

Selected Articles: Fake Coronavirus Data, Fear Campaign. Spread of the COVID-19 Infection

By [Global Research News](#)

Global Research, April 06, 2020

Online independent analysis of US-led wars, rampant corruption, corporate greed, civil rights and fraudulent monetary transactions is invariably relegated to the bottom rung of search engine results.

As a result we presently do not cover our monthly running costs which could eventually jeopardize our activities.

[Henry Kissinger Calls for a New Post-Covid World Order](#)

By [Mike Whitney](#), April 06, 2020

Henry Kissinger thinks the Coronavirus is a threat to his precious New World Order, so he wants President Trump to do whatever he can to protect the system. In an opinion piece that was published in the Wall Street Journal on Friday, the former Secretary of State urged Trump to launch a grand project, like the Marshall Plan, to unify the allies and convince them that the Uncle Sam can still rally the troops in a time of crisis.

[COVID-19 a Diabolical Totalitarian Plot?](#)

By [Stephen Lendman](#), April 06, 2020

Today indeed is the most perilous time in world history. COVID-19 is being used by US-led

powerful forces to convince ordinary people in the West and elsewhere to sacrifice personal freedoms for greater security.

Their aim is all about eliminating both by getting unwitting populations to accept what harms their well-being and futures.

It's also about consolidating greater wealth and power, the public none the wiser.

[People, Profit and Planned Economy](#)

By [Massoud Nayeri](#), April 06, 2020

The concept of an economic system that puts Profit over People has been explained and discussed many times and in many ways. It just took a tiny virus (COVID-19) to display the contradiction between People and Profit as an urgent national question. In this equation, President Trump, as the voice of most powerful capitalist country on earth (the "GREAT AMERICA") with his cheerleaders mostly at Fox News and in favor of PROFIT, suggests that "We have to get back to work" as soon as possible. Contrary to this idea, the scientists, medical community and people who are actually in the battlefield fighting this disease are representing the PEOPLE in this equation. Based on the ongoing and rapid escalation in the number of the infected and dead, they believe that the nation is not ready to go back to work.

[A Globalized World Economy, COVID-19 and China's "Health Silk Road"](#)

By [Sara Flounders](#), April 06, 2020

The global COVID-19 viral pandemic has exposed in the sharpest light the contradiction between a globalized world economy and a still existing but archaic capitalist system based on the private expropriation of wealth and resources.

The relentless drive to reap a profit from every type of human interaction now stands exposed as the greatest danger to the people of the whole planet.

[Was the Federal Reserve Just Nationalized?](#)

By [Ellen Brown](#), April 06, 2020

Mainstream politicians have long insisted that Medicare for all, a universal basic income, student debt relief and a slew of other much-needed public programs are off the table because the federal government cannot afford them. But that was before Wall Street and the stock market were driven onto life-support by a virus. Congress has now suddenly discovered the magic money tree. It took only a few days for Congress to unanimously pass

the Coronavirus Aid, Relief, and Economic Security (CARES) Act, which will be doling out \$2.2 trillion in crisis relief, most of it going to Corporate America with few strings attached. Beyond that, the Federal Reserve is making over \$4 trillion available to banks, hedge funds and other financial entities of all stripes; it has dropped the fed funds rate (the rate at which banks borrow from each other) effectively to zero; and it has made [\\$1.5 trillion available](#) to the repo market.

[Fake Coronavirus Data, Fear Campaign. Spread of the COVID-19 Infection](#)

By [Prof Michel Chossudovsky](#), April 05, 2020

Do not let yourself be misled by the fear campaign, pointing to a Worldwide coronavirus calamity with repeated “predictions” that hundreds of thousands of people are going to die.

These are boldface lies. Scientific assessments of the health impacts of the COVID-19 have been withheld, they do not make the headlines.

While [COVID-19 constitutes a serious health issue](#), why is it the object of fear and panic?

[COVID-19 Depression: Trump Needs a War](#)

By [Kurt Nimmo](#), April 05, 2020

Critical supply lines foolishly based on the globalist profit-maximizing concept of “just in time” are now breaking down. How long do you suppose unemployed service industry and gig-economy workers will tolerate a serious shortage of food and other essentials before looting stores like the poor and hungry of Palermo? How long before armed citizens begin taking what they need and the military is called in to restore order and confiscate weapons like they did during Katrina? All hell will break loose from Baltimore to Seattle and the government may impose martial law (it can be argued we are already under a soft form of martial-medical law, half of us confined to our homes, the equivalent of house arrest, scared to death of a virus they now say can spread by merely opening of one’s mouth and speaking and thus allowing viral-laden breath to drift in the air).
