[Citizens' Petition to Lift All Sanctions Against Venezuela Is Rejected by Canadian Parliament](#)

By [Nino Pagliccia](#), November 09, 2018

While Canada chooses to speak of the “dire human rights and humanitarian crisis in Venezuela” – where there is none – it ignores, condones and rather endorses Saudi Arabia in the making of one of the worst humanitarian crisis in Yemen. That is the most vicious double standard that a “democratic” country can demonstrate.

[None Dare Call It Victory: Analysis of US 2018 Elections](#)

By [Dr. Jack Rasmus](#), November 09, 2018

The failure of Democratic Party leaders' 2018 strategy to deliver as promised last night should also raise some serious questions about its strategy going forward for 2020. That strategy focused on running women and a few veterans in suburban districts and targeting the independent voter—a Suburbia Strategy—i.e. an approach apparently abandoning the 2008 successful Democratic strategy of targeting millennials, blacks and latinos, and union workers who since 2012 have been steadily reducing their support for Democrats.

[Nicaragua and the U.S. Neo-fascist Offensive](#)

By [Fabián Escalante Font](#), November 09, 2018

A police force and army (both formed in the liberation war against the empire) have together provided security for citizens and have systematically combated drug trafficking and gangs in the region. The security they offer doesn't exist in any other country in the area nor probably in other regions of the continent.

[5G Corporate Grail. Microwave Radiation](#)

By [Joyce Nelson](#), November 09, 2018

There's a lot of hype about 5G, the fifth-generation wireless technology that is being rolled out in various "5G test beds" in major cities including Vancouver, Toronto, Ottawa, New York, and Los Angeles. But it's hard to see why we should be excited. Proponents talk about the facilitation of driverless vehicles and car-to-car "talk," better Virtual Reality equipment, and, of course, "[The Internet of Things](#)" (IoT) – the holy grail of Big Tech that is just vague enough to sound sort of promising.

[What is the Significance of the Reopening of the UAE Embassy in Damascus. Syria's "Pivot" towards "Reconciliation" with Saudi Arabia?](#)

By [Andrew Korybko](#), November 08, 2018

It would be foolish to believe that the uber-wealthy UAE needs war-torn Syria more than the reverse, so the reported reopening of the Emirati Embassy more than likely signals a significant change in policy on Damascus' behalf and not Abu Dhabi's, the ramifications of which could be far-reaching for the entire region and especially Iran.

[The CIA's Latest Greatest Failure](#)

By [Philip Giraldi](#), November 08, 2018

Government agencies that are skilled at invading nearly everyone's privacy worldwide are sometimes totally inept at keeping their own internal communications secure. The problem is particularly acute for the Central Intelligence Agency (CIA), which must maintain secure contact with thousands of foreign agents scattered all over the world.
