[Gaza Will be the Grave of the Western-led World Order](#)

By [Prof. Saul J Takahashi](#), January 18, 2024

No matter how it concludes, South Africa's lawsuit in the International Court of Justice arguing Israel has violated the Genocide Convention will go down in history. It will either be remembered as the first step towards finally holding a rogue state accountable for repeated, longstanding violations of international law; or as the last, dying breath of a dysfunctional, Western-led international system.
