

# Seeing through the Deceptions: The Truth about War

By [Global Research](#) and [Global Research](#)

Theme: [Media Disinformation](#)

*Mainstream media consistently distributes disinformation to push the war agendas of the very institutions of power that keep them on the air.*

*Time and again, we have seen how deceptive reports have sent the West headlong into yet another conflict: Yugoslavia, Iraq, Afghanistan, Libya, Syria... the list is long and growing.*

*Many media portals exist proclaiming to have real, legitimate news, but unless they are 100% independent it becomes difficult to know to what extent their newscasts are imbued with spin.*

*In battling this onslaught of disinformation, the Global Research website remains completely independent: no funding from governments, foundations or institutions. It exists solely on account of the [contribution of its readership](#).*

As Graeme MacQueen writes:

Today, more than ever before, war depends on deception. To oppose war without seeing through the deceptions currently being practiced by governments of the West is to act in vain. I have visited many websites that attempt to offer alternatives to the mainstream media, but I have been disappointed repeatedly by their inability or refusal to challenge these myths and deceptions.

Global Research bravely takes on this task, and that is why it is a vital resource for us all. This is why I have made its website my homepage and why I have taken out a membership. I hope you will do the same. – Prof. [Graeme MacQueen](#) (for list of articles, [click here](#)), Co-editor, Journal of 9/11 Studies
