[Sending NATO Soldiers to Ukraine Is “Apocalypse Warning,” Says Slovak Prime Minister](#)

By [Ahmed Adel](#), March 06, 2024

Fico also highlighted Ukraine’s inability to resolve the conflict despite the West’s substantial financial and military aid. He emphasised that an EU and NATO military presence in Ukraine could potentially alter the dynamics of the conflict and trigger catastrophic consequences.

[The Seven Horsemen of the Pharmaceutical Apocalypse](#)

By [John C. A. Manley](#), March 06, 2024

In [an open letter](#), seven ministers of the UK parliament have requested (demanded would have been better) that the Office of National Statistics publish a comprehensive analysis of deaths of vaccinated and unvaccinated people to prove or disprove whether the mRNA injections are “safe and effective” or “dangerous and defective.”

[Secretary Blinken Announces Warhawk Nuland’s Resignation](#)

By [Dr. Paul Craig Roberts](#), March 06, 2024

The announcement is a surprise for many reasons. Nuland is the primary and best-placed operative of the neoconservatives’ control over US Foreign Policy. Moreover, things are going well for her war agenda. For a year of longer she has been advocating for supplying Ukraine with long range missiles, and now German generals are recorded talking about doing so. She has pushed for NATO troops for Ukraine, and Washington’s French puppet has called for this step to be taken.

[Seven Members of Parliament Request UK Statistics Authority to Re-do the Analysis of COVID-19 Vaccine Safety and Effectiveness](#)

By [Andrew Bridgen MP](#), [Dame Andrea Jenkyns MP](#), [Sir Robert Syms MP](#), and [et al.](#), March 06, 2024

We applaud the UK ONS for producing a number of time-series cohort analyses which looked at vaccinated and unvaccinated people over time since vaccination to determine whether or not the COVID vaccines are safe. These can be found at “Deaths by Vaccination Status, England” on the ONS website. Unfortunately, the parameters chosen by the Authority are insufficient to make a dispositive determination as to whether the vaccines are “safe and effective” or not because the interval sizes were too few and too large.

[Gaza Airdrops: Propaganda and Possibilities](#)

By [Dr. Paul Larudee](#), March 06, 2024

With the entry of the US into the airdrop arena, propaganda is becoming an even more dominant function of the project. 38,000 MRE (Meals Ready to Eat) provide less than one day’s food supply for less than 2% of Gaza’s population, and none of its medicine, potable water, fuel or shelter needs, but the airdrop dominated the US media.

[The Great Election Fraud: Manufactured Choices Make a Mockery of Our Republic](#)

By [John W. Whitehead](#) and [Nisha Whitehead](#), March 06, 2024

This year’s presidential election, much like every other election in recent years, is what historian Daniel Boorstin referred to as a “[pseudo-event](#)”: manufactured, contrived, confected and devoid of any intrinsic value save the value of being advertised.

[40-Year Old Fox News Journalist Diagnosed with Stage 4 Appendix Turbo Cancer After Fox News Mandated COVID-19 Vaccines](#)

By [Dr. William Makis](#), March 05, 2024

Just over two years ago, when I was pregnant with my daughter, I had a [complete lung collapse](#) and ended up needing emergency lung surgery when I was six months pregnant. It was then that I had been diagnosed with another very rare lung disease that affects women in the child-bearing years called Lymphangioleiomyomatosis (LAM). I just couldn’t fathom that I would be hit with not one extremely rare disease, but two...and in less than two years!
