[Energy Wars: Outing the Nord Stream Saboteurs](#)

By [Dr. Binoy Kampmark](#), February 22, 2023

When news first emerged over explosions endured by the Nord Stream pipelines, known collectively as Nord Stream 1 and Nord Stream 2, an army of guessers was mobilised. The accusation that Russia had done it seemed counterintuitive, given that the Russian state company Gazprom is a majority shareholder of Nord Stream 1 and sole owner of Nord Stream 2.

[Who's Winning and Losing the Economic War Over Ukraine?](#)

With the Ukraine war now reaching its one-year mark on February 24, the Russians have not achieved a military victory but neither has the West achieved its goals on the economic front. When Russia invaded Ukraine, the United States and its European allies vowed to impose crippling sanctions that would bring Russia to its knees and force it to withdraw.

Several years prior to the formation of the Southern Tenant Farmers Union (STFU) in 1934, a series of events in the state of Alabama would give rise to the formation of the Sharecroppers Union (SCU). This organization was founded with the assistance of African American leaders within the Communist Party in Alabama largely centered in the steel industry in Birmingham.

Last month, the Biden administration [announced](#) that on May 11, 2023, COVID-19 national and public health emergency declarations that were put in place under former President Donald Trump in early 2020 will [end](#). [America the Feckless. Lies and Hypocrisy Are at the Heart of the Biden Foreign Policy](#)

By [Philip Giraldi](#), February 21, 2023

One would think that the United States military staging an unprovoked "plausibly deniable" covert attack on a nation with which it is not at war would be at least considered newsworthy. That the attack did grave damage to a country with which the US is closely allied would seem to make the aggression even more unthinkable.

[Biden's Visit to Kiev: Distract Public Opinion From "Disadvantageous Developments". Tough Days Ahead for US-NATO?](#)

By [Andrew Korybko](#), February 21, 2023

The whole reason why the mainstream media and allied accounts on social media are overdosing on this cheap "copium" is because they know very well that tougher days are ahead for their side considering NATO's military-industrial crisis, the sanctions' failure, and Russia's likely capture of Artyomovsk/"Bakhmut".

[Solution to the World's Carbon Problems: Compel Children to Eat Unhealthy Processed Vegetarian Alternatives to Wholesome Grass-fed Meats or Fresh Local Foods](#)

By [John Klar](#), February 21, 2023

Touting a supposed "new study," mainstream media is unquestioningly advocating globalist prescriptions for climate change that would utilize existing public school lunch programs to compel children to eat unhealthy processed vegetarian alternatives to wholesome grass-fed meats or fresh local foods. The audacity and misinformation of these proposals reflect elitist disconnect from basic nutrition and soil health.
