich has served on the Cleveland City Council (1970-75, 1981-82); served as the Clerk of Courts for the Cleveland Municipal Court (1976-77); Ohio State Senator (1994-96); and in November 2004, was elected to his fifth term as a Member of the United States House of Representatives (1997-present).

Since being elected to Congress in 1996, Kucinich has been a tireless advocate for worker rights, civil rights and human rights.

In Congress, Kucinich has authored and co-sponsored legislation to create a national health care system, preserve Social Security, lower the costs of prescription drugs, provide economic development through infrastructure improvements, abolish the death penalty, provide universal prekindergarten to all 3, 4, and 5 year olds, create a Department of Peace, regulate genetically engineered foods, repeal the USA PATRIOT Act, and provide tax relief to working class families.

In his district, Kucinich has been recognized by the Greater Cleveland AFL-CIO as a tireless advocate for the social and economic interests of his community. Kucinich led the effort to save Cleveland's 90 year-old steel industry and the

thousands of jobs and retiree benefits it provides. While hundreds of community hospitals have been closed throughout the country, Kucinich led a community-based effort to reopen two Cleveland neighborhood hospitals.

About Global Research Hosts

Award winning author and economics professor **Michel Chossudovsky** is Director of the Centre for Research on Globalization, Montreal, which hosts the critically acclaimed website: www.globalresearch.ca.

Michel Chossudovsky has taught at universities and academic institutions in North America, Western Europe, Latin America, Asia and the Pacific. He has undertaken field-research in all major regions of the developing World and has traveled to over 100 countries.

“It was as a young visiting professor at the Catholic University in Santiago, Chile, that Chossudovsky’s interest in “economic repression” was first pricked. Augusto Pinochet’s military junta, which overthrew Salvador Allende in 1973, quadrupled the price of bread and introduced other measures that would now be referred to as “a structural adjustment program.” Chossudovsky set out, with a doctor, to study the malnourishment resulting from the bread price hike. He wound up with a paper that held the Pinochet regime responsible not only for conventional forms of political repression but for “economic repression” that impoverished three-quarters of Chile’s population. Since then he has

documented the purposeful impoverishment of people in dozens of countries.”
(Juliet O'Neill, The Ottawa Citizen)

Michel Chossudovsky has also worked for several United Nations organizations on missions to Latin America and sub-Saharan Africa and has acted as adviser to governments of developing countries.

He is an active member of the Canadian antiwar movement and has written extensively on US and allied war plans in the Balkans and the Middle East.

He is the author of several international best sellers including *The Globalization of Poverty and the New World Order* (2003) and *America's "War on Terrorism"* (2005) and more than 500 articles. His writings have been translated into more than 25 languages. He is also a contributor to the Encyclopaedia Britannica.
