 As a parent I don't want to send my child to school in the middle of a pandemic when they're not **vaccinated**.

Also, pls don't club Malls, theatres, bars with Gyms.

Gym is the place where people go to be healthy & fit. Gyms aren't half as crowded as buses, trains & flights.

 My son tested positive just now. He isn't **vaccinated** yet.  
 He has head ache & mild fever since morning. No cough. We both are quarantined in the house.

And I am about to get 2nd time infected nursing my boy.

Friends – Wanted to share a bit of gratitude. I just started a new role at Johnson & Johnson as Director of Channel Strategy for Vaccines. First objective is to support the successful launch of our COVID vaccine, and I am extremely proud to play a small role in this unprecedented challenge.

After separating from military service nine years ago, I've been incredibly fortunate to continue to learn from world-class mentors and grow within a values-driven organization. Grateful for the journey! 😊

Dear Friends and Family - It is with great sadness to share that our 10 year old daughter Kelsey Morand passed away unexpectedly two nights ago. She suffered a brain injury brought on by a seizure and the resulting injury was too severe. Kelsey was given the best care, surrounded by loved ones at the hospital, and Dana and I were with her at the end.

Dana, Parker, and I are so grateful for the love and support you have shown to Kelsey and our family over many years. Kelsey was the most caring, compassionate, kind, and beautiful girl we could have ever asked for, and she made this world brighter and warmer with her presence.

Hi friends, sorry for falling off the face of the earth for the last decade and not being in touch with anyone. I'm posting now to request prayers for Kelsey Morand, the 10-year-old daughter of our dear friends Dana and Mike.

Kelsey is in the pediatric ICU after an extreme seizure yesterday that resulted in her flatlining for 20 minutes. She has been intubated, and is continuing to have seizures. They don't know how long her brain was deprived of oxygen, and they don't yet know the extent of brain damage. Please say prayers for her and her family or send positive thoughts or light a candle or do anything that you can to send positive energy her way.

I registered last night. I walked into a vaccination site this morning. I got vaccinated.

Quick. Painless. Efficient.

If registered, PLEASE get vaccinated. It's good for you, good for those you love and who love you & it's good for the population.

Trust science. Just do it.

I never thought I would have to make a post like this but I know I need to ask for help at this point and I can't do everything on my own. For those that don't know yet, Brian suffered a seizure at work Tuesday evening. He has no history and we don't know the cause yet. He fell and dislocated his shoulder and fractured his rotator cuff. They went in for surgery this morning and there were complications during sedation, but they continued with surgery and he had many more complications with his lungs, heart, oxygen and blood pressure. He is currently stable in the ICU but he is fully sedated and intubated with breathing tube. When he is able to come home, he will not only be weak now because of all the issues, but immobile in his right arm for at least 6 weeks. I know I have an

[Zeb Snyder, a UHS junior, died after suffering a seizure Thursday.](#) According to a GoFundMe online, Zeb had been put on medication for a seizure he had previously had in hopes to help him. Unfortunately he suffered another seizure, in which took his young life.

The money raised from the GoFundMe created in Zeb's honor is going to a scholarship in his honor.

"One of his former classmates will receive this Scholarship, a classmate particularly in the Ag Industry as that is what Zeb wanted to pursue," the GoFundMe page read. "In this way, he will be forever carried and remembered."

According to Zeb's obituary, the 17-year-old was the treasure of the school's FFA chapter, a member of the 4-H club and was a boy scout.

Relaxing with my pretty kitty after my second Covid vaccine, yesterday. I ran a low grade fever most of last night, accompanied with chills and a little nausea. By lunchtime today I was feeling much better. We are so lucky to have the pick of these incredible vaccines. Most other people in the world would give anything to be able to have their choice between them and go get one. Just absolutely incredible scientific work and achievement.

Dec. 14, 2022 – Brazil – 16 year old aspiring model and Brazilian Jiu-Jitsu practitioner Andressa Santos Monteiro died suddenly in her sleep on Dec. 14, 2022 from a sudden cardiac arrest. She had started suffering from seizures at school a few months prior to her death.

My Take...

COVID-19 mRNA vaccines cause seizures, or worsen existing seizure disorders.

Analysis of VAERS reported in May 2022 found COVID-19 vaccines cause 35x (3500%) more seizures than influenza vaccines! ([click here](#))

There are many studies coming out now in 2023 about COVID-19 mRNA vaccines causing

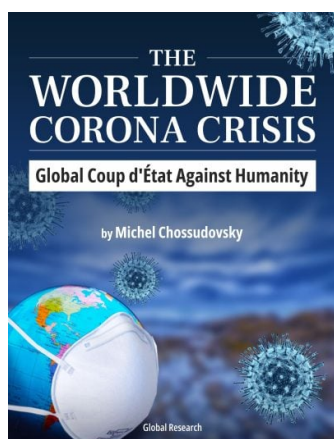

seizures, or worsening seizure disorders. ([click here](#))

## The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*
