[Sweden Debunks the Covid Hysteria: No Lockdown, No Masks, No Vaccine](#)

By [Jordan Schachtel](#), August 11, 2020

In Sweden, there's no masks, no lockdown, no vaccine, and most importantly, no problem.

Life has largely returned to normal in Sweden, and it all happened without the economy-destroying non-pharmaceutical interventions (NPI) demanded by the “public health expert” class, who guaranteed that chaos would come to every country that disobeyed their commands to hit the self-destruct button for their nations.

By [Renee Parsons](#), August 11, 2020

Rather than hold the line against peaceful [protests](#) that morphed into rebellion after George Floyd's death in Minneapolis on May 25th, enfeebled Democratic officials on the front lines appeared to stand docile against the [mob rule](#) when, in reality, their impotence was more of a well honed [strategy](#) of acquiescence. In a display of massive hubris threatening disintegration of the country's sovereignty, those Elected continue to play a ruthless partisan game abstaining on the ultimate [destruction](#) of their own country and the municipality for which they are legally responsible.

[Horror in Beirut. A Critical Examination. The Catastrophe in A Broader Context](#)

By [Philip Giraldi](#), August 11, 2020

The Establishment explanation for what occurred in Beirut's port on August 5th is that the horrific series of explosions that killed hundreds, injured thousands and left hundreds of thousands homeless was a terrible accident that came about due to a multi-faceted failure by Lebanon's corrupt and incompetent government. Or at least that is the prevalent narrative in the international media, but a more critical examination of what took place is a bit like peeling an onion only to discover that there are layers and layers of alternative possibilities that just might place the catastrophe in a broader context.

By [Michael J. Matt](#), August 11, 2020

Michael J. Matt takes a look at some good news regarding the Covid recovery rate before exploring what's really going on with the global pandemic.

To understand this, he takes us to Switzerland—to the World Economic Forum—where the movers and shakers of the world have been meeting on a regular basis, especially since January 2020, to plan 'The Great Reset' at the Davos 2021 Summit in January.

[Global Destruction, The COVID-19 Lockdown: Economic and Social Impacts](#)

By [Peter Koenig](#), August 11, 2020

What we have to realize is that the global, country-by-country destruction – happening simultaneously – is not a coincidence.

It has been planned for decades. Thousands of pages were written alone for the preparation of such documents, like the 2010 Rockefeller Report and the preparation of Event 201 in

NYC on October 18, 2019, as well as “studies” for WHO to justify calling the new corona virus (SARS-2-2019 / COVID-19) a pandemic that eventually prompted a worldwide lockdown around mid-March 2020.

Dr Amir Khan appeared on ITV’s Good Morning Britain today, suggesting men – who are notionally at increased risk of coronavirus infection – [should take a contraceptive pill filled with oestrogen](#). His theory, which he did not support with research, is that the oestrogen will boost the male immune system.

Hormone treatment is a big deal, potentially dangerous and seriously life-changing. To suggest its use to treat a disease which is harmless in over 95% of cases is borderline insanity, especially with no research to back it up. We tweeted about at the time, but GMB’s twitter account [has since deleted the video](#).

[Hiroshima at 75. The Doomsday Clock and the Ongoing Threat of “Atomic Horror”](#)

By [Michael Welch](#), [Prof Michel Chossudovsky](#), and [Greg Mitchell](#), August 07, 2020

The two state of the art weapons released over the cities of Hiroshima and Nagasaki constituted the most devastating blasts of all time.

According to the best estimates of anti-nuclear weapons scientists, anywhere from 110,000 to 210,000 people died in the twin holocausts. Two thirds of the city of Hiroshima were wiped out in a single attack, the equivalent of 15,000 tons of TNT.
