By [Dr. Rudolf Hänsel](#), November 16 2020

Autonomy is the state and attitude to life of self-determination, independence and self-administration. Philosophically, it is the ability to see oneself as a being of freedom and to act from this freedom. Equipped with these special abilities, however, man always hands over to another person the power to decide on his life and his future.

[Joe Biden’s Love Affair with the CIA](#)

By [Daniel Boguslaw](#), November 16 2020

The CIA and its assemblage of operatives, directors, and informants are easy targets for the ire of anyone with even a dim awareness of the terror and harm they have caused. [COVID-19: Politicisation, "Corruption," and Suppression of Science](#)

By [Kamran Abbasi](#), November 16 2020

Politicians and governments are suppressing science. They do so in the public interest, they say, to accelerate availability of diagnostics and treatments. But the underlying behaviour is troubling.

[Making Sense of the Oriental Mindframe](#)

By [Prof. Ruel F. Pepa](#), November 15 2020

The oriental mind's presupposition is: We speak from experience. What therefore matters more is not solely what is spoken of (though of course, it has also its own degree of importance) but the experience — shallow or deep — that leads to the utterance.
