[Trump Regime Blacklists More Chinese Firms](#)

By [Stephen Lendman](#), July 21, 2020

Last year, at least 148 tech-related Chinese enterprises were blacklisted from the US market — including tech giant Huawei and its 70 affiliates.

Targeted Chinese firms are involved in producing aviation related products, semiconductors, engineering, as well as other high-tech products and components.

[By Rejecting Huawei, Britain Risks Being Swept up in the US' Next Ideological Crusade](#)

By [Johanna Ross](#), July 21, 2020

'Let China sleep, when she wakes, she will shake the world' Napoleon reportedly said. But China has been far from asleep in recent years – the West has. In the last few decades the East Asian country of around 1.4 billion has become the manufacturing powerhouse of the

world. It is not common knowledge, but in most fields it has already surpassed the United States. In a generation, a country which did not even feature on the economic league tables in 1980 is now leading them. By 2024 its estimated GDP will exceed the US' by over \$10 billion.

[Why Did Hundreds Of CEOs Resign Just Before The World Started Going Absolutely Crazy?](#)

By [Michael Snyder](#), July 17, 2020

In the months prior to the most ferocious stock market crash in history and the eruption of the biggest public health crisis of our generation, we witnessed the biggest exodus of corporate CEOs that we have ever seen. And as you will see below, corporate insiders also sold off billions of dollars worth of shares in their own companies just before the stock market imploded. In life, timing can be everything, and sometimes people simply get lucky. But it does seem odd that so many among the corporate elite would be so exceedingly “lucky” all at the same time. In this article I am not claiming to know the motivations of any of these individuals, but I am pointing out certain patterns that I believe are worth investigating.

[Now Comes the Davos Global Economy “Great Reset”. What Happens After the Covid-19 Pandemic?](#)

By [F. William Engdahl](#), July 17, 2020

On June 3 via their website, the Davos World Economic Forum (WEF) unveiled the outlines of their upcoming January 2021 forum. They call it “The Great Reset.” It entails taking advantage of the staggering impact of the coronavirus to advance a very specific agenda. Notably enough, that agenda dovetails perfectly with another specific agenda, namely the 2015 UN Agenda 2030. The irony of the world’s leading big business forum, the one that has advanced the corporate globalization agenda since the 1990s, now embracing what they call sustainable development, is huge. That gives us a hint that this agenda is not quite about what WEF and partners claim.

[China’s Economy and Globalization: A Look into the Future](#)

By [Peter Koenig](#), July 17, 2020

After the corona crisis, may the world be facing a monumental paradigm shift of power towards a more balanced civilization – more social justice and equity? The global almost total lockdown, chosen by most governments around the globe in response to mastering the Covid-19 crisis, devastated the world economy, as we know it – and hundreds of millions of lives. Was it necessary? Will there be a time when those responsible for this universal,

scientifically unnecessary lockdown be held accountable?

The unspoken truth is that the novel coronavirus provides a pretext to powerful financial interests and corrupt politicians to trigger the entire World into a spiral of mass unemployment, bankruptcy, extreme poverty and despair.

Imagine, you are living in a world that you are told is a democracy – and you may even believe it – but in fact your life and fate is in the hands of a few ultra-rich, ultra-powerful and ultra-inhuman oligarchs. They may be called Deep State, or simply the Beast, or anything else obscure or untraceable – it doesn't matter. They are less than the 0.0001%.

[Iran and China Turbo-charge the New Silk Roads](#)

By [Pepe Escobar](#), July 12, 2020

Two of the US's top "strategic threats" are getting closer and closer within the scope of the New Silk Roads – the leading 21st century project of economic integration across Eurasia. The Deep State will not be amused.

Iranian Foreign Ministry spokesman Abbas Mousavi blasted as "[lies](#)" a series of rumors about the "transparent roadmap" inbuilt in the evolving Iran-China strategic partnership.
