My Take...

We are now seeing some of the worst motor vehicle crashes in decades.

Australia just had its worst road accident in 30 years, involving a bus.

Manitoba just had a bus crash with 16 dead.

The 10 bus crashes I've documented in this substack occurred over a period of just over one month, from May 11, 2023 to June 20, 2023.

It's not always the bus driver at fault, sometimes it's a truck or SUV driver who had a medical emergency and crashed into a bus.

There is no question that roads are less safe these days, and fully COVID-19 vaccinated drivers are having all kinds of medical emergencies, resulting in horrific accidents.

This very disturbing trend is worth keeping an eye on.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
